Independent Auditor's Report

Board of Trustees
Oklahoma Public Employees Retirement Plan
Oklahoma City, Oklahoma

Report on the Schedules

We have audited the accompanying Schedule of Employer Allocations of the Oklahoma Public Employees Retirement Plan (the Plan), a component unit of the state of Oklahoma, as of and for the year ended June 30, 2016, and the related Notes to the Schedule. We have also audited the columns titled net pension liability, total deferred outflows of resources excluding employer specific amounts, total deferred inflows of resources excluding employer specific amounts, and pension expense (specified column totals) included in the accompanying Schedule of Collective Pension Amounts, of the Plan as of and for the year ended June 30, 2016, and the related Notes to the Schedule.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these Schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the Schedule of Employer Allocations and the specified column totals included in the Schedule of Collective Pension Amounts based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Employer Allocations and specified column totals included in the Schedule of Collective Pension Amounts are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Schedule of Employer Allocations and specified column totals included in the Schedule of Collective Pension Amounts. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Schedule of Employer Allocations and specified column totals included in the Schedule of Collective Pension Amounts, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Schedule of Employer Allocations and specified column totals included in the Schedule of Collective Pension Amounts in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Schedule of Employer Allocations and specified column totals included in the Schedule of Collective Pension Amounts.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the Schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources excluding employer specific amounts, total deferred inflows of resources excluding employer specific amounts, and pension expense for the Plan as of and for the year ended June 30, 2016, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the Oklahoma Public Employees Retirement Plan as of and for the year ended June 30, 2016, and our report thereon, dated October 20, 2016, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of the Plan's management, the Board of Trustees, Plan employers as of and for the year ended June 30, 2016, and their auditors, and is not intended to be, and should not be, used by anyone other than these specified parties.

Schedule of Collective Pension Amounts

As of and for the Year Ended June 30, 2016

Net Pension Liability	Deferred Outflows of Resources				Deferred Inflows of Resources				Plan Pension Expense	
	Differences Between Expected and Actual Experience	Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments	Changes of Assumptions	Total Deferred Outflows of Resources Excluding Employer Specific Amounts*	Difference Between Expected and Actual Experience	Changes of Assumptions	Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments	Total Deferred Inflows of Resources Excluding Employer Specific Amounts*		
TOTALS	\$ 992,230,716	\$ -	\$ 721,908,045	\$ 158,628,322	\$ 880,536,367	\$ 43,602,750	\$ -	\$ 306,732,086	\$ 350,334,836	\$ 200,537,233

*Employer specific amounts that are excluded from this schedule are the changes in proportion, differences between employer contributions and proportionate share of contributions, and employer contributions subsequent to the measurement date as defined in paragraphs 54 through 57 of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*.

See Notes to the Schedules.

Notes to the Schedules of Employer Allocations and Collective Pension Amounts

(1) Summary of Significant Accounting Policies

The Schedule of Employer Allocations and Schedule of Collective Pension Amounts (Schedules) were prepared in accordance with the following significant accounting policies.

(a) Nature of the Schedules

The purpose of these Schedules is to provide employers information, with regard to GASB Statement No. 68, for their financial statements. As of the measurement date, the Schedules provide each employer with their proportionate share of the net pension liability, deferred outflows and inflows of resources, and pension expense. Deferred outflows and inflows of resources, and pension expense include: each employer’s proportionate share of plan level amounts such as differences between expected and actual experience, the net difference between projected and actual investment earnings on pension plan investments and changes in assumptions.

The Schedule of Collective Pension Amounts represents collective amounts for the Plan. This schedule excludes employer-specific deferral amounts that may need to be recognized to comply with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. Specifically, this schedule excludes deferral amounts arising from the changes in employer proportion, differences between employer contributions and proportionate share of contributions, and employer contributions subsequent to the measurement date as defined in paragraphs 54 through 57 of GASB Statement No. 68.

(b) Use of Estimates

The preparation of the Schedules in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts, and changes therein, and disclosures. Actual results could differ from those estimates, and differences could be material.

(c) Basis of the Allocation

In determining the proportionate share of the net pension liability and corresponding employer pension amounts for a cost-sharing plan, the basis should be consistent with the manner in which contributions are made to the Plan, excluding those to separately finance specific liabilities of an individual employer. The Plan has determined that the actual contributions made to the Plan during fiscal year 2016 are appropriate as the allocation basis because they are representative of future contributions. Contributions are reported using the accrual basis of accounting.

The fiscal year 2016 actual employer contribution total used as the denominator for the allocation calculation in the Schedule of Employer Allocations can be reconciled to the Plan’s CAFR for the fiscal year ended June 30, 2016, as follows:

	2016
Contributions from state and local agencies per CAFR	\$ 296,249,191
Employer withdrawal pursuant to 74 O.S. 910(1)	680,512
Employer contributions from the Plan	(506,624)
Total contributions--schedule of employer allocations	<u>\$ 296,423,079</u>

Notes to the Schedules of Employer Allocations and Collective Pension Amounts (Continued)

(2) Net Pension Liability

The net pension liability (NPL) is the portion of the actuarial present value of projected benefit payments related to past periods. The NPL for the employers is based on the allocation percentages from the Schedule of Employer Allocations.

The net pension liability for fiscal year 2016 is calculated as set forth below in the following table:

Net pension liability--July 1, 2015	\$ 359,683,917
Total pension expense	201,043,857
Change in deferred outflows of resources	577,996,727
Change in deferred inflows of resources	149,755,406
Defined benefit plan employer contributions--CAFR total	<u>(296,249,191)</u>
Net pension liability--June 30, 2016	<u><u>\$ 992,230,716</u></u>

(3) Average Expected Remaining Service Life

The average expected remaining service life of the Plan is determined by taking the calculated total future service years of the Plan divided by the number of people in the Plan including retirees. The total future service years of the plan are determined using the mortality, termination, retirement and disability assumptions associated with the Plan.

	<u>Years</u>
June 30, 2016	3.08

(4) Deferred Outflows and Inflows of Resources

Deferred outflows of resources are the consumption of net position that is applicable to future reporting periods. Deferred inflows of resources are the acquisition of net position that is applicable to future reporting periods.

Difference between expected and actual experience: the actuary uses assumptions such as future salary increases and inflation to develop what they expect to be the experience of the Plan. Each year the difference between the expected experience and the actual experience is amortized over the average expected remaining service life of the Plan.

Net difference between projected and actual investment earnings: the actuary uses the Plan's long term rate of return to project investment earnings net of investment expenses. The difference between the expected and the actual investment earnings is deferred and amortized over five years.

Changes in assumptions: the impact of changes in assumptions used by the actuary is amortized over the average expected remaining service life of the Plan.

Notes to the Schedules of Employer Allocations and Collective Pension Amounts (Continued)

(4) Deferred Outflows and Inflows of Resources (continued)

The amortization of deferred outflows and inflows at June 30, 2016 is as follows:

	Deferred Outflows	Deferred Inflows
2017	\$ 275,656,435	\$ (178,076,884)
2018	274,969,226	(170,887,969)
2019	205,110,659	(1,369,983)
2020	124,800,047	-
2021	-	-
	<u>\$ 880,536,367</u>	<u>\$ (350,334,836)</u>

(5) Pension Expense

Pension Expense includes amounts for service cost (the Normal Cost under Entry Age Normal (EAN) for the year), interest on the total pension liability, changes in the benefit structure, recognition of increases/decreases in liability due to actual versus expected experience, actuarial assumption changes, and investment gains/losses on the market value of assets. The actual experience and assumption change impacts are recognized over the average expected remaining service life of the system membership as of the measurement date.

The collective pension expense for fiscal year 2016 is calculated as set forth below in the following table:

	2016
Service cost	\$ 178,522,755
Interest on the total pension liability	653,305,706
Expensed portion of current period difference between expected and actual experience in the total pension liability	(17,124,802)
Expensed portion of current period changes of assumptions	75,933,227
Member contributions	(73,800,890)
Projected earnings on plan investments	(639,756,767)
Expensed portion of current period differences between actual and projected earnings on plan investments	124,800,049
Administrative expense	5,394,992
Recognition of beginning deferred outflows of resources as pension expense	79,144,580
Recognition of beginning deferred inflows of resources as pension expense	(185,374,993)
	<u>201,043,857</u>
Reconciling items:	
Employer contributions from the Plan	(506,624)
Total pension expense per Schedule of Collective Pension Amounts	<u>\$ 200,537,233</u>
