The Board of Directors  
Pittsburg County Conservation District

I have compiled the accompanying basic financial statements of the governmental activities and the major fund of the Pittsburg County Conservation District as of and for the year ended June 30, 2013, which collectively comprise the District's basic financial statements as listed in the accompanying table of contents. I have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with the modified cash basis of accounting.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

My responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

NOTES TO FINANCIAL STATEMENTS  
For the fiscal year ended June 30, 2013**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Except for the use of a modified cash basis of accounting as discussed in Note 1.C., the District complies with accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles (GAAP) includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements and the fund financial statements for the proprietary funds, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

**1.A. FINANCIAL REPORTING ENTITY**

Pittsburg County Conservation District was established pursuant to Title 82 of Oklahoma State Law. The purpose of the District is to provide for the conservation of the renewable natural resources of this state, and for the control and prevention of soil erosion, and for the prevention of floodwater and sediment damages, and for furthering the conservation, development, utilization and disposal of water and thereby to preserve and develop natural resources, control floods, conserve and develop water resources and water quality, prevent impairment of dams and reservoirs, preserve wildlife, preserve natural beauty, promote recreational development, protect the tax base, protect public lands and protect and promote the health, safety and general welfare of the people of this state.

The Oklahoma Conservation Commission provides oversight and management to the Oklahoma Conservation Districts pursuant to Title 27-A of the Oklahoma State Statutes.

The accompanying financial statements include all functions and activities over which the Conservation District exercises financial accountability. The District is considered a primary government as defined by the Governmental Accounting Standards Board (GASB) and has no other component units within its reporting entity.

**1.B. BASIS OF PRESENTATION**

Government-Wide Financial Statements

The Statement of Net Assets and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The Pittsburg County Conservation District has no business-type activities as of June 30, 2013.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into two major categories: governmental and proprietary. The District presently has no proprietary funds. The District is considered a governmental entity as defined by the Governmental Accounting Standards Board (GASB). There is only one fund, which is the General Fund.

GOVERNMENTAL FUND TYPES

General Fund

The General Fund is the primary operating fund of the District. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

**1.C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

Measurement focus is a term used to describe "how" transactions are recorded within each fund type. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

**PITTSBURG COUNTY CONSERVATION DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
For the fiscal year ended June 30, 2013**

---

In the government-wide Statement of Net Assets and the Statement of Activities the governmental activities are presented using the economic resources measurement focus as defined in item a. below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

**Basis of Accounting**

In the government-wide Statement of Net Assets and Statement of Activities and the fund financial statements, governmental activities are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, net assets/fund equity, revenues and expenditures/expenses when they result from cash transactions with a provision for depreciation in the government-wide statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

If the District utilized the basis of accounting recognized as generally accepted, the governmental fund types would use the modified accrual basis of accounting.

Modified Accrual Basis - Revenues would be recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough hereafter to pay current liabilities.

Expenditures (including capital outlay) would be recognized when the related fund liability is incurred, except for general obligation bond principal and interest which would be reported when due.

**I.D. ASSETS, LIABILITIES AND EQUITY**

**Cash**

For the purpose of the balance sheet, "cash" includes all demand accounts held by the District.

**Accounts Receivable**

As a result of the cash basis of accounting, accounts receivable and other revenue related receivables are not reported in the financial statements.

**Capital Assets**

**Government-Wide Statements**

In the government-wide financial statements, capital assets are accounted for as assets in the Statement of Net Assets. All capital assets are valued at historical cost, or estimated historical cost if actual is unavailable. The District has determined that all assets with a cost of more than \$1,000 will be capitalized.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation.

**Fund Financial Statements**

**PITTSBURG COUNTY CONSERVATION DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
For the fiscal year ended June 30, 2013**

---

In the fund financial statements, capital assets acquired for use in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

If the Oklahoma Conservation Commission (OCC) gives the District funds to purchase an asset, even a portion of the funds, the OCC records the purchase as an asset on their books.

**Net Assets and Fund Balance**

In the government-wide financial statement, net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when limitations on their use change the nature of normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, laws or other governments, or are imposed by law through constitutional provisions or enabling legislation.

In the fund financial statements, governmental funds report the hierarchy of fund balances. The hierarchy is based primarily on the degree of spending constraints placed upon use of resources for specific purposes versus availability of appropriation. An important distinction that is made in reporting fund balance is between amounts that are considered *nonspendable* (i.e., fund balance associated with assets that are *not in spendable form*, such as inventories or prepaid items, long-term portions of loans and notes receivable, or items that are legally required to be maintained intact (such as the corpus of a permanent fund)) and those that are *spendable* (such as fund balance associated with cash, investments or receivables).

Amounts in the spendable fund balance category are further classified as restricted, committed, assigned or unassigned, as appropriate.

*Restricted* fund balance represents amounts that are constrained either externally by creditors (such as debt covenants), grantors, contributors or laws or regulations of other governments; or by law, through constitutional provisions or enabling legislation.

*Committed* fund balance represents amounts that are useable only for specific purposes by formal action of the government's highest level of decision-making authority. Such amounts are not subject to legal enforceability (like restricted amounts), but cannot be used for any other purpose unless the government removes or changes the limitation by taking action similar to that which imposed the commitment.

*Assigned* fund balance represents amounts that are intended to be used specific purposes, but are neither restricted nor committed. Intent is expressed by the governing body itself, or a subordinated high-level body or official who the governing body has delegated the authority to assign amounts to be used for specific purposes. Assigned fund balances includes all remaining spendable amounts (except negative balances) that are reported in governmental funds other than the general fund, that are neither restricted nor committed, and amounts in the general fund that intended to be used for specific purpose in accordance with the provisions of the standard.

*Unassigned* fund balance is the residual classification for the general fund. It represents the amounts that have not been assigned to other funds, and that have not been restricted, committed, or assigned to specific purposes within the general fund.

**1.E. REVENUE AND EXPENDITURES**

**Reimbursements**

The District receives reimbursements from the Oklahoma Conservation Commission (OCC). The funds for operation of the OCC and the conservation districts are appropriated annually by the legislature for the Commission to allocate to each district on a reimbursable basis. The funding is broken down into the following program areas:

- Administration
- Watershed Planning and Archeology
- Field Services
- Small Watersheds Flood Control Fund
- Abandoned Mine Land (AML) Reclamation Program
- Water Quality Management

**Program Revenues**

**PITTSBURG COUNTY CONSERVATION DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
For the fiscal year ended June 30, 2013**

---

In the Statement of Activities, revenues that are derived directly from each activity or from parties outside the District's reimbursements are reported as program revenues. The District has the following program revenues in each activity:

General Government: custom work and equipment rental.

All other governmental revenues are reported as general.

**Expenditures/Expenses**

In the government-wide financial statements, expenses are reported on the modified cash basis and are classified by function or activity for governmental activities.

In the fund financial statements, expenditures are classified by category.

**I.F. USE OF ESTIMATES**

The preparation of financial statements in conformity with the other comprehensive basis of accounting used by the District requires management to make estimates and assumptions that affect certain reported amounts and disclosures (such as estimated useful lives in determining depreciation expense); accordingly, actual results could differ from those estimates.

**I.G. DIFFERENCES FROM GAAP**

**Basis of Accounting**

As discussed in Note 1.C., the District reports both the government-wide financial statements and the fund financial statements on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

**NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**2.A. DEPOSITS AND INVESTMENTS LAWS AND REGULATIONS**

In accordance with O.S. Title 62, Section 516.3, all uninsured deposits of municipal funds and other political subdivisions in financial institutions must be secured with acceptable collateral valued at the lower of market or par. The District's deposits were properly insured by FDIC Insurance carried by depository banks.

**NOTE 3 - DETAIL NOTES - TRANSACTION CLASSES/ACCOUNTS**

**3.A. CASH**

**Custodial Credit Risk**

At June 30, 2013, the District held deposits of approximately \$10,850 at financial institutions. The District's cash deposits are entirely covered by the Federal Depository Insurance (FDIC) or direct obligation of the U.S. Government insured or collateralized with securities held by the District or by its agent in the District's name.

<u>Oklahoma Public Employees' Pension and Retirement System</u>	

The Oklahoma Conservation Commission, as the employer, participates in one statewide cost-sharing multi-employer defined benefit plan on behalf of the employees working at least 1,000 hours per month. Related Party Investments

As of June 30, 2013, the System held no related-party investments of the District.

**4.B. COMMITMENTS AND CONTINGENCIES**

Commitments

As a result of the District's use of the cash basis of accounting, accrued amounts related to compensated absences (annual leave and sick leave) earned but unpaid at year-end are not reflected in the financial statement. The compensated absence commitment at June 30, 2013, including employer related costs, is \$10,566.

Contingencies:

The District is not involved with any legal proceedings, which normally occur in the course of governmental operations at this time. Therefore, the financial statements do not include accruals or provisions for loss contingencies.

While legal proceedings cannot be foreseen, the District feels that any settlement or judgment not covered by insurance carried by the Commission would not have a material effect on the financial condition of the District.

**4.C. SUBSEQUENT EVENTS**

Management has evaluated subsequent events through September 1, 2013.
