Independent Auditor's Report

To the Board of Education
Moore Norman Technology Center School District No. 17
Norman, Oklahoma

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Moore Norman Technology Center School District No. 17 (the District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Moore Norman Technology Center School District No. 17, as of June 30, 2012, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated March 11, 2013, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was conducted for the purpose of forming opinions on the basic financial statements that collectively comprise Moore Norman Technology Center School District No. 17's basic financial statements as a whole. The information shown in the table of contents as other supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the District. The schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole. The management's discussion and analysis, budgetary comparison schedules- general and building funds, and the schedule of accountants' professional liability insurance affidavit have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Eide Bailly LLP

Oklahoma City, Oklahoma
March 11, 2013

Our discussion and analysis of the Moore Norman Technology Center, School District #17's, performance provides an overview of the School District's financial activities for the year ended June 30, 2012. Please read it in conjunction with the District's financial statements, which immediately follows this section.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the School District as a whole and present a longer-term view of the School District's finances. Fund financial statements report the School District's operations in more detail than the government-wide statements by providing information about the School District's most significant funds. For governmental activities, the fund statements tell how these services were financed in the short term as well as what remains for future spending.

FINANCIAL HIGHLIGHTS

The District's financial status improved from the last year. Total net assets increased 2.3 percent over the course of the year.

- Overall revenues were \$31.7 million and overall expenses were \$30.6 million
- The District's net assessed valuation increased by \$64.88 million or 4.0 percent.
- The District increased its outstanding long-term debt \$600,000, or 3.9 percent.

Reporting the School District as a Whole

The Statement of Net Assets and the Statement of Activities

One of the most important questions asked about the School District's finances is, "Is the School District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the School District as a whole and about its activities in a way that helps answer this question. These statements include *all* assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in them. You can think of the School District's net assets – the difference between assets and liabilities – as one way to measure the School District's financial health, or financial position. Over time, increases or decreases in the School District's net assets are an indicator of whether its financial health is improving or deteriorating.

In the Statement of Net Assets and the Statement of Activities, we report the following:

Governmental activities – The School District's basic services are reported here, including the educational activities for daytime high school and adults, short term training for adults, services and training for business and industry, and general administration. Also, the School District charges a fee to customers to help defray expenses involved in providing the services, Childcare Center and Bookstore activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Some funds are required to be established by State law and by bond covenants. All of the School District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in reconciliation at the bottom of the fund financial statements.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required and other supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

THE SCHOOL DISTRICT AS A WHOLE

	<u>FY 2011</u>	<u>FY 2012</u>
Current and Other Assets	\$ 15,591,549	\$ 13,005,685
Capital Assets	<u>49,779,745</u>	<u>54,065,477</u>
Total Assets	<u>\$ 65,371,294</u>	<u>\$ 67,071,162</u>
Long-term Liabilities	\$ 12,806,651	\$ 13,257,748
Other Liabilities	<u>4,285,603</u>	<u>4,459,224</u>
Total Liabilities	<u>\$ 17,092,254</u>	<u>\$ 17,716,972</u>
Net Assets		
Invested in capital assets	\$ 37,024,824	\$ 37,984,994
Restricted	3,791,536	3,740,483
Unrestricted	<u>7,462,680</u>	<u>7,628,713</u>
Total Net Assets	<u>\$ 48,279,040</u>	<u>\$ 49,354,190</u>

Net Assets. The District's combined net assets were larger on June 30, 2012, than they were the year before – increasing by 2.27% from \$48.3 million to \$49.3 million. Most of this improvement is mainly due to capital outlays to purchase or build capital assets, and the recognition of property taxes earned, even though not yet collected.

The District's improved financial position is a product of many factors. Growth during the year in taxes was a significant contributor to this improvement.

Moore Norman Technology Center School District No. 17
Management's Discussion and Analysis (Unaudited)
June 30, 2012

For the years ended June 30, 2012 and 2011, net assets changed as follows:

	<u>FY 2011</u>	<u>FY 2012</u>	<u>Percent Change</u>
Beginning net assets	\$ 44,573,297	\$ 48,279,040	
Revenues			
Program revenues			
Charges for services	2,505,016	2,696,120	
Operating grants/contributions	2,661,550	1,877,187	
General revenues			
Property taxes	22,575,360	23,662,277	
Federal and State grants	3,507,987	3,466,759	
Loss from disposals	(4,454)	(24,291)	
Investment earnings	6,309	1,695	
Other revenues	<u>250,454</u>	<u>57,193</u>	
Total revenues	<u>\$ 31,502,222</u>	<u>\$ 31,736,940</u>	<u>.75%</u>
Expenses			
Program expenses			
Instruction	\$ 9,090,385	\$ 9,633,506	
Support services	14,227,602	16,081,781	
Non-instruction	2,166,168	2,412,655	
Interest on long-term debt	865,058	650,494	
Depreciation-unallocated	<u>1,447,266</u>	<u>1,883,354</u>	
Total expenses	<u>\$ 27,796,479</u>	<u>\$ 30,661,790</u>	
Increase in net assets	<u>3,705,743</u>	<u>1,075,150</u>	<u>-70.99%</u>
Ending net assets	<u>\$ 48,279,040</u>	<u>\$ 49,354,190</u>	<u>2.27%</u>

Changes in Net Assets. The District's total revenues increased .75 percent to \$31.7 million. Property taxes and federal financial aid accounted for most of the increase. Property taxes accounted for 74 percent of the District's collections. Another 6 percent came from tuition and fees.

Total revenues surpassed expenses, increasing net assets \$1.1 million over the past year.

The District's total expenditures increased by 10 percent to \$30.6 million. The District's expenses are primarily related to education, training and support of students and business clients (91.74%).

Governmental Activities

To aid in the understanding of the Statement of Activities some additional explanation is provided. Of particular interest is the format that is significantly different than a typical Statement of Revenues, Expenses, and Changes in Fund Balance. You will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is a Net (Expense)/Revenue. The reason for this kind of format is to highlight the relative financial burden of each of the functions on the School District's taxpayers. It also identifies how much each function draws from the general revenues or if it is self-financing through fees and grants. Some of the individual line item revenues reported for each function are:

District Sources of Revenue:

Ad Valorem property tax	Taxes for current year and prior years, revenue in lieu of taxes
Interest	Interest earning of investments and taxes
Tuition and Fees	Tuition and fees for Full-time adult classes, Short-term adult classes, Safety Training, Industry Specific, Assessment, Quality Management, and Health Certification
Local Sources	Rental of school facilities and property, sale of surplus equipment, bookstore revenue, reimbursement for insurance loss recoveries, damages to school property, rebates, and fiscal agent expenses.
State Revenue	Formula operation, Existing Industry Initiative, training for industry programs, Safety Training, Welfare to Work, and Professional Development
Federal Revenue - Grants	TANF Grant and Carl Perkins Grants
Federal Revenue - Student Financial Aid	PELL Grants

THE SCHOOL DISTRICT'S FUNDS

The following schedule presents a summary of general, special revenue (building fund), other governmental fund (activity fund), and expenditures for the fiscal year ended June 30, 2012 and 2011.

Revenues	FY 2011		FY 2012	
	<u>Amount</u>	<u>Percent of Total</u>	<u>Amount</u>	<u>Percent of Total</u>
Property Taxes	\$ 22,497,560	70.61%	\$ 23,157,361	74.87%
Interest	6,309	0.02%	1,696	0.01%
Tuition and Fees	1,957,704	6.14%	1,918,605	6.20%
State Revenue	4,004,063	12.57%	3,470,453	11.22%
Federal Sources	783,306	2.46%	678,705	2.19%
Federal Sources-Student Financial Aid	1,517,865	4.76%	543,027	1.76%
Miscellaneous	<u>1,095,612</u>	<u>3.44%</u>	<u>1,161,337</u>	<u>3.75%</u>
Total Revenues	<u>\$ 31,862,419</u>	<u>100%</u>	<u>\$ 30,931,184</u>	<u>100%</u>

The declining economic conditions have led to a decrease in interest rates for investments. The declining economic conditions have also allowed for decreases in state funded Formula Operations, Existing Industry Initiatives and TIP projects. Reduction and elimination of some Carl Perkins grants along with the leveling off of Pell enrollments has caused a decrease in Federal funding. Economic growth within the School District and increase in property valuation led to increases in property taxes revenue.

Expenditures

- Instruction Expenditures for direct classroom activities

- Support Services Expenditures for administrative, technical and logistical support to facilitate and enhance education.

- Non-Instructional Services Activities concerned with providing non-instructional services to students, staff, or community.

- Facilities Activities involved with the acquisition of land buildings; remodeling buildings; the construction of buildings and additions to buildings; initial installation or extension of service systems and other built-in equipment; improvements to sites; and equipment. These expenditures are included below in capital outlay and debt service.

	Expenditures:	FY 2011	Percent	FY 2012	Percent
	<u>Amount</u>	<u>Amount</u>	<u>of Total</u>	<u>Amount</u>	<u>of Total</u>
Instruction	\$ 12,701,785	\$ 13,114,747	41.36%	\$ 13,114,747	41.43%
Support Services	11,729,951	12,386,160	38.20%	12,386,160	39.13%
Non-instructional Services	795,699	1,119,453	2.59%	1,119,453	3.54%
Capital Outlay and Debt Service	4,098,450	3,859,709	13.35%	3,859,709	12.19%
Other Outlays	<u>1,384,721</u>	<u>1,173,865</u>	<u>4.51%</u>	<u>1,173,865</u>	<u>3.71%</u>
Total Expenditures	<u>\$ 30,710,606</u>	<u>\$ 31,653,934</u>	<u>100.00%</u>	<u>\$ 31,653,934</u>	<u>100.00%</u>

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the General Fund budget had to be revised due to increase in local revenue sources. State revenue decreased to due to declining collections. Employees and departments were asked to spend their assigned budget wisely as economic conditions continued to show instability. The District was able to have a \$5.16 million fund balance at the end of the fiscal year.

Moore Norman Technology Center formally adopted an amended budget on August 11, 2011, which increased the overall budget by \$469,000. There were increases in Ad Valorem of \$550,000 with the final revised ad valorem tax certification. There were also increases in anticipated federal revenue of \$105,000 and a decrease in other revenue of \$150,000. The balance of the decrease was due to an increase in the expenditures of \$35,000.

CAPITAL ASSETS

At the end of June 30, 2012, the School District had \$67.16 million invested in capital assets (see table below). This represents a net increase of \$2.3 million or 3.48 percent, over the previous fiscal year.

	2012	2011	2010	2009	2008
Land	\$ 2,052,163	\$ 2,052,163	\$ 2,052,163	\$ 1,810,977	1,813,547
Construction in Progress	-	14,532,865	13,589,932	-	-
Buildings and Improvements	64,600,233	44,627,432	44,316,007	43,139,388	43,298,496
Furniture and Equipment	5,280,018	4,620,356	4,706,653	5,175,185	5,877,389
Automobiles	<u>1,068,110</u>	<u>1,060,935</u>	<u>927,310</u>	<u>932,635</u>	<u>828,570</u>
TOTALS	<u>\$ 73,000,524</u>	<u>\$ 66,893,751</u>	<u>\$ 65,592,065</u>	<u>\$ 51,058,185</u>	<u>\$51,818,002</u>

LONG-TERM LIABILITIES

South Penn Construction Project and Related Lease

On December 23, 2002, Moore Norman Technology Center entered in a lease agreement with the Cleveland County Public Facilities Authority. The agreement called for the Authority to issue \$12,910,000 in Lease Revenue Bonds. The proceeds of these bonds will be used to partially fund the construction of the new campus at South Penn and SW134th in South Oklahoma City. The District used local funds to complete the construction project and equip the facility.

By the terms of the agreement, the lease payments are guaranteed with Moore Norman Technology Center's General Fund ad valorem collections. The payments are approximately \$1.5 million per year for 10 years. Two semi-annual payments were made in the year ended June 30, 2012. The amount of the capitalized lease at June 30, 2012 was \$794,000.

IT Building Construction Project

On September 17, 2009, Moore Norman Technology Center entered in a lease agreement with the Cleveland County Public Facilities Authority. The agreement called for the Authority to issue \$15,490,000 in Lease Revenue Bonds. The proceeds of these bonds will be used to partially fund the construction of the new building at the Franklin Road Campus, 4701 12th Avenue NW, Norman, OK. The District used local funds to complete the construction project and equip the facility.

By the terms of the agreement, the lease payments are guaranteed with Moore Norman Technology Center's Building Fund ad valorem collections. The payments are approximately \$1.3 to \$1.7 million per year for 10 years. Semi-annual payments were made in the year ended June 30, 2012. The amount of the capitalized lease at June 30, 2012 was \$11,987,500.

Equipment Lease/Purchase Agreement

On September 28, 2011, Moore Norman Technology Center entered in a equipment lease/purchase agreement with MR, Inc. The agreement called for MR. Inc. to issue \$3,500,000 in lease/purchase funds. The proceeds will be used to partially fund the construction and equip the new building at the Franklin Road Campus, 4701 12th Avenue NW, Norman, OK.

By the terms of the agreement, the lease payments are guaranteed with Moore Norman Technology Center's General Fund ad valorem collections. The payment is \$935,105.10 per year for four (4) years. The amount of the capitalized lease at June 30, 2012 was \$3,500,000.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

While state revenues are showing some growth this year, next year's budget is predicted to have a no increase or even possible cuts. Our local ad valorem assessed valuation has increased by \$64,888,839 or 4.02%, including the Oklahoma City Community City overlap area, calculating to an increase of approximately \$933,057 in real dollars for the School District in local revenue.

Due to continued economic downturns recent years, there has been no improvement in the employment situation with our local businesses. Although the economy continued its downward turn, we have experienced a slight increase in adult training enrollment. Long-term programs were full, but waiting lists for educational services remain about the same as past years. With the increased graduations requirements for high school students, we continue to monitor our secondary enrollment numbers. Effective July 1, 2006, MNTC discontinued our participation in the Guaranteed Student Loan program. We did not experience a decline in our long-term enrollment because of this decision. However, we will continue to monitor our enrollment trends to determine if this action has an impact upon our enrollment. In March 2010, we also discontinued our participation in the Federal Work Study program. The demand for this program has decreased among our qualified students. We do not anticipate any decrease in our long-term enrollment because of this decision.

The District will need to proceed with caution in Fiscal Year 2013. Given the instability of the state and national economies, the closings of a few major Oklahoma City Metro employers (i.e.: General Motors, Dayton Tires) over the past several of years, and the pending layoffs by some local employers, the impact on our enrollment and local budget are very uncertain at this time.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Superintendent's Office at Moore Norman Technology Center, PO Box 4701, Norman, OK 73070.

Total Liabilities and Fund Balances	<u>\$ 9,058,974</u>	<u>\$ 3,670,167</u>	<u>\$ 129,526</u>	
Amounts Reported for Governmental Activities in the Statement of Net Assets Are Different Because:				
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$73,000,524 and the accumulated depreciation is \$18,935,047				54,065,477
Property taxes receivable and other receivables will be collected this year, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the funds				4,104,517
Long-term liabilities, including capital leases, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:				
Capital lease payable			\$ 16,227,500	
Restricted assets held from debt proceeds			(147,017)	
Accrued interest			134,652	
Compensated absences			460,912	(16,676,047)
Total Net Assets - Governmental Activities				<u>\$ 49,354,190</u>

Moore Norman Technology Center School District No. 17
Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds
For the Year Ended June 30, 2012

	General Fund	Building Fund	Other Governmental Fund - Activity Fund	Totals Governmental Funds
Revenues				
Property taxes	\$ 16,548,288	\$ 6,609,073	\$ -	\$ 23,157,361
Interest	499	18	1,179	1,696
Tuition and fees	1,918,605	-	-	1,918,605
State revenue	3,470,453	-	-	3,470,453
Federal revenue	1,028,941	192,791	-	1,221,732
Other	799,991	7,556	353,790	1,161,337
Total revenues	<u>23,766,777</u>	<u>6,809,438</u>	<u>354,969</u>	<u>30,931,184</u>
Expenditures				
Instruction	12,888,154	226,593	-	13,114,747
Support services	7,486,599	4,555,818	343,743	12,386,160
Non-instruction services	1,118,933	520	-	1,119,453
Capital outlay	-	332,682	-	332,682
Other outlays	1,173,865	-	-	1,173,865
Debt service				
Interest and fees paid	76,195	550,832	-	627,027
Principal retirement	1,457,500	1,442,500	-	2,900,000
Total expenditures	<u>24,201,246</u>	<u>7,108,945</u>	<u>343,743</u>	<u>31,653,934</u>
Excess of revenues over (under) expenditures	(434,469)	(299,507)	11,226	(722,750)
Beginning fund balance	<u>5,598,058</u>	<u>2,866,635</u>	<u>118,300</u>	<u>8,582,993</u>
Ending fund balance	<u>\$ 5,163,589</u>	<u>\$ 2,567,128</u>	<u>\$ 129,526</u>	<u>\$ 7,860,243</u>

Moore Norman Technology Center School District No. 17
Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds
For the Year Ended June 30, 2012

Total net changes in fund balances - governmental funds \$ (722,750)

The change in net assets reported in the statement of activities is different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which capital outlays exceed depreciation during the period.

	Capital Outlays	\$ 6,225,562	
	Capital Outlays Financed	(6,225,562)	
	Depreciation Expense	<u>(1,883,354)</u>	(1,883,354)

Because the cost of capital assets acquired are reported in governmental funds as expenditures in the year of purchase, the proceeds from their sale are reported as revenue. However, the costs of these assets must be included as a reduction of the sales proceeds in the statement (56,476)

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds and are, instead counted as deferred revenues. They are however, recorded as revenues in the statement of activities. 504,429

Because some receipts of grant revenue will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds and are, instead counted as deferred 357,801

In the statement of activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially the amounts actually paid). This year, vacation and sick leave earned exceeded amounts used. (1,033)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes current financial resources.

	Accrued interest	\$ (23,467)	
	Payments on Capital Leases	<u>2,900,000</u>	<u>2,876,533</u>

Change in net assets of governmental activities \$ 1,075,150

Note 1 - Summary of Significant Accounting Policies

The Moore Norman Technology Center School District No. 17 (the District) is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes. The District is part of the public school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on the State of Oklahoma for support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70 of the Oklahoma Statutes.

The District's financial statements are prepared in accordance with generally accepted accounting principles promulgated by The Governmental Accounting Standards Board (GASB).

The Reporting Entity - The District is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes. The governing body of the District is the Board of Education composed of elected members. The appointed superintendent is the executive officer of the District. There are no component units included within the reporting entity.

Basic Financial Statements – Government-Wide Statements - The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. Governmental Activities include programs primarily supported by taxes, State aid, grants and other intergovernmental revenue. The District does not have any activities classified as business-type activities.

In the government-wide Statement of Net Assets, the District's governmental activities are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net assets are reported in three parts – invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's programs and functions. The functions are also supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Direct expenses are those that are clearly identifiable with a specific function. Program revenues must be directly associated with the function. Charges for services include charges and fees to students, or customers who purchase, use or directly benefit from the goods, services, or privileges provided by a given function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs are normally covered by general revenue (property taxes, State and Federal aid, other taxes etc.).

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net assets resulting from the current year's activities. Separate financial statements are provided for governmental funds. Major individual governmental funds are reported in separate columns in the fund financial statements.

Basic Financial Statements – Fund Financial Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. The fund financial statements provide reports on the financial condition and results of operations of governmental fund category.

The District reports the following major governmental funds:

General Fund is the primary operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Building Fund is used to account for monies derived from the building fund levy and rental of facilities to be used for erecting, remodeling, repairing or maintaining school buildings, paying energy and utility costs; paying fire and casualty insurance premiums for school facilities, security systems and personnel.

Additionally, the District reports the following fund:

Activity Fund – The District accounts for resources collected from student or extracurricular activities including admission fees, concession income, fund raising and dues. The Board of Education exercises control over all of these funds.

Basis of Accounting - Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual: The government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred. Property taxes are recognized as revenue in the year in which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Modified Accrual: The fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e. both measurable and available. “Available” means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Capital Assets - Capital assets purchased or acquired with an original cost of \$2,500 or more are reported at historical cost or estimated historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

School buildings	50 years
Site improvements	20 years
Business machines and computers	5-10 years
Vehicles	8 years
Other equipment	10-15 years

Compensated Absences - All employees earn sick leave starting the first day of the contract year as defined for each individual. Sick leave is accrued at different rates depending on number of contract days worked. Unused sick leave is cumulative up to 70 days. A full-time employee may be absent from duties for personal business for three days per fiscal year at no loss of pay. All personnel are entitled to annual leave, accruing on a monthly basis at different rates of accrual. Only annual leave is payable to the employee at termination.

Budgets and Budgetary Accounting - The District is required by state law to prepare an annual budget. The District by resolution of the Board of Education has adopted the School District Budget Act. This Act requires that within the thirty-day period preceding the beginning of each fiscal year, a budget shall be approved by the governing body. The original budget is to be amended after the June financial activity has been recorded, the annual Foundation and Salary Incentive Aid allocation has been released, and the property tax valuations have been certified for all affected counties within the district.

A budget is legally adopted by the Board of Education for the General Fund and Building Fund that includes revenue and expenditures.

Encumbrances - Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting is used for budgetary purposes. Purchase orders, contracts, and other commitments for goods and services are recorded as expenditures of the applicable funds when the related goods or services are received by the District.

Cash - The District considers all cash on hand, demand deposits, money market checking and certificates of deposit, held at an individual bank which are subject to early withdrawal penalties no matter what the maturity period, to be cash. All short-term cash surpluses are maintained in a cash pool, excluding the Activity Fund, and investments are pooled into one common pooled account in order to maximize investment opportunities. Each fund whose monies are deposited in the pooled cash account or investment account has an equity therein. Interest

earned on the investment of these monies is deposited to the general fund. An individual fund's pooled cash and investments are available upon demand. State statutes require collateral for deposits in excess of insured amounts. The collateral's market value must exceed the insured deposit.

Investments - The District's investment policies are governed by state statute. Permissible investments include:

1. Direct obligations of the United States Government and Agencies
2. Obligations to the payment of which the full faith and credit of the State of Oklahoma is pledged
3. Certificates of deposit of savings and loan associations and bank and trust companies secured by acceptable collateral
4. Savings accounts or savings certificates of savings and loan associations that are fully insured
5. County, municipal and school district direct debt obligations
6. Money market mutual funds regulated by the Securities and Exchange Commission
7. Warrants, bonds or judgments of the school district
8. Qualified pooled investment programs

Property Tax Revenues - The District is authorized by state law to levy property taxes, which consist of ad valorem taxes on real and personal property within the District. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes is due prior to January 1. The second half is due prior to April 1.

If the first payment is not made timely, the entire tax becomes due and payable on January 1. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owed. If at the end of two years the owner has not done so, the purchaser is issued a deed to the property.

Property taxes receivable by the District include uncollected taxes assessed as of October 1, 2009 and earlier. Delinquent property tax receivable is recognized as revenue in the government-wide financial statements. Only the portion of the property taxes receivable that meets the revenue recognition criteria is reported as revenue in the fund financial statements.

Property tax receivables are net of an allowance for uncollectible taxes of \$19,300 in the general fund and \$5,290 in the building fund. The allowance represents the estimated amount that is deemed uncollectible based on past collection history.

State Revenues - Revenues from state sources for current operations are primarily governed by the joint resolution of the Oklahoma House of Representatives and Senate. The Oklahoma Department of Career and Technical Education administers the allocation of state aid funds to school districts based on information accumulated from the districts. Approximately 15% of the District's revenue comes from state sources.

After review and verification of reports and supporting documentation, the Oklahoma Department of Career and Technical Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenue from the state to administer certain categorical educational programs. Oklahoma Department of Career and Technical Education rules require that revenue earmarked for these programs be expended only for the programs for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The Oklahoma Department of Career and Technical Education requires that categorical educational program revenues be accounted for in the general fund.

Use of Estimates - The preparation of financial statements in conformity with the basis of accounting referred to above requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Net Assets and Fund Balance - District-Wide Financial Statements – When the District incurs an expense for which it may use either restricted or unrestricted net assets, it uses restricted net assets first unless unrestricted net assets will have to be returned because they were not used. Net assets on the Statement of Net Assets include the following:

Investment in Capital Assets, Net of Related Debt – The component of net assets that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted for Buildings – The component of net assets that reports the excess of property taxes and other revenue collected in excess of expenses for operation of the District's buildings. This amount is restricted by enabling legislation.

Restricted for School Organizations – The component of net assets that report the assets restricted for use by student organizations and extracurricular activities.

Unrestricted – The difference between assets and liabilities that is not reported as restricted for any particular purpose.

Governmental Fund Financial Statements - The District has adopted Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, effective July 1, 2010, which redefined how fund balances of the governmental funds are presented in the financial statements. The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District does not have any funds classified as nonspendable as of June 30, 2012.

Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The District has classified Building Fund revenue from levy as being restricted because the use is restricted by State Statute for capital expenditures.

Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Education. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The District has classified school program activities as being committed because their use is imposed by the Board of Education regarding use of the funds.

Assigned: This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board or through the Board delegating this responsibility to the superintendent through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. The District has assigned interest earnings to the funds where earned for the purposes defined by the fund.

Unassigned: This classification includes the residual fund balance for the General Fund. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts. The District has not established a formal stabilization arrangement regarding minimum funding requirements.

The District would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

Reclassifications – Certain prior year amounts have been reclassified to conform to the current year presentation. There was no effect on beginning net assets at the government-wide level or on beginning fund balance at the fund level.

Note 2 - Cash and Investments

Deposits - At June 30, 2012, the bank balance of deposits and cash pools was \$9,901,186.

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. State statutes require collateral for all deposits in excess of federally insured amounts. The District policy for custodial credit risk requires compliance with the provisions of state law. At June 30, 2012, the District was not exposed to custodial credit risk.

Investments - The District participates in an external investment pool, Oklahoma Public School Liquid Asset Pool (OLAP). The plan is sponsored by the Oklahoma State School Boards Association, Cooperative Council of Oklahoma School Administration, Organization of Rural Oklahoma Schools and the Oklahoma Association of School Business Officials. OLAP is governed through an interlocal cooperative agreement and the investment advisors and other professionals are competitively selected. OLAP reported value and fair market value are equal at June 30, 2011. To receive a copy of the Oklahoma Public School Liquid Asset Pool annual audit report, call toll free 1-866-472-6527 or visit www.OLAPonline.org. The District's other investments consist of money market mutual fund investments held in sweep accounts.

Credit Risk – Investments - Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligation. Investments held by the District in investment pools (sweep accounts and external investment pools) are considered unclassified as to custodial credit risk because they are not evidenced by securities that exist in physical or book entry form. The \$8,308,404 fair market value of the external investment pool is made up of government obligations, which are rated AAAM by Standard & Poor's. The District does not have a formal policy limiting its exposure arising from concentrations of investments.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair market value of an investment. Included in the District's cash are investments with a fair market value of \$8,308,404, in an external investment pool. Due to the nature of these funds there are no defined maturity dates. The District does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.

Concentration of Credit Risk - The District places no limit on the amount the district can invest in any one issuer. All investments are in money market mutual funds.

Note 3 - Long-Term Liabilities

The long-term liability balances and activity for the year were as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Amount Due Within One Year
Compensated absences	\$ 459,879	\$ 381,491	\$ 380,458	\$ 460,912	\$ 380,458
Capital Leases					
2002 Capital lease	2,197,500	-	1,457,500	740,000	740,000
2009 Capital lease	13,430,000		1,442,500	11,987,500	1,470,000
2012 Capital leases	-	3,500,000	-	3,500,000	840,206
	<u>15,627,500</u>	<u>3,500,000</u>	<u>2,900,000</u>	<u>16,227,500</u>	<u>3,050,206</u>
Total governmental activity long-term liabilities	<u>\$ 16,087,379</u>	<u>\$ 3,881,491</u>	<u>\$ 3,280,458</u>	<u>\$ 16,688,412</u>	<u>\$ 3,430,664</u>

Payments on the leases are made through the general fund with property taxes. Compensated absences are generally liquidated by the general fund.

In December 2002, the District entered into a lease with the Cleveland County Public Facility Authority (CCPFA), through which CCPFA leased 60 acres of land in Cleveland County from the District. CCPFA has issued bonds of \$12,910,000 and applied the proceeds to fund the building of an additional campus for the District. The District sub-leases the building and property from CCPFA over a term of 10 years, with lease payments equal to debt service on the bonds. The lease term is one year, with one-year extensions. When the bonds are paid in full, the lease will expire and ownership in the building will be with the District. The building was completed and occupied in September 2006.

In September 2009, the District entered into a lease with the Cleveland County Public Facility Authority (CCPFA), through which CCPFA leased 10+ acres of land in Cleveland County from the District. CCPFA has issued bonds of \$15,490,000 and applied the proceeds to fund the building of an additional classroom building on the Franklin Road campus. The District sub-leases the building and property from CCPFA over a term of 10 years, with lease payments equal to debt service on the bonds. The lease term is one year, with one-year extensions. When the bonds are paid in full, the lease will expire and ownership in the building will be with the District. The building was completed and occupied in May 2012. Proceeds from the bonds of \$147,017 have been advanced, but not used by the District. This cash is held by the trustee of the bonds and is included as restricted cash in the financial statements.

In September 2011, the District entered into a lease with MR, Inc. (MR), through which MR leased equipment to the District. The lease term is one year, with one-year extensions through June, 2016. Title to the equipment remains with MR until the lease is paid in full.

The District's interest expense for 2012 was \$650,494.

Moore Norman Technology Center School District No. 17
Notes to Financial Statements
June 30, 2012

Leased buildings and construction in progress under capital leases in capital assets at June 30, 2012, include the following:

Buildings	\$ 32,825,810
Less accumulated depreciation	<u>(2,205,716)</u>
	<u><u>\$ 30,620,094</u></u>

Amortization of leased buildings under capital assets is included with depreciation expense.

Future minimum lease payments are:

<u>Year Ended June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>	<u>Interest Rate</u>
2002 capital lease (South Penn)				
2013	\$ 740,000	\$ 12,950	\$ 752,950	3.400%
2009 capital leases (IT Building)				
2013	1,470,000	514,746	1,984,746	2.803%
2014	1,500,000	470,572	1,970,572	3.203%
2015	1,535,000	418,171	1,953,171	3.778%

Note 4 - Employee Retirement System

Plan Description - The District contributes to the state-administered Oklahoma Teachers' Retirement System ("the System"), a cost-sharing, multiple-employer public employee retirement system (PERS). The System is administered by a board of trustees. PERS provides retirement, disability and death benefits to plan members and beneficiaries. Oklahoma State Statute 70, Article 17 assigns the authority to establish and amend benefit provisions to the PERS Board of Trustees. The System issues a publicly available report that includes financial statements and required supplementary information for PERS. That report may be obtained by contacting the Oklahoma Teachers' Retirement System.

Funding Policy - Under the System, contributions are made by the District, the State of Oklahoma, and the participating employees. Participation is required for all teachers and other certified employees and is optional for all other regular employees of public educational institutions who work at least 20 hours per week.

The contribution rates for the District and its employees, which are not actuarially determined, are established by statute and applied to the employee's earnings, plus employer-paid fringe benefits. The District was required by statute to contribute 9.5% of applicable compensation for the year ended June 30, 2012. Plan members are required to contribute 7% of their annual covered salary. The District's contributions to PERS (net of retirement credit paid by the State of Oklahoma) for the years ending June 30, 2012, 2011 and 2010 were \$928,848, \$901,395, and \$878,082 respectively, equal to the required contributions for each year. State of Oklahoma contributions to the System on behalf of the District's employees for the year ended June 30, 2012 were \$68,915.

Note 5 - Defined Contribution Plan

The District has established the Moore Norman Technology Center 403(B) Plan. The plan is intended to be a governmental plan as defined in Internal Revenue Code Section 403(B). Under the plan, the participants may defer up to 100% of their salary, subject to IRS limits. The District matches the participant's contribution up to \$100 per month, or a total of \$1,200 per year. The participants are fully vested in both their voluntary contributions and the employer contribution. Participants may direct the investment of their individual account balances. For the year ended June 30, 2012, the District's contribution to the plan was \$213,555.

Note 6 - Contingencies and Commitments

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The District is defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, the District believes the resolution of these matters will not have a material adverse effect on the financial condition of the District. Should a judgment be awarded against the District, it would be levied through the District's sinking fund over a three-year period pursuant to state law.

The District leases copiers under operating leases expiring 2013 and 2014 but is not legally obligated for the leases beyond one year. Lease expense under these leases for 2012 was \$105,000. Minimum rental payments required under these leases for 2013 are \$111,000.

Note 7 - Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

Note 8 - Capital Assets

Capital asset activity for the year ended June 30, 2012, was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
Capital assets not being depreciated:				
Land	\$ 2,052,163	\$ -	\$ -	\$ 2,052,163
Construction in progress	14,532,865	5,382,945	19,915,810	-
Total capital assets not being depreciated	<u>16,585,028</u>	<u>5,382,945</u>	<u>19,915,810</u>	<u>2,052,163</u>
Capital assets being depreciated:				
Buildings and improvements	44,627,432	19,972,801	-	64,600,233
Furniture, fixtures and equipment	4,620,356	695,451	35,789	5,280,018
Vehicles/buses	1,060,935	90,175	83,000	1,068,110
Total capital assets being depreciated	<u>50,308,723</u>	<u>20,758,427</u>	<u>118,789</u>	<u>70,948,361</u>
Less accumulated depreciation for:				
Buildings and improvements	13,304,163	1,335,195	-	14,639,358
Furniture, fixtures and equipment	3,049,959	471,788	34,438	3,487,309
Vehicles/buses	759,884	76,371	27,875	808,380
Total accumulated depreciation	<u>17,114,006</u>	<u>1,883,354</u>	<u>62,313</u>	<u>18,935,047</u>
Total capital assets being depreciated, net	<u>33,194,717</u>	<u>18,875,073</u>	<u>56,476</u>	<u>52,013,314</u>
Governmental activity capital assets, net	<u>\$ 49,779,745</u>	<u>\$ 24,258,018</u>	<u>\$ 19,972,286</u>	<u>\$ 54,065,477</u>

Depreciation expense was not allocated to the various functions because the District believes all functions are supported equally.

The District is required by state law to prepare an annual budget. The District by resolution of the Board of Education has adopted the School District Budget Act. This Act requires that within the thirty-day period preceding the beginning of each fiscal year, a budget shall be approved by the governing body. The original budget is to be amended after the June financial activity has been recorded, the annual Foundation and Salary Incentive Aid allocation has been released, and the property tax valuations have been certified for all affected counties within the district.

A budget is legally adopted by the Board of Education for the General Fund and Building Fund that includes revenue and expenditures.

**Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial
Statements Performed in Accordance with *Government Auditing
Standards***

To the Board of Education
Moore Norman Technology Center School District No. 17
Norman, Oklahoma

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Moore Norman Technology Center School District No. 17 (the District) as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements and have issued our report thereon dated March 11, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting as items 12-1 through 12-3. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. We did not audit the District's responses and accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Board of Education, management, others within the District, Oklahoma Department of Career and Technology Education and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CPAs & BUSINESS ADVISORS

**Independent Auditor's Report on Compliance with Requirements
that could have a Direct and Material Effect on Each Major
Program and on Internal Control over Compliance in Accordance
with OMB Circular A-133**

To the Board of Education
Moore Norman Technology Center School District No. 17
Norman, Oklahoma:

Compliance

We have audited the Moore Norman Technology Center School District No. 17's (the District) compliance with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on its major federal program for the year ended June 30, 2012. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, Moore Norman Technology Center School District No. 17 complied, in all material respects, with the requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2012. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 12-4.

Internal Control Over Compliance

Management of Moore Norman Technology Center School District No. 17 is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our

www.eidebailly.com

opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in the internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiency as described in the accompanying schedule of findings and questioned costs as item 12-4. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Moore Norman Technology Center School District No. 17's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit Moore Norman Technology Center School District No. 17's response and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of the board of education, management, others within the District, Oklahoma Department of Career and Technology Education and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Oklahoma City, Oklahoma
March 11, 2013

Moore Norman Technology Center School District No. 17
 Schedule of Findings and Questioned Costs
 Year Ended June 30, 2012

Section I - Summary of Auditor's Results

Financial Statements

Type of auditor's report issued Unqualified

Internal control over financial reporting:

 Material weakness identified No

 Significant deficiencies identified Yes

Noncompliance material to financial statements No

Federal Awards

Internal control over major programs:

 Material weakness identified No

 Significant deficiencies identified Yes

Type of auditor's report issued on compliance for major programs Unqualified

Any audit findings disclosed that are required to be reported in accordance with Circular A-133, Section .510(a) Yes

Name of Federal Program or Cluster CFDA number

 Student Financial Aid Cluster 84.063, 84.007

Dollar threshold used to distinguish between Type A and Type B programs \$300,000

Auditee qualified as low-risk auditee No

Section II - Findings relating to the Financial Statements

- 12-1 Condition: The District does not have procedures in place for the review of adjusting entries made in the preparation of financial statements.
- Criteria: Controls should be in place over the review of required adjusting entries prepared by the outside accountant to prepare government-wide financial statements in accordance with generally accepted accounting principles.
- Cause: The District did not have staff available to review the necessary adjusting entries.
- Effect: The year-end financial statements were not completed in a timely manner. The District's financial reporting process was not able to review the necessary adjustments.
- Recommendation: The Board should evaluate and weigh the costs against the benefits of the year-end financial reporting process with current staff level.
- Response: The District has implemented the use of an outside CPA firm to assist with this process. We are working closely with them to insure all data necessary is conveyed between parties.
- 12-2 Condition: Student accounts receivable have not been recorded in the financial statements.
- Criteria: Generally accepted accounting principles require recording of all significant assets.
- Cause: The District's software cannot produce an accurate report that shows accounts receivable from students at a specific time.
- Effect: Assets are not completely reported using generally accepted accounting principles.
- Recommendation: The Board should contact the software developer to create a report that can be used to show student accounts receivable. If no report can be created, the Board should consider different software.
- Response: The District is continuing its efforts to identify a software package to address this issue.
- 12-3 Condition: The District's financial reporting control system in place during the past fiscal year did not identify all necessary adjustments required to be presented in accordance with Generally Accepted Accounting Principles (GAAP) and to present the schedule of federal expenditures (SEFA).
- Criteria: The development and implementation of a year-end financial reporting control system, including making all adjustments to both the financial statements and the SEFA is the responsibility of the District's management.
- Cause: The District has a process at year-end to record adjustments for financial statement presentation, but the process was not effective in identifying all the necessary adjustments and disclosures in accordance with GAAP and to properly present the SEFA.
- Effect: A material adjustment identified by the auditors was necessary to correctly present the financial statements and SEFA.
- Recommendation: The District should continue to evaluate and weigh the costs and benefits of developing and implementing a year-end financial reporting system. The year-end financial reporting process should include procedures to identify and record entries in accordance with GAAP and to properly reconcile the SEFA to the financial statements.
- Response: The District has implemented the use of an outside CPA firm to assist with this process. We are working closely with them to insure all data necessary is conveyed between parties.

Section III - Findings and Questioned Costs for Federal Awards

12-4 Special Test

Department of Education

Student Financial Aid Cluster – CFDA 84.063

Condition: 1 of the 21 students selected that withdrew from the District during the current year did not have the unearned portion of their Pell grant returned to the Department of Education within the 45 day timeframe required.

Criteria: Per 34 CFR section 668.22(j), returns of Title IV funds are required to be deposited or transferred into the SFA account or electronic fund transfers initiated to ED no later than 45 days after the date the institution determines that the student withdrew.

Effect: The District did not pay back previously claimed Pell Award within the 45 day timeframe as required for students that withdraw.

Cause: Internal control at the District was not sufficient to identify all students receiving Pell Awards who withdrew from the District and that would require a portion of the award to be paid back to the ED within the 45 day timeframe.

Recommendation: We recommend that the control process of comparing student withdraws to listings of current Pell Award Program participants is performed on a more routine and consistent basis and any unearned amounts that are claimed to the ED as a result of a crossover payment period be returned to the ED as soon as possible but within the 45 day timeframe allowed.

Management's Response: The District has implemented procedures to prevent this from re-occurring. Additional personnel has been added to assist with these procedures, to monitor student starts, withdrawals, and schedule changes to insure these activities are cross-referenced with the financial aid list.

Moore Norman Technology Center School District No. 17
Summary of Prior Year Findings
Year Ended June 30, 2012

- 11-3 Condition: The District failed to complete timely submittal of various year-end reports by the deadline of March 31, 2012.
- Current status: No similar finding found in the current year.
- 11-4 Condition: We were not able to reconcile the report downloaded from the Common Origination and Disbursement (COD) System with the FISAP or with the District's general ledger detail.
- Current status: No similar finding found in the current year.
- 11-5 Condition: We noted 8 students in our sample of 71, who received FSEOG payments with an expected family contribution (EFC) that exceeded amounts of other students who did not receive FSEOG payments.
- Current status: No similar finding found in the current year.
