Independent Auditor's Report

Board of Trustees Norman Regional Hospital Authority Norman, Oklahoma

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities as of and for the years ended June 30, 2021 and 2020, and the fiduciary activities as of and for the year ended June 30, 2021, of Norman Regional Hospital Authority (the Authority), and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Trustees Norman Regional Hospital Authority Page 2

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities as of June 30, 2021 and 2020, and the fiduciary activities as of June 30, 2021 and 2020, of Norman Regional Hospital Authority, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in *Note 1* to the financial statements, in 2021, the Authority adopted Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, and GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. Our opinions are not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and pension information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 27, 2021, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Management's Discussion and Analysis Years Ended June 30, 2021 and 2020

Introduction

This management's discussion and analysis of the financial performance of Norman Regional Hospital Authority (the Authority) provides an overview of the Authority's financial activities for the years ended June 30, 2021 and 2020. It should be read in conjunction with the accompanying financial statements of the Authority. Unless otherwise indicated, amounts are in thousands.

Financial Highlights

- Cash and cash equivalents increased in 2021 by \$22,792 or 103% and decreased in 2020 by \$28,537 or 56%.
- Short-term investments increased in 2021 by \$24,567 or 11% and in 2020 by \$4,836 or 2%.
- Days cash on hand increased in 2021 by 22 days or 12% compared to 2020. Days cash on hand at June 30, 2021, was 211 days compared to 189 days at June 30, 2020.
- Patient accounts receivable increased in 2021 by \$5,197 or 8% and in 2020 by \$9,858 or 18%.
- Days net revenue in accounts receivable at June 30, 2021 and 2020, was 50 days and 51 days, respectively.
- Current assets less current liabilities increased in 2021 by \$47,450 or 17% and decreased in 2020 by \$18,139 or 6%.
- The Authority reported operating income (loss) for 2021 and 2020 of \$4,101 and \$(10,710), respectively. The operating income in 2021 was \$14,811 or 138% higher than the operating loss reported for 2020. The operating loss in 2020 was \$31,204 or 152% lower than the operating income reported for 2019.
- The Authority reported nonoperating revenues (expenses) of \$46,580 and \$13,683 for 2021 and 2020, respectively. The nonoperating revenues (expenses) in 2021 increased by \$32,897 or 240% compared to the 2020 amount. The nonoperating revenues (expenses) in 2020 increased by \$7,993 or 140% compared to the 2019 amount.

Using This Annual Report

The Authority's financial statements consist of three statements: a balance sheet; a statement of revenues, expenses, and changes in net position; and a statement of cash flows. These statements provide information about the activities of the Authority, including resources held by the Authority but restricted for specific purposes by creditors, contributors, grantors, or enabling legislation. The Authority is accounted for as a business-type activity and presents its financial statements using the economic resources measurement focus and the accrual basis of accounting.

The Balance Sheet and Statement of Revenues, Expenses, and Changes in Net Position

One of the most important questions asked about any authority's finances is, "Is the authority as a whole better or worse off as a result of the year's activities?" The balance sheet and the statement of revenues, expenses, and changes in net position report information about the Authority's resources and its activities in a way that helps answer this question. These statements include all assets and deferred outflows of resources and all liabilities and deferred inflows of resources using the accrual basis of accounting. Using the accrual basis of accounting means that all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Authority's net position and changes in it. The Authority's total net position—the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources—is one measure of the Authority's financial health or financial position. Over time, increases or decreases in the Authority's net position are an indicator of whether its financial health is improving or deteriorating. Other nonfinancial factors, such as changes in the Authority's patient base, changes in legislation and regulations, measures of the quantity and quality of services provided to its patients, and local economic factors, should also be considered to assess the overall financial health of the Authority.

The Statement of Cash Flows

The statement of cash flows reports cash receipts, cash payments, and net changes in cash and cash equivalents resulting from four defined types of activities. It provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash and cash equivalents during the reporting period.

The Authority's Net Position

The Authority's net position is the difference between its assets and deferred outflows of resources and liabilities and deferred inflows of resources reported in the balance sheet. The Authority's net position increased by \$51,486 or 15% in 2021 from 2020 and decreased by \$395 or 0.1% in 2020 from 2019 as shown in Table 1.

Table 1: Assets and Deferred Outflows of Resources, Liabilities and Deferred Inflows of Resources, and Net Position

		2021		2020		2019
Assets and Deferred Outflows of Resources						
Cash, cash equivalents, and short-term investments	\$	287,668	\$	240,309	\$	264,010
Patient accounts receivable, net of allowance	Ψ	69,120	Ψ	63,923	Ψ	54,065

Total liabilities and deferred inflows of						
resources and net position	\$	739,384	\$	687,046	\$	559,533

In 2021, cash, cash equivalents, and short-term investments increased by \$47,359 or 20% due to increased investment earnings, the CARES Act Provider Relief funds, and increased operating activities compared to 2020. In 2020, cash, cash equivalents, and short-term investments decreased by \$23,701 or 9% due to decreased cash provided by operating activities and decreased investment earnings compared to 2019.

Patient accounts receivable, net of allowance increased by \$5,197 or 8% from 2020 to 2021. This increase was primarily the result of improved volumes and revenue as compared to the COVID-19 depressed year of 2020. Patient accounts receivable, net of allowance increased by \$9,858 or 18% from 2019 to 2020. This increase was primarily the result of increases in patient revenue, largely due to the purchase of several physician specialty clinics (see *Note 7*) and the employment of emergency medicine physicians with their related professional fee revenue and a slight slow-down in receipts at the end of the fiscal year due to the impact of the COVID-19 pandemic (see *Note 20*). Days net revenue in accounts receivable at June 30, 2021 and 2020, was 50 days and 51 days, respectively.

Capital assets, net increased by \$11,597 or 6% from 2020 to 2021 and decreased by \$1,039 or 0.5% from 2019 to 2020. The increase in 2021 was due to initial expenditures related to the Inspire Health construction project, offset by depreciation. The decrease in 2020 was due to an increase in depreciation for the year, offset by capital expenditures.

Long-term debt decreased \$6,397 or 2% from 2020 to 2021 and increased \$115,085 or 69% from 2019 to 2020. The decrease in 2021 was caused by regular payments of principal due while the increase in 2020 was due to the issuance of the Series 2019 bonds (see *Note 10*).

Operating Results and Changes in the Authority's Net Position

In 2021, the Authority's net position increased by \$51,486 or 15%. In 2020, the Authority's net position decreased by \$395 or 0.1%. These changes in net position are detailed in Table 2 below.

Table 2: Operating Results and Changes in Net Position

	2021	2020	2019
Operating Revenues			
Net patient service revenue	\$ 505,430	\$ 462,067	\$ 444,632
Other operating revenue	11,169	5,310	5,039
Total operating revenues	516,599	467,377	449,671
Operating Expenses			
Salaries, wages, and employee benefits	285,160	269,847	236,429
Professional fees	12,605	11,548	10,532
Purchased services	16,558	13,737	12,799
Supplies expense	115,234	97,409	90,173
Other expenses	61,277	62,599	56,953
Depreciation and amortization	21,664	22,947	22,291
Total operating expenses	512,498	478,087	429,177
Operating Income (Loss)	4,101	(10,710)	20,494
Nonoperating Revenues (Expenses)			
Noncapital grants and gifts	61	86	76
Government grants	15,498	10,187	-
Investment income	37,362	11,623	12,490
Interest expense	(6,341)	(8,213)	(6,876)
Total nonoperating revenues (expenses)	46,580	13,683	5,690
Excess of Revenues over Expenses Before Capital Gifts and Distributions	50,681	2,973	26,184
Gifts to Purchase Capital Assets and Other Capital Gifts	1,038	176	127
Distributions to Minority Owners	(233)	(3,544)	(432)
Increase (Decrease) in Net Position	\$ 51,486	\$ (395)	\$ 25,879

Operating Income (Loss)

A major component of the overall change in the Authority's net position is its operating income or loss—generally, the difference between net patient service and other operating revenues and the expenses incurred to perform those services.

Operating results for 2021 increased by \$14,811 or 138% as compared to 2020. The primary components of this increase were:

- An increase in total operating revenue of \$49,222 or 11%
- An increase in total operating expenses of \$34,411 or 7%

Net patient service revenue was greater in 2021 than 2020 because of a full year of revenue related to physician clinic services expanded during 2020 and improved volumes as compared to the COVID-19 depressed year of 2020.

Other operating revenue increased by \$5,859 or 110% from 2020 to 2021. This increase is due to revenue from a bed surge lease with the Oklahoma State Department of Health related to bed availability for OSDH's use for COVID-19 surge patient care.

Salaries, wages, and employee benefits increased \$15,313 or 6% from 2020 to 2021. This increase is due to annual salary increases, market wage adjustments, and increased staffing. Additionally, the Authority saw increases in overtime, contract labor, other payroll expenses due to extended length of stay and premium pay all related to the care of COVID-19 patients.

Supplies expense increased \$17,825 or 18% due largely to costs associated with the response to the COVID-19 pandemic.

Operating results for 2020 decreased by \$31,204 or 152% as compared to 2019. The primary components of this decrease were:

- An increase in total operating revenues of \$17,706 or 4%
- An increase in total operating expenses of \$48,910 or 11%

Net patient service revenue was greater in 2020 than 2019 because of expanded physician clinic services, particularly related to the purchase of several physician specialty clinics during 2020 (see *Note 7*), as well as increased revenue from bringing emergency department coverage in-house via employed physicians rather than contracting with a third-party provider. The increase in revenue was offset by the impact of the COVID-19 pandemic, which significantly decreased patient volumes in the last quarter of 2020 compared to historical trends.

Salaries, wages, and employee benefits increased \$33,418 or 14% from 2019 to 2020. This increase is due to the hiring of ER physicians as well as the purchase of several physician specialty clinics during the COVID-19 pandemic. Also, the Authority continued to maintain a baseline staffing level in order to sustain quality care, ensure proper staffing and preparation for any pandemic-related outbreaks in the community, and maintain health care delivery capacity.

Supplies expense increased \$7,236 or 8% due to expanded clinic services as well as costs associated with the response to the COVID-19 pandemic.

Nonoperating Revenues and Expenses

Another major component of the Authority's change in net position is its nonoperating revenues and expenses. Nonoperating revenues and expenses consist primarily of noncapital grants and gifts, government grants, investment income, and interest expense. In 2021, net nonoperating revenues and

expenses increased by \$32,897 or 240%. This increase was due to the recognition of additional government grants related to HHS Provider Relief Funds under the *Coronavirus Aid, Relief, and Economic Security Act* (see *Note 20*) totaling \$15,498 and increased investment income due to high market returns. In 2020, net nonoperating revenues and expenses increased by \$7,993 or 140%. This increase was due to the recognition of government grants related to HHS Provider Relief Funds totaling \$10,187, offset by an increase in interest expense of \$1,337 or 19%.

The Authority's Cash Flows

Net cash provided by operating activities in 2021 increased by \$13,125 or 116% from 2020. Payments to suppliers, contractors, and employees increased by \$24,594, while receipts from and on behalf of patients increased by \$46,357 from 2020. The increase in payments to suppliers, contractors, and employees is consistent with increased expenses as discussed above. The increase in receipts from and on behalf of patients is consistent with the increased net patient service revenue and the change in patient accounts receivable. The overall increase in cash provided by operating activities is primarily a result of improved operating margins from the COVID-19 depressed 2020. Additionally, there were decreases in uninsured patients related to reduced emergency department volume, enhanced payments for uninsured COVID-19 patients, and the cash inflows from a full year of physician clinics added in 2020.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2021, the Authority had \$221,306 invested in capital assets, net of accumulated depreciation, as detailed in *Note* 6 to the accompanying financial statements. In 2021, the Authority purchased new equipment and made improvements totaling \$31,532.

At June 30, 2020, the Authority had \$209,709 invested in capital assets, net of accumulated depreciation, as detailed in *Note 6* to the accompanying financial statements. In 2020, the Authority purchased new equipment and made improvements totaling \$21,090.

Debt

At June 30, 2021, the Authority had \$275,875 in bond obligations outstanding, net of related premiums, as detailed in *Note 10* to the accompanying financial statements. The Authority decreased the outstanding principal of its long-term debt by \$6,397. Medical Park West, Oklahoma Sleep Associates, LLC (Oklahoma Sleep Associates), NRHS ACO LLC (NRHS ACO), and NHealth, LLC (NHealth) did not have any outstanding debt at June 30, 2021.

The Authority's debt ratings by Standard & Poor's and Moody's were maintained at A- and Baa1, respectively, in May 2021.

At June 30, 2020, the Authority had \$282,272 in bond obligations outstanding, net of related premiums, as detailed in *Note 10* to the accompanying financial statements. The Authority increased the outstanding principal of its long-term debt by \$115,085, net of principal payments and premium amortization of \$6,006. Medical Park West, Oklahoma Sleep Associates, NRHS ACO, and NHealth did not have any outstanding debt at June 30, 2020.

Contacting the Authority's Financial Management

This financial report is designed to provide the Authority's patients, suppliers, taxpayers, and creditors with a general overview of the Authority's finances and to show the Authority's accountability for the money it receives. Questions about this report and requests for additional financial information should be directed to the Authority's Business Administration by telephoning 405.307.1000.

Balance Sheets June 30, 2021 and 2020

Notes to Financial Statements June 30, 2021 and 2020

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

Norman Regional Hospital Authority (the Authority) is a public trust that, as its sole activity, operates Norman Regional Health System (the System). The System operates Norman Regional Hospital, Norman Regional Moore (purchased by the System during fiscal year 2007), Norman Regional HealthPlex (opened during fiscal year 2010), and primary and specialty clinics throughout the service area. Portions of property and equipment used by Norman Regional Hospital are subject to a 50-year lease agreement with the City of Norman, Oklahoma, commencing April 1, 1970. The term of the lease was to last until March 31, 2020, or until such date as all indebtedness of the Authority secured by its revenues is paid or defeased. However, the lease agreement could be renewed for an additional 50-year term at the option of the Authority. On July 1, 2019, the Authority exercised its option, extending the term of the lease until March 31, 2070, or such date as all indebtedness of the Authority secured by its revenues is paid or defeased.

The System primarily earns revenues by providing inpatient, outpatient, emergency care, and clinic services to patients in the cities of Norman and Moore, Oklahoma, and surrounding areas. The System also operates a rehabilitation unit and a psychiatric unit and provides ambulance services in the same geographic area. Additionally, the System is an investor in various health care-related entities, including a specialty hospital and surgery centers.

Reporting Entity

The accompanying financial statements include the accounts of the Authority and its blended component units, entities for which the Authority is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government and do not issue separate audited financial statements.

Blended Component Units

NRH Medical Park West, L.L.C. (Medical Park West) is a limited liability company organized in 2005 to develop and sell land and to lease land to the Authority. Through August 2019, the Authority owned a 78.2% ownership interest in Medical Park West. Effective September 2019, the Authority purchased additional ownership from minority owners for a 99.4% ownership interest in Medical Park West and appoints a voting majority of its board of managers. Medical Park West sold its remaining assets to the System and was dissolved effective June 30, 2021.

Oklahoma Sleep Associates, LLC (Oklahoma Sleep Associates) is a limited liability company organized in 2009 to provide diagnostic and therapeutic testing and treatment of sleep disorders. The Authority owns a 79% ownership interest in Oklahoma Sleep Associates and is responsible for its management.

NRHS ACO LLC (NRHS ACO) is a limited liability company organized in 2016 to improve the health of patients and populations served by the Authority, reduce total health care costs, integrate provision of care provided by the Authority, and contract with government and private health

Notes to Financial Statements June 30, 2021 and 2020

benefit plans on behalf of the Authority's providers as an accountable care organization. The Authority is the sole member of NRHS ACO and is responsible for its management.

NHealth, LLC (NHealth) is a limited liability company organized in 2019 to improve the health of patients and reduce total health care costs, monitor and integrate the provision of care provided by the Authority, and contract with government and private health benefit plans on behalf of the Authority's providers. The Authority is the sole member of NHealth and is responsible for its management.

Under the terms of the bond indenture discussed in *Note 10*, the Obligated Group does not include Medical Park West, Oklahoma Sleep Associates, NRHS ACO, or NHealth.

Fiduciary Fund

The Norman Regional Health System Defined Benefit Plan (the Plan) is a single-employer defined benefit pension plan included in the financial statements as a pension trust fiduciary fund. The board of the Authority performs the governing duties of the Plan, as the Plan does not have a separate board and is fiscally dependent on the Authority. Effective July 1, 2020, the Authority adopted Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, and GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. The impact of adoption of this standard was to include the Plan as a fiduciary fund of the Authority. The fiduciary fund statements are presented as of and for December 31, 2020, the Plan's fiscal year-end. Fiduciary fund statements as of and for the year ended December 31, 2019, are not presented as the related information was not available.

Basis of Accounting and Presentation

The accompanying financial statements of the Authority have been prepared on the accrual basis of accounting using the economic resources measurement focus. Revenues, expenses, gains, losses, assets and deferred outflows of resources, and liabilities and deferred inflows of resources from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated nonexchange transactions (principally, federal and state grants) are recognized when all applicable eligibility requirements are met. Operating revenues and expenses include exchange transactions and program-specific, government-mandated nonexchange transactions. Government-mandated nonexchange transactions that are not program-specific, investment income, and interest on capital assets-related debt are included in nonoperating revenues and expenses. The Authority first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position are available.

The other members' interest in Medical Park West and Oklahoma Sleep Associates is accounted for as restricted nonexpendable net position in the Authority's financial statements. All significant inter-entity accounts and transactions have been eliminated in the accompanying financial statements.

Notes to Financial Statements June 30, 2021 and 2020

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and deferred outflows of resources and liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

The Authority considers all liquid investments with original maturities of three months or less to be cash equivalents. At June 30, 2021 and **2020**, cash equivalents consisted primarily of money market mutual fund accounts.

Included in short-term investments, held by trustee for debt service, and held by others for capital acquisitions on the accompanying balance sheets are money market mutual funds with brokers that the Authority does not consider cash equivalents.

Risk Management

The Authority is exposed to various risks of loss: from torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; medical malpractice; and employee health, dental, and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than those related to workers' compensation, short-term disability, and employee health claims. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

The Authority is self-funded for all risks related to employees' short-term disability and for a portion of its exposure to risk of loss from medical malpractice, workers' compensation, and employee health claims. Annual estimated provisions are accrued for the self-insured portion of these claims and include an estimate of the ultimate costs for both reported claims and claims incurred but not yet reported.

Investments and Investment Income

Mutual funds and all other investments are carried at fair value. Fair value is determined using quoted market prices or the net asset value (NAV) per share. These investments are classified as current as they are readily convertible to cash for use in current and future operations. The investments in joint ventures are reported on the equity method of accounting.

Investment income includes dividend and interest income, realized gains and losses on investments sold, the net change for the year in the fair value of investments carried at fair value, and income (loss) from investments in joint ventures.

Notes to Financial Statements June 30, 2021 and 2020

Patient Accounts Receivable

The Authority reports patient accounts receivable for services rendered at net realizable amounts from third-party payors, patients, and others. The Authority provides an allowance for uncollectible accounts based upon a review of outstanding receivables, historical collection information, and existing economic conditions. As a service to the patient, the Authority bills third-party payors directly and bills the patient when the patient's liability is determined. Patient accounts receivable are due in full when billed. Accounts are considered delinquent and subsequently written off as bad debt based on individual credit evaluation and specific circumstances of the account.

Supplies

Supply inventories are stated at the lower of cost or market. Costs are determined using the first-in, first-out (FIFO) method.

Capital Assets

Capital assets are recorded at cost at the date of acquisition or acquisition value at the date of donation if acquired by gift. Depreciation is computed using the straight-line method over the estimated useful life of each asset. Leasehold improvements are depreciated over the shorter of the lease term or their respective estimated useful lives. The following estimated useful lives are being used by the Authority:

Land improvements	15–20 years
Buildings and leasehold improvements	20–40 years
Equipment	3–7 years

The Authority evaluates capital assets for impairment whenever events or circumstances indicate a significant, unexpected decline in the service utility of a capital asset has occurred. No asset impairment was recognized during the years ended June 30, 2021 and 2020.

The Authority capitalizes interest costs as a component of construction in progress, based on interest costs of borrowing specifically for the project, net of interest earned on investments acquired with the proceeds of the borrowing. Total interest capitalized and incurred for the years ended June 30 were:

	2021		2020
Total interest expense incurred on borrowings for project Interest income from investment of proceeds of borrowings for project	\$ 4,241,085 (36,053)	_	\$ 2,347,666 (440,017)
Net interest cost capitalized	\$ 4,205,032	=	\$ 1,907,649
Interest capitalized, net Interest charged to expense	\$ 4,205,032 6,340,937	_	\$ 1,907,649 8,212,916
Total interest incurred	\$ 10,545,969	_	\$ 10,120,565

Notes to Financial Statements June 30, 2021 and 2020

Effective July 1, 2021, the Authority will no longer capitalize interest with the adoption of GASB 89 (see Note 20).

Deferred Outflows and Inflows of Resources

The Authority is required to account for certain transactions as deferred outflows or inflows of resources if they do not qualify for treatment as either assets or liabilities. Deferred outflows and inflows of resources are defined as a consumption (deferred outflows) or an acquisition (deferred inflows) of net position by the Authority that is applicable to a future reporting period.

At June 30, the deferred outflows of resources reported by the Authority on the accompanying balance sheets consisted of the following items:

	2021	2020
Loss on defeasance of long-term debt, net Excess of cost over net position on specialty clinic purchases Deferred outflows related to pensions	\$ 3,140,655 16,077,233	\$ 3,613,801 18,011,951 2,480,448
Total deferred outflows of resources	\$ 19,217,888	\$ 24,106,200

At June 30, 2021, the deferred inflows of resources reported by the Authority on the accompanying balance sheets of \$3,376,978 related to pensions.

Compensated Absences

Authority policies permit most employees to accumulate paid time off benefits that may be realized as paid time off or, in limited circumstances, as a cash payment. Expense and the related liability are recognized as benefits are earned whether the employee is expected to realize the benefit as time off or in cash. Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at the balance sheet date plus an additional amount for compensation-related payments, such as Social Security and Medicare taxes, computed using rates in effect at that date.

Defined Benefit Pension Plan

The Authority has a single-employer defined benefit pension plan, the Norman Regional Health System Defined Benefit Plan (the Plan). For purposes of measuring the net pension liability (asset), deferred outflows of resources related to pensions, pension expense, information about the fiduciary net position of the Plan, and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to Financial Statements June 30, 2021 and 2020

Net Position

Net position of the Authority is classified in three components. Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of borrowings used to finance the purchase or construction of those assets. Restricted nonexpendable net position consists of noncapital assets that are required to be maintained in perpetuity, as specified by parties external to the Authority, such as permanent endowments and other members' interest in component units. Unrestricted net position is the remaining net position that does not meet the definition of net investment in capital assets or restricted nonexpendable net position.

Net Patient Service Revenue

The Authority has agreements with third-party payors that provide for payments to the Authority at amounts different from its established rates. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered and includes estimated retroactive revenue adjustments and a provision for uncollectible accounts. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such estimated amounts are revised in future periods as adjustments become known.

Charity Care

The Authority provides care without charge or at amounts less than its established rates to patients meeting certain criteria under its charity care policy. Because the Authority does not pursue collection of amounts determined to qualify as charity care, these amounts are not reported as net patient service revenue.

Income Taxes

The Authority is generally exempt from federal and state income taxes under Section 115 of the Internal Revenue Code (IRC) and a similar provision of state law. However, the Authority is subject to federal income tax on any unrelated business taxable income.

Medical Park West, Oklahoma Sleep Associates, NRHS ACO, and NHealth members have elected to have each company's income taxed as a partnership under provisions of the IRC and a similar section of state income tax law. Therefore, taxable income or loss is reported to the individual members for inclusion in their respective tax returns, and no provision for federal and state income taxes is included in these financial statements.

Supplemental Hospital Offset Payment Program

On January 17, 2012, the Centers for Medicare and Medicaid Services approved the State of Oklahoma's Supplemental Hospital Offset Payment Program (SHOPP). The SHOPP is currently scheduled to sunset on December 31, 2025. The SHOPP is designed to assess Oklahoma hospitals a supplemental hospital offset fee that will be placed in pools after receiving federal matching

Notes to Financial Statements June 30, 2021 and 2020

funds. The total fees and matching funds will then be allocated to hospitals as directed by legislation.

SHOPP revenue is recorded as part of net patient service revenue, and SHOPP assessment fees are recorded as part of other expenses on the accompanying statements of revenues, expenses, and changes in net position. The amounts noted in the following table for the years ended June 30, 2021 and 2020, represent the approximate amounts received and paid by the Authority. The annual amounts to be received and paid by the Authority over the term of the SHOPP are subject to change annually based on various factors involved in determining the amount of federal matching funds. Based on the current information available, the annual net benefit to the Authority over the term of the SHOPP is expected to be approximately \$15,684,000 in 2022.

	2021	2020
SHOPP funds received SHOPP assessment fees paid	\$ 21,394,000 8,634,000	\$ 19,967,000 9,235,000
Net SHOPP benefit	\$ 12,760,000	\$ 10,732,000

Revisions

Certain immaterial revisions have been made to the 2020 statement of cash flows to gross up the activity related to the Authority's defined benefit pension plan in cash provided by operating activities. This revision did not have an impact on the accompanying balance sheets or statements of revenues, expenses, and changes in net position and did not change net cash provided by operating activities in total.

An immaterial revision has been made to the fiduciary net position section of *Note 14* to change the classification of an investment fund from cash and cash equivalents to a proprietary separate fund. This revision did not have any impact on the accompanying financial statements.

Note 2: Net Patient Service Revenue

The Authority has agreements with third-party payors that provide for payments to the Authority at amounts different from its established rates. These payment arrangements include:

Medicare – Inpatient acute care services and substantially all outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Inpatient rehabilitation and psychiatric unit services are paid at prospectively determined rates that are based on the patients' acuity. The Authority is reimbursed for certain services at tentative rates with final settlement determined after submission of annual cost reports by the Authority and audits thereof by the Medicare administrative contractor. The Medicare administrative contractor has audited the Authority's cost reports through June 30, 2018.

Medicaid – The Authority has also been reimbursed for services rendered to patients covered by the state Medicaid program at prospectively determined rates per discharge and fee

Notes to Financial Statements June 30, 2021 and 2020

schedules with no retroactive adjustment. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors.

Approximately 44% and 45% of net patient service revenue is from participation in the Medicare and state-sponsored Medicaid programs for the years ended June 30, 2021 and 2020, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates could change materially in the near term.

The Authority has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the Authority under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

Note 3: Deposits, Investments, and Investment Income

Deposits

Custodial credit risk is the risk that in the event of a bank failure a government's deposits may not be returned to it. The Authority's deposit policy for custodial credit risk requires collateralization of all deposits with federal depository insurance and other acceptable collateral in specific amounts in compliance with the provisions of state law.

At June 30, 2021 and 2020, none of the Authority's bank balances of approximately \$718,000 and \$1,212,000, respectively, were exposed to custodial credit risk as uninsured and uncollateralized.

The above amounts exclude deposits held by the Authority's blended component units with bank balances of approximately \$394,000 and \$525,000 and carrying values of approximately \$391,000 and \$522,000 at June 30, 2021 and 2020, respectively. As nongovernmental entities, the blended component units are not subject to collateralization requirements. At June 30, 2021 and 2020, the blended component units' cash accounts exceeded federally insured limits by approximately \$132,000 and \$169,000, respectively.

Investments

The Authority may invest in direct obligations of and other obligations guaranteed as to principal by the U.S. Treasury and U.S. agencies and instrumentalities and in bank repurchase agreements. It may also invest in corporate bonds, equity securities, alternative investments, and real assets.

Notes to Financial Statements June 30, 2021 and 2020

At June 30, the Authority had the following investments and maturities:

			Maturitie	s in Years	
Туре	Fair Value	Less than 1	1–5	6–10	More than 10
2021					
Money market mutual funds	\$ 156,536,574	\$ 156,536,574	\$ -	\$ -	\$ -
Mutual funds					
Bond funds	100,130,068	-	75,114,121	25,015,947	-
Equity and other funds	87,999,958	87,999,958			
	344,666,600	\$ 244,536,532	\$ 75,114,121	\$ 25,015,947	\$ -
Hedge funds	54,572,619				
	\$ 399,239,219				
2020					
Money market mutual funds	\$ 141,712,324	\$ 141,712,324	\$ -	\$ -	\$ -
Mutual funds					
Bond funds	109,306,745	-	90,593,076	14,652,043	4,061,626
Equity and other funds	71,163,053	71,163,053			
	322,182,122	\$ 212,875,377	\$ 90,593,076	\$ 14,652,043	\$ 4,061,626
Hedge funds	37,666,181				
	\$ 359,848,303				

Interest Rate Risk – As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority's investment policy provides guidelines for the fixed income investment portfolio to maintain an aggregate duration between three and seven years for long-term investments while not limiting the duration of individual investments. The money market mutual funds and equity and other mutual funds are presented as an investment with a maturity of less than one year because the average maturity of the funds is less than one year. Maturities of bond mutual funds are presented based on the average maturity of the underlying securities in the fund.

Credit Risk – Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. The Authority's investment policy provides guidelines to maintain an aggregate credit rating of A or better on fixed income securities but does not place limits on individual investments. At June 30, 2021 and 2020, the Authority's investments not directly guaranteed by the U.S. government were rated as follows:

Moody's	<u> </u>
Not rated or Aaa	Not rated or AAA
Not rated	Not rated
Not rated	Not rated
	Not rated or Aaa Not rated

Notes to Financial Statements June 30, 2021 and 2020

Custodial Credit Risk – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty the Authority will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The Authority's investment policy does not address how securities are to be held.

Concentration of Credit Risk – The Authority places no limit on the amount that may be invested in any one issuer. At June 30, 2021, the Authority's investment in the hedge fund of Western Asset U.S. Core Plus, L.L.C., constituted 6.3% of its total investments. At June 30, 2020, none of the Authority's investments exceeded 5% of total investments.

Summary of Carrying Values

The carrying values of deposits and investments shown above are included in the accompanying balance sheets as follows:

	2021	2020
Carrying value		
Deposits	\$ 377,930	\$ 889,161
Investments	399,239,219	359,848,303
Cash on hand	17,575	23,059
	\$ 399,634,724	\$ 360,760,523
Included in the following balance sheet captions		
Cash and cash equivalents	\$ 44,965,516	\$ 22,173,415
Short-term investments	242,702,645	218,135,979
Restricted cash and investments – current	100	11,112
Noncurrent cash and investments, net	111,966,463	120,440,017
	\$ 399,634,724	\$ 360,760,523

Investment Income

Investment income for the years ended June 30 consisted of:

	2021	2020
Interest, dividends, and realized gain on sales of investments, net Income from joint ventures Net increase (decrease) in fair value of investments	\$ 9,198,569 896,532 27,266,887	\$ 12,968,199 1,553,264 (2,898,162)
	\$ 37,361,988	\$ 11,623,301

Notes to Financial Statements June 30, 2021 and 2020

Note 4: Patient Accounts Receivable

The Authority grants credit without collateral to its patients, many of whom are area residents and are insured under third-party payor agreements. Patient accounts receivable at June 30 consisted of:

	2021	2020
Medicare	\$ 21,176,202	\$ 20,956,970
Medicaid	4,354,056	3,104,198

Note 5: Investments in Joint Ventures

The investments in joint ventures included in other assets on the accompanying balance sheets relate to the Authority's ownership in multiple joint ventures. The one significant joint venture is recapped below:

Oklahoma Heart Hospital South, LLC

The Authority has an approximate 12% ownership in Oklahoma Heart Hospital South, LLC (OHHS). The Authority's investment in OHHS amounted to approximately \$1,789,000 and \$4,073,000 at June 30, 2021 and 2020, respectively. The audited financial position and results of operations of OHHS are summarized below as of December 31:

	2020	2019
Current assets Property and other long-term assets, net	\$ 65,494,800 72,687,921	\$ 57,040,079 62,363,501
Total assets	138,182,721	119,403,580
Current liabilities Long-term liabilities	29,451,976 89,114,608	21,191,664 58,847,596
Total liabilities	118,566,584	80,039,260
Members' equity	\$ 19,616,137	\$ 39,364,320
Revenues	\$ 150,040,511	\$ 156,070,207
Net income	\$ 6,489,589	\$ 13,859,025

Notes to Financial Statements June 30, 2021 and 2020

The Authority is joint guarantor on loans of OHHS. At June 30, 2021 and 2020, the Authority guaranteed approximately \$7,182,000 and \$7,606,000, respectively, of the outstanding balance of the loans.

Note 6: Capital Assets

Capital assets activity for the years ended June 30 was:

			2021		
	Beginning Balance	Additions	Disposals	Transfers	Ending Balance

Note 7: Specialty Clinic Acquisitions

In 2020, the Authority acquired 100% ownership in several specialty clinics in order to expand its specialty service offerings. These clinics are included in the Authority's operations similar to other specialty clinics operated and accounted for by the Authority. The acquisitions included substantially all of the assets of each specialty clinic. The acquisitions resulted in an excess of cost over the net position acquired of approximately \$19,348,000, which is reflected in deferred outflows of resources in the accompanying balance sheets net of accumulated amortization (see *Note 1*). A summary of each clinic acquisition follows:

GI of Norman, LLC; West Norman Endoscopy Center, LLC; MPEU, LLC; and GION Anesthesia Services, P.L.L.C.

On August 31, 2019, the Authority acquired 100% equity ownership of these four clinics, which specialize in gastroenterology, outpatient ambulatory surgery, and anesthesia services, in exchange for approximately \$11,704,000. The Authority will operate and maintain these clinics and account for the operations. The acquisition included substantially all assets of the clinics and accounts payable liabilities assumed by the Authority. The acquisition value of the net position acquired was determined to be approximately \$668,000. As a result, the Authority recognized cost in excess of the net position acquired of approximately \$11,036,000.

Oklahoma Sports & Orthopedics Institute, P.L.L.C.

On December 31, 2019, the Authority acquired 100% equity ownership of this clinic, which specializes in orthopedics services, in exchange for approximately \$3,257,000. The Authority will

Notes to Financial Statements June 30, 2021 and 2020

operate and maintain this clinic and account for its operations. The acquisition included substantially all assets of the clinic. The acquisition value of the net position acquired was determined to be approximately \$2,310,000. As a result, the Authority recognized cost in excess of the net position acquired of approximately \$947,000.

Greater Norman Surgery Center, LLC d/b/a Central Oklahoma Surgical Institute (COSI)

The Authority owned a 6% interest in COSI, an outpatient ambulatory surgery center. On December 31, 2019, the Authority acquired 100% equity ownership of COSI in exchange for approximately \$7,818,000. The Authority will operate and maintain this clinic and account for its operations. The acquisition included substantially all assets of the clinic. The acquisition value of the net position acquired was determined to be approximately \$453,000. As a result, the Authority recognized cost in excess of the net position acquired of approximately \$7,365,000.

Note 8: Self-Insured Claims

Substantially all of the Authority's employees are eligible to participate in the Authority's workers' compensation and short-term disability plans. In addition, substantially all of the Authority's employees and their dependents are eligible to participate in the Authority's employee health insurance plan. The Authority funds all risks related to employee short-term disability. The Authority is self-insured for health claims of participating employees and dependents up to an annual aggregate amount of \$700,000 for 2021 and \$600,000 for 2020 and for workers' compensation claims up to \$750,000 for both 2021 and 2020. Commercial stop-loss insurance coverage is purchased for claims in excess of the aggregate annual amounts.

A provision is accrued for self-insured employee health and workers' compensation claims, including both claims reported and claims incurred but not yet reported, and is included in estimated self-insurance costs – current and other long-term liabilities on the accompanying balance sheets. The accruals are estimated based on consideration of prior claims experience, recently settled claims, frequency of claims, and other economic and social factors. It is reasonably possible that the Authority's estimate will change by a material amount in the near term.

Notes to Financial Statements June 30, 2021 and 2020

Activity in the Authority's accrued self-insured claims liabilities during 2021 and 2020 is summarized as follows:

	Workers' Compensation		Short-Term Disability		Employee Health	
2021						
Balance, beginning of year	\$	1,692,306	\$	-	\$	1,639,847
Current year claims incurred and changes in estimates for claims incurred in prior years Claims and expenses paid		832,107 (673,616)		190,142 (190,142)		10,933,860 (11,267,667)
Balance, end of year	\$	1,850,797	\$	<u>-</u>	\$	1,306,040
2020						
Balance, beginning of year Current year claims incurred and changes in	\$	1,714,992	\$	-	\$	730,361
estimates for claims incurred in prior years		693,889		234,406		12,937,714
Claims and expenses paid		(716,575)		(234,406)		(12,028,228)
Balance, end of year	\$	1,692,306	\$		\$	1,639,847

Note 9: Medical Malpractice Claims

The Authority purchases medical malpractice insurance under a claims-made policy on a fixed premium basis with a significant self-insured retention limit. Accounting principles generally accepted in the United States of America require a health care provider to accrue the expense of its share of malpractice claim costs, if any, for any reported and unreported incidents of potential improper professional service occurring during the year by estimating the probable ultimate costs of the incidents. Annual estimated provisions are accrued based on actuarially determined amounts. At June 30, 2021 and 2020, the Authority recorded an accrual of approximately \$8,148,000 and \$7,220,000, respectively, for pending malpractice claims, which is included in estimated self-insurance costs – current and other long-term liabilities on the accompanying balance sheets. It is reasonably possible that this estimate could change materially in the near term.

Notes to Financial Statements June 30, 2021 and 2020

Note 10: Long-Term Obligations

The following is a summary of long-term obligation transactions for the Authority for the years ended June 30:

	Beginning Balance Additions		Ending Deductions Balance		Current Portion	
2021 Long-Term Debt						
Series 2016 Hospital Revenue						
Refunding Bonds (A) Series 2017 Hospital Revenue	\$ 135,605,060	\$ -	\$ (5,073,121)	\$ 130,531,939	\$ 5,298,119

Revenue Bonds Payable

(A) Due September 1, 2037; principal payable annually beginning September 1, 2017, plus semiannual interest payments at interest rates from 3.00% to 5.00%; callable on or after September 1, 2026; secured by pledge of the Authority's gross revenues.

Notes to Financial Statements June 30, 2021 and 2020

When the Series 2016 Hospital Revenue Refunding Bonds (2016 Bonds) were issued, the bonds were sold at a premium of approximately \$13,975,000. At June 30, the outstanding balance of the 2016 Bonds was as follows:

	2021	2020
Principal amount Plus unamortized premium	\$ 119,675,000 10,856,939	\$ 124,080,000 11,525,060
Net amount outstanding	\$ 130,531,939	\$ 135,605,060

(B) Due September 1, 2037; principal payable annually beginning September 1, 2017, plus semiannual interest payments at 5.00%; callable on or after September 1, 2027; secured by pledge of the Authority's gross revenues.

When the Series 2017 Hospital Revenue Refunding Bonds (2017 Bonds) were issued, the bonds were sold at a premium of approximately \$2,356,000. At June 30, the outstanding balance of the 2017 Bonds was as follows:

	2021	2020
Principal amount Plus unamortized premium	\$ 22,960,000 1,882,594	
Net amount outstanding	\$ 24,842,594	\$ 25,793,446

(C) Due September 1, 2045; principal payable annually beginning September 1, 2029, plus semiannual interest payments ranging from 3.25% to 5.00%; callable on or after September 1, 2038; secured by pledge of the Authority's gross revenues. The indenture agreement requires that certain funds be established with a trustee. Accordingly, these funds are included as assets held by others for capital acquisitions in the accompanying balance sheets.

When the Series 2019 Hospital Revenue Bonds (2019 Bonds) were issued, the bonds were sold at a premium of approximately \$9,631,000. At June 30, the outstanding balance of the 2019 Bonds was as follows:

	2021	2020
Principal amount Plus unamortized premium	\$ 111,460,000 9,040,755	\$ 111,460,000 9,413,570
Net amount outstanding	\$ 120,500,755	\$ 120,873,570

___.

Notes to Financial Statements June 30, 2021 and 2020

The Authority's revenue bond indentures under the Master Trust Indenture place limits on the incurrence of additional borrowings and require that the System, as the Obligated Group, satisfy certain measures of financial performance as long as the bonds are outstanding. The revenue bond indentures contain a provision that, in an event of default, outstanding amounts become immediately due if the Authority is unable to make payment.

In prior years, the Authority had advance refunded various revenue bond issues, and each of these advance refunding transactions resulted in extinguishment of debt since the Authority was legally released from its obligation on those bond series.

The advance refundings mentioned above resulted in an accounting loss on the extinguishment of the long-term debt. This loss on refunding is shown as a deferred outflow of resources on the accompanying balance sheets and is being amortized using the straight-line method over the life of the respective new bond issues.

Debt Service Requirements

The debt service requirements of the revenue bonds payable, excluding unamortized premiums, as of June 30, 2021, are as follows:

Year Ending June 30,	Total to be Paid	Principal	Interest
2022	\$ 16,701,400	\$ 5,510,000	\$ 11,191,400
2023	16,698,900	5,790,000	10,908,900
2024	16,701,900	6,090,000	10,611,900
2025	16,699,650	6,400,000	10,299,650
2026	16,701,400	6,730,000	9,971,400
2027–2031	66,803,100	30,550,000	36,253,100
2032–2036	83,497,400	47,565,000	35,932,400
2037–2041	83,055,075	58,520,000	24,535,075
2042–2046	82,400,450	70,815,000	11,585,450
2047	16,478,850	16,125,000	353,850
	\$ 415,738,125	\$ 254,095,000	\$ 161,643,125
	φ 713,736,123	\$ 254,095,000	\$ 101,045,125

Line of Credit

The Authority had an unused short-term revolving bank line of credit in the amount of \$34,400,000, which was signed in May 2020 and expired May 5, 2021, bearing interest at one-month LIBOR plus 1.25%. The line was collateralized by gross revenues.

Notes to Financial Statements June 30, 2021 and 2020

Note 11: Restricted Net Position

At June 30, 2021 and 2020, restricted nonexpendable net position of \$139,273 and \$227,441, respectively, was related to the other members' interest in Medical Park West and Oklahoma Sleep Associates.

Note 12: Charity Care and Uncompensated Care

In support of its mission, the Authority voluntarily provides free care to patients who lack financial resources and are deemed to be medically indigent. Because the Authority does not pursue collection of amounts determined to qualify as charity care, they are not reported in net patient service revenue. In addition, the Authority provides services to other medically indigent patients under the state Medicaid program. The state Medicaid program pays providers amounts that are less than established charges for the services provided to the recipients, and many times the payments are less than the cost of rendering the services provided.

Charges for gross patient service revenue, contractual adjustments, and uncompensated care are as follows:

	2021		2020	
	Dollar	Percent	Dollar	Percent
Gross patient service revenue	\$ 2,395,670,181	100.0%	\$ 2,180,458,368	100.0%
Contractual adjustments Provision for uncollectible	(1,725,026,908)	-72.0%	(1,544,794,286)	-70.8%
accounts and charity care adjustments	(165,213,693)	-6.9%	(173,597,301)	-8.0%
Net patient service revenue	\$ 505,429,580	21.1%	\$ 462,066,781	21.2%

The estimated uncompensated costs associated with charity care services were approximately \$6,936,000 and \$6,562,000 for the years ended June 30, 2021 and 2020, respectively. The costs of charity care are estimated by applying the cost to charge ratio from the Authority's most recent Medicare cost report to the gross uncompensated charges.

In addition to uncompensated charges, the Authority also commits significant time and resources to endeavors and critical services that meet otherwise unfilled community needs. Many of these activities are sponsored with the knowledge that they will not be self-supporting or financially viable. Such programs include health screenings and assessments, Norman Public Schools' nurses and sports medicine, low-income health and dental clinics, transportation program for low-income residents in Cleveland County, meals for the homebound, community educational services, and various support groups.

Notes to Financial Statements June 30, 2021 and 2020

Note 13: Defined Contribution and Deferred Compensation Plans

Defined Contribution Plans

The Authority contributes to a defined contribution pension plan, the Norman Regional Hospital Match Plan, covering substantially all employees who have completed a one-year period of continuous employment and elect to contribute to the plan. Pension expense is recorded for the amount of the Authority's required contributions, determined in accordance with the terms of the plan. The plan is administered by the Authority's governing body. The plan provides retirement and death benefits to plan members and their beneficiaries. Benefit and contribution provisions are contained in the plan document and were established and can be amended by action of the Authority's governing body. Contribution rates for the Authority expressed as a percentage of covered payroll were 1.1% for 2021 and 2020. Contributions actually made by the Authority were approximately \$2,393,000 and \$2,265,000 during the years ended June 30, 2021 and 2020, respectively. Plan members do not contribute to the plan.

The Authority also contributes to another defined contribution pension plan, the Norman Regional Hospital Defined Contribution Plan, covering substantially all employees who have completed a one-year period of continuous full-time employment. Pension expense is recorded for the amount of the Authority's required contributions, determined in accordance with the terms of the plan. The plan is administered by the Authority's governing body. The plan provides retirement and death benefits to plan members and their beneficiaries. Benefit and contribution provisions are contained in the plan document and were established and can be amended by action of the Authority's governing body. Contribution rates for the Authority expressed as a percentage of covered payroll were 3.4% and 3.3% for 2021 and 2020, respectively. Contributions actually made by the Authority were approximately \$6,753,000 and \$6,499,000 during the years ended June 30, 2021 and 2020, respectively. Plan members do not contribute to the plan.

There are no publicly available financial reports for these defined contribution pension plans.

Deferred Compensation Plans

Additionally, the Authority maintains a nonqualified deferred compensation plan for certain physicians effective July 1, 2007. Contributions to the plan are made by the Authority based on call hours worked. Through June 30, 2019, the plan vested after a five- or ten-year period. Effective July 1, 2019, participants vest upon enrollment. The contributions are held in a trust that carries life insurance policies on each physician. The life insurance policies are invested in mutual funds, and the cash surrender value of the policies at June 30, 2021 and 2020, was approximately \$1,789,000 and \$1,191,000, respectively, and is included in prepaid expenses and other in the accompanying balance sheets. The related liability as of June 30, 2021 and 2020, of approximately \$2,370,000 and \$2,242,000, respectively, for this plan is included in accrued payroll and expenses and other long-term liabilities in the accompanying balance sheets (see *Note 10*). Deferred compensation expense related to the plan totaled approximately \$832,000 and \$883,000 for the years ended June 30, 2021 and 2020, respectively.

The Authority also provides a deferred compensation plan (457 Plan) to substantially all employees of the Authority and a nonqualified deferred contribution plan (415m Plan) to certain employees of the Authority. The Authority does not make contributions to the 457 Plan.

Notes to Financial Statements June 30, 2021 and 2020

Note 14: Defined Benefit Pension Plan

Plan Description

The Authority's defined benefit pension plan, the Pension Plan for Employees of Norman Regional Hospital, is a single-employer defined benefit pension plan administered by the Authority's governing body. The plan benefits were frozen on December 31, 2003. No new participants were admitted to the plan after that date. Participants who were over age 60 or had 25 or more years of service as of December 31, 2003, continue to accrue benefits under the plan. The authority to establish and amend benefit provisions is vested in the Authority's governing body. There is no publicly available financial report for the defined benefit pension plan. The Authority uses an April 30 measurement date.

Benefits Provided

The plan provides retirement and death benefits to plan members and their beneficiaries. Retirement benefits for employees are calculated as 1.5% of the participant's average annual earnings, as defined by the plan, multiplied by the number of years of credited service at retirement or termination. Death benefits are equal to the vested balance. Disability retirement benefits are determined as the actuarial equivalent in the same manner as retirement benefits but are payable from date of disability to normal retirement date. For participants with frozen benefits, the retirement age is 65. For participants accruing benefits, the retirement age is the later of age 60 or the age upon completion of 30 years of service.

The employees covered by the plan at April 30 are:

2021	2020

Contributions

The Authority's governing body has the authority to establish and amend the contribution rates of the Authority and active employees. The governing body establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year with an additional amount to finance any unfunded accrued liability. The actuarially determined contribution was \$680,959 and \$355,176 for the years ended April 30, 2021 and 2020, respectively. For the years ended April 30, 2021 and 2020, the Authority actually contributed \$300,000 and \$400,000, respectively, to the plan. Participants do not contribute to the plan.

Notes to Financial Statements June 30, 2021 and 2020

Net Pension Liability (Asset)

The Authority's net pension liability (asset) was measured as of April 30, 2021 and 2020, for the years ended June 30, 2021 and 2020, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of those dates.

The total pension liability in the April 30, 2021 and 2020, actuarial valuations was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.6%
Salary increase	4.0% average, including inflation
Ad hoc cost of living adjustments	Not applicable
Investment rate of return	7.0%, net of pension plan investment expense
	and including inflation

Mortality rates for the 2021 valuation were based on the Pri-2012 Blue Collar Mortality Table Projected Generationally from 2012 with the Mortality Improvement Scale MP-2020; mortality rates for the 2020 valuation were based on the Pri-2012 Blue Collar Mortality Table Projected Generationally from 2012 with the Mortality Improvement Scale MP-2019.

The actuarial assumptions used in the April 30, 2021 and 2020, valuation were based on the results of an actuarial experience study for the period May 1, 2011 through April 30, 2017.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These expected future real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic rates of return for both the 2021 and 2020 valuations for each major asset class are summarized in the following table:

	Target Allocation	Expected Rate of Return (Net of Inflation)
Asset Class		
Domestic stocks	35.0%	7.40%
International stocks	10.0%	6.40%
U.S. bonds – core plus	17.5%	0.40%
U.S. bonds – multisector	15.0%	2.40%
Real estate	7.5%	6.40%
Balanced	10.0%	4.40%
Cash	5.0%	-1.10%
	100%	

Notes to Financial Statements June 30, 2021 and 2020

Discount Rate

The discount rate used to measure the total pension liability was 7% for the years ended June 30, 2021 and 2020. The projection of cash flows used to determine the discount rate assumed that the Authority's contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the total pension liability, plan fiduciary net position, and net pension liability (asset) for the years ended June 30 were:

		2021		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (Asset) (a) - (b)	
Balance, beginning of year	\$ 45,173,534	\$ 40,217,500	\$ 4,956,034	
Changes for the year

Change of assumptions	(431,344)		(431,344)		
Net changes	155,111	(2,988,487)	3,143,598		
Balance, end of year	\$ 45,173,534	\$ 40,217,500	\$ 4,956,034		

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The net pension liability (asset) of the Authority has been calculated using a discount rate of 7%. The following presents the net pension liability (asset) using a discount rate 1% higher and 1% lower than the current rate for the year ended June 30, 2021:

		Current					
	1% Decrease (6.0%)	Discount Rate (7.0%)	1% Increase (8.0%)				
Net pension liability (asset)	\$ 2,625,900	\$ (1,640,795)	\$ (5,304,037)				

Pension Expense and Deferred Outflows of Resources Related to Pensions

For the years ended June 30, 2021 and 2020, the Authority recognized pension expense of \$(439,403) and \$1,273,924, respectively. At June 30, 2021 and 2020, the Authority reported deferred outflows (inflows) of resources of \$(3,376,978) and \$2,480,448, respectively, related to the net difference between projected and actual earnings on pension plan investments.

Notes to Financial Statements June 30, 2021 and 2020

The reported deferred outflows (inflows) of resources at June 30, 2021, related to pensions will be recognized in pension expense as follows:

2022 2023 2024 2025	\$ (682,928) (691,663) (658,030) (1,344,357)
Total	\$ (3,376,978)

Pension Plan Fiduciary Net Position

As of June 30, the plan's fiduciary net position was comprised of the following:

	2021	2020
Mutual funds, at fair value		
Equities – domestic	\$ 17,894,978	\$ 11,969,348
Equities – international	7,178,287	6,698,125
Fixed income – domestic	12,449,444	6,812,641
Fixed income – international	8,051,957	5,894,309
Balanced asset allocation	-	4,049,741
Real assets	-	3,192,462
Proprietary separate fund, at amortized cost	1,167,734	1,600,874
Total pooled investments, at fair value	46,742,400	40,217,500
Total plan fiduciary net position	\$ 46,742,400	\$ 40,217,500

Investment Policy – Investment policy decisions are established and maintained by the Retirement Committee charged with overseeing the pension plan, as authorized by the Authority's Board of Trustees. The Retirement Committee employs and selects investment managers.

The primary goal of a pension fund is to help pay the cost of the pension plan while providing adequate security to meet the benefits promised under the pension plan. As a consequence, two important dimensions of a pension plan's investment program are expected return and expected risk.

The pension plan trustees diversify pension plan investments among asset classes, recognizing that there is a relationship between the level of risk assumed in an investment program and the level of return that should be expected. Appropriate diversification better enables balance of risk and return.

Investment Rate of Return – The annual money-weighted rate of return on pension plan investments, net of expenses, which expresses net investment performance adjusted for changing

Notes to Financial Statements June 30, 2021 and 2020

amounts actually invested each month, was approximately 7.3% for the 12 months ended April 30, 2021.

Credit Risk – Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. The plan does not have a separate policy covering credit risk.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty the Authority will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The plan's investment policy does not address how investments are to be held.

Concentration of Credit Risk – The plan does not have a policy to limit its holdings in any one issuer. At June 30, 2021 and 2020, all the plan's investments were held through the plan's investment manager, Prudential.

At June 30, the plan's investments had the following maturities:

		Maturities in Years				
Туре	Fair Value	Less than 1	1–5	6–10		
2021						
Mutual funds, at fair value

by fair value level	\$	38,616,626	\$	38,616,626	\$		\$	

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The plan did not hold any Level 2 or Level 3 securities at June 30, 2021 or 2020.

Note 15: Fiduciary Fund

Investments

Investment Policy – Investment policy decisions are established and maintained by the Retirement Committee charged with overseeing the pension plan, as authorized by the Authority's Board of Trustees. The Retirement Committee employs and selects investment managers.

The primary goal of a pension fund is to help pay the cost of the pension plan while providing adequate security to meet the benefits promised under the pension plan. As a consequence, two important dimensions of a pension plan's investment program are expected return and expected risk

The pension plan trustees diversify pension plan investments among asset classes, recognizing that there is a relationship between the level of risk assumed in an investment program and the level of

Notes to Financial Statements June 30, 2021 and 2020

return that should be expected. Appropriate diversification better enables balance of risk and return.

Investment Rate of Return – The annual money-weighted rate of return on pension plan investments, net of expenses, which expresses net investment performance adjusted for changing amounts actually invested each month, was approximately 7.3% for the 12 months ended December 31, 2020.

Credit Risk – Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. The plan does not have a separate policy covering credit risk.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty the Authority will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The plan's investment policy does not address how investments are to be held.

Concentration of Credit Risk – The plan does not have a policy to limit its holdings in any one issuer. At December 31, 2020, all the plan's investments were held through the plan's investment manager, Prudential.

At December 31, 2020, the plan's investments had the following maturities:

			Maturities in Years	
Туре	Fair Value	Less than 1	1–5	6–10
Mutual funds, at fair value

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan did not hold any Level 2 or Level 3 securities at December 31, 2020.

Note 16: Disclosures About Fair Value of Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets
- **Level 3** Unobservable inputs supported by little or no market activity and significant to the fair value of the assets

Notes to Financial Statements June 30, 2021 and 2020

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30:

Notes to Financial Statements June 30, 2021 and 2020

Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts included above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the accompanying balance sheets.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of investments with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such investments are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy.

The valuation method for investments measured at the NAV per share (or its equivalent) is described below.

At June 30, 2021 and 2020, investments measured at NAV consisted of investments in hedge funds that take both long and short positions, primarily in common stocks (both domestic and international) and depository receipts. Management of the funds has the ability to shift investments among differing investment strategies. The Authority has no unfunded commitments with these funds, and investors may redeem shares under no restriction period with 0 to 5 days' notice.

Note 17: Contingencies and Other Matters

Litigation

In the normal course of business, the Authority is, from time to time, subject to allegations that may or do result in litigation. Some of these allegations are in areas not covered by the Authority's self-insurance program (discussed elsewhere in these notes) or by commercial insurance, for example, allegations regarding employment practices or performance of contracts. The Authority evaluates such allegations by conducting investigations to determine the validity of each potential claim. Based upon the advice of legal counsel, management records an estimate of the amount of ultimate expected loss, if any, for each. Actual results could potentially differ materially from the estimate in the near term.

Medical Malpractice Claims

Estimates related to the accrual for medical malpractice claims are described in *Note 9*.

Investments

The Authority invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with

Notes to Financial Statements June 30, 2021 and 2020

certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying balance sheets.

Pension Obligations

The Authority has a noncontributory defined benefit pension plan. The benefit obligation is the actuarial present value of all benefits attributed to service rendered prior to the valuation date based on the projected unit credit cost method. It is reasonably possible that events could occur that would change the estimated amount of this liability materially in the near term.

Inspire Health

The Authority has approved a master plan for capital improvements known as Inspire Health. Funding for the project is financed from the proceeds of the Series 2019 Hospital Revenue Bonds as detailed in *Note 10*. As of June 30, 2021, the Authority has signed related ground leases and construction and development contracts for various amounts related to the master plan.

Note 18: Transactions with Norman Regional Health Foundation, Inc.

Norman Regional Health Foundation, Inc. (the Foundation) is a nonprofit corporation organized to serve as the legal conduit for receiving and distributing gifts for the support of the Authority. During the years ended June 30, 2021 and 2020, the Foundation contributed approximately \$59,000 and \$47,000, respectively, in noncapital-related contributions and approximately \$63,000 and \$111,000, respectively, in capital-related contributions to the Authority.

Note 19: COVID-19 Pandemic and CARES Act Funding

On March 11, 2020, the World Health Organization designated the SARS-CoV-2 virus and the incidence of COVID-19 as a global pandemic.

The extent of the COVID-19 pandemic's adverse impact on the Authority's operating results and financial condition has been and will continue to be driven by many factors, most of which are beyond the Authority's control and ability to forecast.

Because of these and other uncertainties, the Authority cannot estimate the length or severity of the impact of the pandemic on the Authority's business. Decreases in cash flows and results of operations may have an impact on debt covenant compliance and on the inputs and assumptions used in significant accounting estimates, including estimated bad debts and contractual adjustments related to uninsured patient accounts, and self-insured health liability reserves.

Notes to Financial Statements June 30, 2021 and 2020

Provider Relief Fund

During the years ended June 30, 2021 and 2020, the Authority received \$15,312,002 and \$10,167,997, respectively, from the CARES Act Provider Relief Fund. These distributions from the Provider Relief Fund are not subject to repayment, provided the Authority is able to attest to and comply with the terms and conditions of the funding, including demonstrating that the distributions received have been used for qualifying expenses or lost revenue attributable to COVID-19 as defined by the U.S. Department of Health and Human Services (HHS).

The Authority is accounting for such payments as conditional contributions. Payments are recognized as contribution revenue once the applicable terms and conditions required to retain the funds have been met. Based on an analysis of the compliance and reporting requirements of the Provider Relief Fund and the impact of the pandemic on the Authority's operating revenues and expenses through year-end, the Authority recognized \$15,312,002 and \$10,167,997 during the years ended June 30, 2021 and 2020, respectively, related to the Provider Relief Fund, and these payments are recorded as nonoperating revenue – government grants in the accompanying statements of revenues, expenses, and changes in net position.

Guidance for reporting use of Provider Relief Fund payments received has changed significantly since distributions were authorized through the CARES Act in March 2020. The Authority has evaluated the "Post-Payment Notice of Reporting Requirements" (Notice) and the Frequently Asked Questions (FAQs) issued by HHS subsequent to June 30, 2021, in accordance with GASB codification Section 2250 and has concluded that any impact of the July 1, 2021, FAQs would be recognized.

The Authority has recognized revenue from the Provider Relief Fund based on guidance issued by HHS as of June 30, 2021, and any clarifications issued by HHS subsequent to year-end, including any referenced above as recognized subsequent events. The Authority will continue to monitor compliance with the terms and conditions of the Provider Relief Fund and the effect of the pandemic on the Authority's revenues and expenses. The terms and conditions governing the Provider Relief Fund are complex and subject to interpretation and change. If the Authority is unable to attest to or comply with current or future terms and conditions, its ability to retain some or all of the distributions received may be affected. Additionally, the amounts recorded in the financial statements compared to the Authority's Provider Relief Fund reporting could differ. Provider Relief Fund payments are subject to government oversight, including potential audits.

Payroll Tax Credits

The CARES Act also provides for a deferral of payments of the employer portion of payroll tax incurred during the pandemic, allowing half of such payroll taxes to be deferred until December 2021 and the remaining half until December 2022. At June 30, 2021 and 2020, the Authority had deferred \$6,884,386 and \$1,565,282, respectively, of payroll taxes included in accrued payroll and expenses and other long-term liabilities in the accompanying balance sheets (see *Note 10*).

Notes to Financial Statements June 30, 2021 and 2020

Note 20: Future Changes in Accounting Principles

Accounting for Leases

With the issuance of GASB Statement No. 87, *Leases*, GASB amended its standard related to the accounting for leases. Under the new standard, lessees will now be required to recognize substantially all leases on the balance sheet as both an intangible asset and a liability. GASB 87 removes the classification of leases between two categories, and all leases will be recorded the same on the statement of revenues, expenses, and changes in net position. GASB 87 also contains amended guidance regarding the identification of lease and non-lease components in an arrangement. GASB 87 is effective for the Authority's fiscal year ending June 30, 2022. The Authority is evaluating the impact GASB 87 will have on the financial statements; however, GASB 87 is expected to have a material impact on the financial statements due to the recognition of additional assets and liabilities for operating leases.

Capitalized Interest

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, requires interest costs incurred before the end of a construction period be recognized as expense in the period in which the costs are incurred. As a result, the interest cost incurred before the end of a construction period will no longer be included in the historical cost of a capital asset. The Authority expects to first apply GASB 89 during its fiscal year ending June 30, 2022. No retrospective application is required.

Notes to Financial Statements June 30, 2021 and 2020

Methods and assumptions used to determine contribution rates:

Valuation date: April 30, 2021

Actuarial cost method: Entry age method

Amortization method: Annual interest rate assumption

Remaining amortization period: 17 years

Asset valuation method: Fair market value

Inflation: 2.6%

Salary increases: 4.0% annually

Investment rate of return: 7.0% net of investment expenses

Retirement age: For participants accruing benefits, the later of age 60 or the age upon completion of 30 years of service. For participants with frozen benefits, age 65.

Mortality: Pri-2012 Blue Collar Mortality Table Projected Generationally from 2012 with the Mortality Improvement Scale MP-2020

Other information: Plan is frozen to new participants effective December 31, 2003.

Note to Schedule

This schedule is intended to show a 10-year trend. Additional years will be reported as they become available.

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Independent Auditor's Report

Board of Trustees Norman Regional Hospital Authority Norman, Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities and the fiduciary activities of Norman Regional Hospital Authority (the Authority), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated September 27, 2021, which contained an *Emphasis of Matter* paragraph regarding a change in accounting principles.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any

Board of Trustees Norman Regional Hospital Authority

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
