INDEPENDENT AUDITORS' REPORT

The Honorable Brian Bingman
President Pro Tempore
Oklahoma State Senate

We have audited the accompanying financial statements of the governmental activities and the General Fund of the Oklahoma State Senate (the "Senate") as of and for the years ended June 30, 2011 and 2010, which collectively comprise the Senate's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Senate's leadership. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the leadership, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As discussed in Note 1, the financial statements of the Senate are intended to present the financial position and the changes in financial position of only that portion of the governmental activities and the General Fund of the State of Oklahoma attributable to the transactions of the Senate. They do not purport to, and do not, present fairly the financial position of the State of Oklahoma as of June 30, 2011 and 2010, and the respective changes in its financial position for the years then ended, in conformity with accounting principles generally accepted in the United States.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the General Fund of the Senate as of June 30, 2011 and 2010, and the respective changes in its financial position thereof for the years then ended in conformity with accounting principles generally accepted in the United States.

Effective July 1, 2010, the Senate implemented Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). As more fully discussed in Note 2, the effect of implementing GASB 54 resulted in certain changes to the presentation of fund balances and certain 2010 fund balances were reclassified to conform to the 2011 presentation.

(Continued)

INDEPENDENT AUDITORS' REPORT, CONTINUED

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2011, on our consideration of the Senate's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States require that the management's discussion and analysis and budgetary comparison information on pages I-1 to I-5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Senate is not required by statute to prepare a line-item budget. Accordingly, a schedule of revenues, expenditures, and changes in fund balance—budget to actual is not presented herein.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

As management of the Oklahoma State Senate (the "Senate"), we offer readers of the Senate's financial statements this overview and analysis of the financial activities for the fiscal years ended June 30, 2011, 2010, and 2009.

FINANCIAL HIGHLIGHTS

- During 2011, The Senate's net assets increased \$381,462 from June 30, 2010, resulting in net assets of \$(347,059) at June 30, 2011. During 2010, the Senate's net assets decreased \$57,993 from June 30, 2009, resulting in net assets of \$(728,521) at June 30, 2010. During 2009, the Senate's net assets decreased \$646,761 from June 30, 2008, resulting in net assets of \$(670,528) at June 30, 2009.
- At June 30, 2011, the Senate's assets totaling \$564,321 decreased \$160,129 from June 30, 2010, due to a decrease in cash and capital assets. At June 30, 2010, the Senate's assets totaling \$724,450 increased \$234,431 from June 30, 2009, due to an increase in cash. At June 30, 2009, the Senate's assets totaling \$490,019 decreased \$439,762 from June 30, 2008, due to a decrease in cash.
- At June 30, 2011, the Senate's liabilities totaling \$911,380 decreased \$541,591 from June 30, 2010, due to personnel services reductions as well as reductions for capital expenditures, both of which were necessary due to a significant decrease in the Senate's general appropriation. At June 30, 2010, the Senate's liabilities totaling \$1,452,971 increased \$292,424 from June 30, 2009, due mainly to Senate employees accepting a voluntary benefit buyout package and terminating employment as of June 30, 2010. At June 30, 2009, the Senate's liabilities totaling \$1,160,547 increased \$206,999 from June 30, 2008, due mainly to the Senate obtaining a new capital lease.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Senate's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statements of net assets and the statements of activities) are designed to provide readers with a broad overview of the Senate's finances in a manner similar to a private-sector business.

The statements of net assets present information on all of the Senate's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Senate is improving or deteriorating.

The statements of activities present information showing how the Senate's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in these statements for some items that will only result in cash flows in future periods.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A), CONTINUED

OVERVIEW OF THE FINANCIAL STATEMENTS, CONTINUED

Fund Financial Statements

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. All governmental activities of the Senate are reflected in the General Fund. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of available resources, as well as on balances of resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheets and the governmental fund statements of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Senate maintains one fund, which is the General Fund. Information is presented separately in the governmental fund balance sheets and the governmental fund statements of revenues, expenditures, and changes in fund balance for the major fund. All transactions related to the general administration of the Senate are accounted for in the General Fund.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A), CONTINUED

GOVERNMENT-WIDE FINANCIAL ANALYSIS, CONTINUED

This discussion and analysis of the Senate's financial performance provides an overview of the Senate's financial activities for the fiscal years ended June 30, 2011, 2010, and 2009.

The Senate's 2011 appropriation from the State of Oklahoma decreased approximately 7%, or \$903,000, from FY 2010 due to the continued downturn of the State's economy and resulting negative impact on State revenues as certified by the Board of Equalization. To offset the reduction in appropriations, \$1,000,000 was contributed by LSB to the Senate. The Senate's 2010 appropriation from the State of Oklahoma decreased approximately 14%, or \$2,019,000, from FY 2009 due to State revenue reductions to all state agencies in August 2009. To offset the reduction in appropriations, \$3,000,000 was contributed by LSB to the Senate. The Senate's 2009 appropriation from the State of Oklahoma decreased approximately 0.1%, or \$18,000, from FY 2008 due to a revenue shortfall announced by the Office of State Finance when appropriating the June allocation. This amount was subsequently rebated in August 2009.

The Senate's 2011 expenditures, not including adjustments for depreciation, capitalized lease items, and compensated absences, decreased approximately 20%, or \$3,246,000, from FY 2010 solely due the need to reduce expenses to match a corresponding reduction in the Senate's general appropriation allocation.

The Senate's 2010 expenditures, not including adjustments for depreciation, capitalized lease items, and compensated absences, increased approximately 3%, or \$417,000, from FY 2009 solely due to Senate employees accepting a voluntary benefit buyout package and terminating employment as of June 30, 2010.

The Senate's 2009 expenditures, not including adjustments for depreciation, capitalized lease items, and compensated absences, increased approximately 4%, or \$613,000, from FY 2008 solely due to increases in personnel-related costs. Specifically, the Legislative Compensation Board voted during their October 2007 meeting to allow legislators to have the same flexible benefits allowance afforded State of Oklahoma employees. Prior to this, legislators received a flat \$262.19 per month towards the cost of health and welfare benefits. This change resulted in an increased expense of \$359,000 during FY 2009. It is important to note that this increase is only a 7-month cost as it did not become effective until December 2008. Salaries increased a total of \$131,000 due to the annualizing of 3.0% performance raises granted throughout FY 2008 and FY 2009. Finally, statutory requirements increased the Oklahoma Public Employees Retirement System contribution from 13.5% to 14.5% effective July 1, 2008. This increase cost the Senate \$89,000 during FY 2009. Other major categories of expenses were reduced from the prior year as follows: travel was reduced by 11.67%, or \$80,882; administrative expenses were reduced 1.9%, or \$11,579; and furniture and equipment were reduced by 7.3%, or \$2,684.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A), CONTINUED

CAPITAL ASSETS

As of June 30, 2011, 2010, and 2009, the Senate's investment in capital assets, net of accumulated depreciation, totaled approximately \$88,000, \$141,000, and \$226,000, respectively. Depreciation for 2011, 2010, and 2009 totaled approximately \$59,000, \$87,000, and \$122,000, respectively. Capital assets include computer equipment, office furniture, and other equipment.

CAPITAL LEASES

As of June 30, 2011, 2010, and 2009, the Senate had approximately \$114,000, \$152,000, and \$186,000, respectively, of capital lease obligations outstanding for the lease of certain office equipment. During the years ended June 30, 2011, 2010, and 2009, the Senate paid approximately \$52,000, \$52,000, and \$54,000, respectively, in lease payments, of which approximately \$13,000, \$17,000, and \$11,000, respectively, related to interest expense.

DESCRIPTION OF CURRENTLY KNOWN FACTS, DECISIONS, OR CONDITIONS THAT ARE EXPECTED TO HAVE A SIGNIFICANT EFFECT ON THE FINANCIAL POSITION OR RESULTS OF OPERATIONS

The Governor has approved the Senate's appropriation for the year July 1, 2011, to June 30, 2012.

The Senate is not required by statute to adopt a budget; therefore, budgetary comparison schedules are not required as part of the required supplementary information.

CONTACTING THE SENATE'S FINANCIAL MANAGEMENT

This financial report is designed to provide interested parties with a general overview of the Senate's finances and to demonstrate the Senate's accountability for the funds received. If you have questions relative to the report or have a need for additional financial information, contact the Oklahoma State Senate, State Capitol Building, 2300 N. OKLAHOMA STATE SENATE

NOTES TO FINANCIAL STATEMENTS

June 30, 2011 and 2010

(1) NATURE OF THE ORGANIZATION

The financial statements of the Oklahoma State Senate (the "Senate") have been prepared in conformity with accounting principles generally accepted in the United States as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Senate's accounting policies are described below.

Financial Reporting Entity

The Senate is a legislative body of the State of Oklahoma (the "State"). The Senate consists of 48 members who are elected by Oklahoma voters to serve 4-year terms. The Senate initiates legislation, holds legislative hearings, confirms appointments of the Governor, and tries impeachment cases.

In accordance with GASB, the Senate's financial statements should include the operations of all organizations for which the Senate has financial accountability. The Senate has determined there are no other organizations for which it has financial accountability.

Fund Accounting and Budgetary

The Senate is included in the General Fund—Government of the State of Oklahoma (the "State"). The accompanying financial statements are intended to present the financial position and changes in financial position of only that portion of the governmental activities and the General Fund of the Senate and not that of the financial position of the State. The Senate is funded by an appropriation from unallocated general funds earmarked for state government. Appropriations are available for expenditures for a period of 30 months from the date the appropriations are approved. It is the practice of the Senate to utilize unexpended appropriations from the prior year before expending current-year appropriations. The Senate is not required by statute to prepare a line-item budget and is only subject to the limitation of the total appropriation provided by the Oklahoma Legislature. Accordingly, a schedule of revenues, expenditures, and changes in fund balance—budget to actual is not presented herein.

See Independent Auditors' Report.

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Presentation and Accounting

The government-wide financial statements (i.e., the statements of net assets and the statements of activities) report information on all of the nonfiduciary activities of the Senate. Governmental activities are supported by intergovernmental revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The General Fund is used to account for the Senate's expendable financial resources and related liabilities. All transactions related to the general administration of the Senate are accounted for in this fund.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Available is defined by the Senate as 60 days after year-end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences are recorded only when the liability has matured.

Only current assets and current liabilities are included on their balance sheets. Their operations present sources and uses of available spendable resources during a given period of time.

Contributions

The Senate records as contributions revenue assets and/or services that are paid for by other state agencies.

Cash

Cash consists of cash held at the Office of the State Treasurer (the "State Treasurer"), which is responsible for ensuring proper collateralization and insurance of such funds. The State Treasurer requires that financial institutions deposit collateral securities to secure the deposits of the State in each such institution. The amount of collateral securities to be pledged for the security of public deposits shall be established by rules and regulations promulgated by the State Treasurer.

Capital Assets

Capital assets are recorded as expenditures in the statements of revenues, expenditures, and changes in fund balance—General Fund, but are capitalized in the statements of net assets. Capital assets are stated at actual or estimated historical cost in the statements of net assets.

Capital assets are defined as assets with initial costs of \$500 or more. Depreciation is computed on the straight-line method over the estimated useful lives:

Computer equipment	3 years
Office furniture and other equipment	5 years

A full year's depreciation is taken in the year an asset is placed in service. When assets are disposed of, depreciation is removed from the respective accounts and the resulting gain or loss, if any, is recorded in the statements of activities.

Compensated Absences

Employees earn annual vacation leave based upon their start date and years of service. Unused annual leave may be accumulated to a maximum of 240 hours for employees with less than 5 years of service and a maximum of 480 hours for employees with more than 5 years of service. All accrued annual leave is payable upon termination, resignation, retirement, or death. The General Fund records expenditures when employees are paid for leave. Accrued annual leave is considered a long-term liability and is included in the statements of net assets. Sick leave does not vest to the employee and therefore is not recorded as a liability.

Capital Lease Obligations

The Senate entered into capital lease obligations, as more fully described in Note 6 to the financial statements. The amount reflected in the statements of net assets is the principal balance due as of June 30, 2011 and 2010.

Income Taxes

The income of the Senate, a legislative body of the State, is exempt from federal and state income taxes.

Equity Classifications

Government-Wide Financial Statements

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt—consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets—consists of net assets with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets—all other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

It is the Senate’s policy to first use restricted net assets prior to the use of unrestricted net assets when an expense is incurred for purposes for which both restricted and unrestricted net assets are available. As of June 30, 2011 and 2010, the Senate did not have any restricted net assets.

Fund Financial Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned, and unassigned. These classifications are defined as:

- a. Nonspendable fund balance—includes amounts that cannot be spent because they are either 1) not in spendable form or 2) legally or contractually required to be maintained intact.
- b. Restricted fund balance—consists of fund balance with constraints placed on the use of resources are either 1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or 2) imposed by law through constitutional provisions or enabling legislation.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Equity Classifications, Continued

Fund Financial Statements, Continued

- c. Committed fund balance—the committed fund balance classification reflects specific purposes pursuant to constraints imposed by formal action of the Senate’s highest level of decision-making authority. Also, such constraints can only be removed or changed by the same form of formal action.
- d. Assigned fund balance—the assigned fund balance classification reflects amounts that are constrained by the Senate’s intent to be used for specific purposes, but meet neither the restricted nor committed forms of constraint. Assigned funds cannot cause a deficit in unassigned fund balance.

For purposes of an assigned fund balance, the Senate has given authority to the President Pro Tempore of the Senate to assign state appropriations received by the Senate for specific purposes.

- e. Unassigned fund balance—the unassigned fund balance classification is the residual classification for the General Fund only. It is also where negative residual amounts for all other governmental funds would be reported. Unassigned fund balance essentially consists of excess funds that have not classified in the other four fund balance categories mentioned above.

It is the Senate’s policy to first use restricted fund balance prior to the use of unrestricted fund balance when an expense is incurred for purposes for which both restricted and unrestricted fund balance are available. The Senate’s policy for the use of unrestricted fund balance amounts require that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Equity Classifications, Continued

Fund Financial Statements, Continued

Effective July 1, 2010, the Senate implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). The following table shows the fund balance classifications as shown on the governmental funds balance sheets in accordance with GASB 54 for the years ended June 30:

	<u>General Fund</u>	
	<u>2011</u>	<u>2010</u>
Fund balances:		
Unassigned:		
State appropriations	\$ 353,696	(27,397)
 Total fund balances	<u>\$ 353,696</u>	<u>(27,397)</u>

The fund balance classifications for 2010 were changed to conform with GASB 54.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting is used, under which purchase orders, contracts, and other commitments for the expenditures of resources are recorded as expenditures of the applicable funds. This is an extension of the formal budgetary integration in the General Fund. Encumbrances do not represent any further constraint on the use of amounts than is already communicated by governmental fund balance classification as restricted, committed, or assigned. As of June 30, 2011 and 2010, there were no such encumbrances outstanding.

Deficit Unrestricted Net Assets

The deficit unrestricted net assets at June 30, 2011 and 2010, were partly due to long-term liabilities, such as compensated absences, being recorded in the statements of net assets. In addition, the expenses for 2010 exceeded revenues. During the years ended June 30, 2011 and 2010, the Senate received contributions totaling \$1,000,000 and \$3,000,000, respectively, from the Legislative Service Bureau (LSB) to assist in eliminating the deficit balance. Also, due to an approximate 20% decrease in expenditures from prior year, the deficit unrestricted net assets decreased.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements

In December 2010, GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989, FASB and AICPA Pronouncements* (GASB 62). The objective of GASB 62 is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements.

1. Financial Accounting Standards Board (FASB) Statements and Interpretations
2. Accounting Principles Board Opinions
3. Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedures

The requirements in GASB 62 will improve financial reporting by contributing to GASB's efforts to codify all sources of generally accepted accounting principles for state and local governments so that they derive from a single source. GASB 62 is effective for financial statements for periods beginning after December 15, 2011, with earlier application encouraged. The provisions of GASB 62 are required to be applied retroactively for all periods presented.

Date of Management's Review of Subsequent Events

Management has evaluated subsequent events through December 13, 2011, the date which the financial statements were available to be issued.

(3) **CASH BALANCES**

At June 30, 2011 and 2010, the Senate maintained cash balances of approximately \$477,000 and \$583,000, respectively, with the State Treasurer. The Senate's deposits with the State Treasurer are pooled with the funds of other state agencies and then, in accordance with statutory limitation, placed in banks or invested as the State Treasurer may determine. Deposits are fully insured or collateralized with securities held by an agent of the State, in the State's name.

(7) RETIREMENT PLAN

Plan Description

The Senate contributes to the Oklahoma Public Employees Retirement Plan (the “Retirement Plan”), a cost-sharing, multiple-employer public employee retirement system administered by the Oklahoma Public Employees Retirement System (the “System”). The Retirement Plan provides retirement, disability, and death benefits to plan members and beneficiaries. The benefit provisions are established and may be amended by the Oklahoma Legislature. Title 74 of the Oklahoma Statutes, Sections 901–943, as amended, assigns the authority for management and operation of the Retirement Plan to the Board of Trustees of the System (the “Board”). The System issues a publicly available annual financial report that includes financial statements and required supplementary information for the Retirement Plan. That annual report may be obtained by writing to the Oklahoma Public Employees Retirement System, 5801 N. Broadway Extension, Suite 400, Oklahoma City, Oklahoma 73118, or by calling 1-800-733-9008.

Funding Policy

Retirement Plan members (consisting of state employees and senators) and the Senate are required to contribute at a rate set by statute. The contribution requirements of Retirement Plan members and the Senate are established and may be amended by the Oklahoma Legislature. The contribution rates for the Retirement Plan members and the Senate are as follows:

Fiscal Year 2011			Fiscal Year 2010		
State Employees	Senators	Senate	State Employees	Senators	Senate
All Salaries	All Salaries	All Salaries	All Salaries	All Salaries	All Salaries
3.5%	4.5%–10%	15.5%	3.5%	4.5%–10%	15.5%

Fiscal Year 2009		
State Employees	Senators	Senate
All Salaries	All Salaries	All Salaries
3.5%	4.5%–10%	14.5%

The Senate’s contributions to the Retirement Plan for the years ended June 30, 2011, 2010, and 2009, were approximately \$1,244,000, \$1,468,000, and \$1,376,000, respectively, and were equal to its required contributions for each year.

See Independent Auditors’ Report.

(8) **OKLAHOMA STATE EMPLOYEES DEFERRED COMPENSATION PLAN AND DEFERRED SAVINGS INCENTIVE PLAN**

Deferred Compensation Plan

The State offers its employees a Deferred Compensation Plan (the "Plan") as authorized by Section 457 of the Internal Revenue Code (IRC), as amended by the Tax Reform Act of 1986, and in accordance with the provisions of Sections 1701–1706 of Title 74 of the Oklahoma Statutes.

The supervisory authority for the management and operation of the Plan is the Board.

The Plan is available to all state employees, as well as any elected officials receiving a salary from the State. Participants may direct the investment of their contributions in available investment options offered by the Plan. The minimum contribution amount is the equivalent of \$25 per month, and participants are immediately 100% vested in their respective accounts. All interest, dividends, and investment fees are allocated to participants' accounts.

Participants may defer until future years up to the lesser of 100% of their compensation as defined by plan documents or the maximum amount allowed each year as determined by the Internal Revenue Service, currently \$16,500.

The Plan offers a catch-up program to participants, which allows them to defer annually for the three years prior to their year of retirement, up to twice that plan year's deferral limit. The amount of additional contributions in excess of the normal maximum contributions to the Plan are also limited to contributions for years in which the participant was eligible but did not participate in the Plan or the difference between contributions made and the maximum allowable level. To be eligible for the catch-up program, the participant must be within three years of retirement with no reduced benefits.

Participants age 50 or older may make additional contributions of up to \$5,500 annually subject to certain limits.

Deferred compensation benefits are paid to participants or beneficiaries upon termination, retirement, death, or unforeseeable emergency. Such benefits are based on a participant's account balance and are disbursed in a lump sum or periodic payments at the option of the participant or beneficiaries in accordance with the Plan's provisions.

(8) **OKLAHOMA STATE EMPLOYEES DEFERRED COMPENSATION PLAN AND DEFERRED SAVINGS INCENTIVE PLAN, CONTINUED**

Deferred Compensation Plan, Continued

Effective January 1, 1998, the Board established a Trust and a Trust Fund covering the Plan's assets, pursuant to federal legislation enacted in 1996, requiring public employers to establish such trusts for plans meeting the requirements of Section 457 of the IRC no later than January 1, 1999. Under the terms of the Trust, the corpus or income of the Trust Fund may be used only for the exclusive benefit of the Plan's participants and their beneficiaries. Prior to the establishment of the Trust, the Plan's assets were subject to the claims of general creditors of the State. The Board acts as trustee of the Trust. The participants' accounts are invested in accordance with the investment elections of the participants. The Board is accountable for all deferred compensation received, but has no duty to require any compensation to be deferred or to determine that the amounts received comply with the Plan or to determine that the Trust Fund is adequate to provide the benefits payable pursuant to the Plan.

Further information may be obtained from the Oklahoma State Employees Deferred Compensation Plan's audited financial statements for the years ended June 30, 2011 and 2010. The Senate believes that it has no liabilities in respect to the Plan.

Deferred Savings Incentive Plan

Effective January 1, 1998, the State established the Oklahoma State Employees Deferred Savings Incentive Plan (the "Savings Incentive Plan") as a money purchase pension plan pursuant to IRC Section 401(a). The Savings Incentive Plan and its related Trust are intended to meet the requirements of IRC Sections 401(a) and 501(a).

Any qualified participant who is a state employee that is an active participant in the Plan is eligible for a contribution of the amount determined by the Oklahoma Legislature, currently the equivalent of \$25 per month. Participation in the Savings Incentive Plan is automatic in the month of participation in the Plan and is not voluntary.

Upon cessation of contributions to the Plan, termination of employment with the State, retirement, or death, a participant will no longer be eligible for contributions from the State into the Savings Incentive Plan. Participants are at all times 100% vested in their Savings Incentive Plan account. Participant contributions are not required or permitted. Qualified participants may make rollover contributions to the Savings Incentive Plan, provided such rollover contributions meet applicable requirements of the IRC. Plan participants may direct the investment of the contributions in available investment options offered by the Savings Incentive Plan. All interest, dividends, and investment fees are allocated to the participants' accounts.

Savings Incentive Plan benefits are paid to participants or beneficiaries upon termination, retirement, or death. Such benefits are based on a participant's account balance and are disbursed in a lump sum or periodic payments or may be rolled over to a qualified plan at the option of the participant or beneficiaries.

See Independent Auditors' Report.

(9) LEGISLATIVE SERVICE BUREAU

LSB was created to serve, in various capacities, the Senate and the Oklahoma House of Representatives. It is responsible for such services as directed by the President Pro Tempore of the Senate and the Speaker of the House. One service in which LSB has been directed to serve the Senate is the payment of certain expenditures. These expenditures are included in the Senate's financial statements. LSB did not incur expenditures paid on behalf of the Senate for the year ended June 30, 2011. LSB expenditures paid on behalf of the Senate for the year ended June 30, 2010, was approximately \$54,000. During the years ended June 30, 2011 and 2010, LSB paid contributions totaling \$1,000,000 and \$3,000,000, respectively, to the Senate to assist in the Senate's operating expenditures. These amounts were paid from appropriations of LSB and are reflected as contributions from LSB. For the years ended June 30, 2011 and 2010, LSB did not pay for capital assets for the benefit of the Senate. As of June 30, 2011 and 2010, LSB had assigned fund balances for the benefit of the Senate of \$1,802,566 and \$777,623, respectively, for the Senate's operating expenditures. These amounts will be funded in future years at the discretion of the President Pro Tempore of the Senate.

The rental expense was approximately \$25,000 for the years ended June 30, 2011 and 2010.

(12) RISK MANAGEMENT

The Risk Management Division of the Department of Central Services (the "Division") is empowered by the authority of Title 74 O.S. Supp. 1993, Section 85.34 Et Seq. The Division is responsible for the acquisition and administration of all insurance purchased by the State or administration of any self-insurance plans and programs adopted for the use by the State for certain organizations and bodies outside of state government, at the sole expense of such organizations and bodies.

The Division is authorized to settle claims of the State and shall govern the dispensation and/or settlement of claims against a political subdivision. In no event shall self-insurance coverage provided by the State, an agency, or other covered entity exceed the limitations on the maximum dollar amount of liability specified by the Oklahoma Government Tort Claims Act, as provided by Title 51 O.S. Supp. 1988, Section 154. The Division oversees the collection of liability claims owed to the State incurred as a result of a loss through the wrongful or negligent act of a private person or other entity.

The Division is also charged with the responsibility to immediately notify the attorney general of any claims against the State presented to the Division. The Division purchases insurance policies through third-party insurance carriers that ultimately inherit the risk of loss. The Division annually assesses each state agency, including the Senate, their pro rata share of the premiums purchased.

(13) CONTINGENCIES

The Senate is involved in legal proceedings which, in the opinion of management, will not have a material effect on the net assets or changes in net assets of the Senate.

See Independent Auditors' Report.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

The Honorable Brian Bingman
President Pro Tempore
Oklahoma State Senate

We have audited the accompanying financial statements of the governmental activities and the General Fund of the Oklahoma State Senate (the "Senate") as of and for the year ended June 30, 2011, which collectively comprise the Senate's basic financial statements and have issued our report thereon dated December 13, 2011. Our report includes an explanatory paragraph regarding management's discussion and analysis, an explanatory paragraph stating that the financial statements of the Senate are intended to present the financial position and changes in financial position of only that portion of the governmental activities and the General Fund of the State of Oklahoma attributable to the transactions of the Senate, and an explanatory paragraph stating that the Senate is not required by statute to prepare a line-item budget. Our report also includes an explanatory paragraph noting the Senate's implementation of GASB 54. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Senate's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Senate's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Senate's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

(Continued)

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS, CONTINUED**

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Senate's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of you, the Senate staff, and others within the Senate and is not intended to be and should not be used by anyone other than these specified parties.
