INDEPENDENT AUDITOR'S REPORT

Board of Directors Rogers County Rural Water District No. 5 Claremore, Oklahoma

We have audited the accompanying financial statements of the business-type activities of the Rogers County Rural Water District No. 5 (the District), Claremore, Oklahoma, as of and for the year ended May 31, 2014, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the

reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the District as of May 31, 2014, and the respective changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 and 6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 12, 2014 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting or on compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

RURAL WATER DISTRICT NO. 5, ROGERS COUNTY

MANAGEMENT'S DISCUSSION AND ANALYSIS

MAY 31, 2014

Our discussion and analysis of the Rural Water District No. 5, Rogers County's financial performance provides an overview of the District's financial activities for the fiscal year ended May 31, 2014. Please read it in conjunction with the District's financial statements that begin on page 11.

FINANCIAL HIGHLIGHTS

- The District's total operating revenues exceeded total operating expenses by \$776,551. Overall, the District's cash and cash equivalents decreased by \$216,284 in the current fiscal year.
- The District decreased its total investments by \$434,650, and earned a total of \$9,453 in interest in 2013-14.
- Membership numbers increased in 2013-14, with total users reaching around 4,532 at year-end.

Using This Report

This report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34, as applicable to the District's basis of accounting.

Basis of Accounting

The District has elected to present its financial statements in the accrual basis of accounting. According to the accrual basis, revenues are recorded when earned and expenses are recognized when incurred. This policy is in accordance with generally accepted accounting principles.

The Financial Statements

One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of the year's activities?" The statement of Assets, Liabilities and Net Assets, the Statement of Revenues, Expenses and Changes in Net Assets, and the Statement of Cash Flows report information about the District and about its activities in a way that helps answer this question.

These three statements report the District's net assets and the changes in them. You can think of the District's net assets – the difference between assets and liabilities – as one way to

measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in water rates paid or charged and the condition of the District's water system, to assess the overall health of the District.

The District has only one type of fund or activity, which is defined as *Business-type activities*. This is considered a proprietary fund. This means the District charges a fee to customers to help it cover all or most of the cost of certain services it provides.

Fixed Assets

At May 31, 2014, the District had \$10,831,827 invested in fixed assets, net of depreciation, including land, buildings, the water system, vehicles and equipment. The District made some water system improvements and replacements in 2013-14, increasing total fixed assets by \$515,886.

Long-Term Debt

The District is indebted to Oklahoma Water Resources Board on two notes obtained for extensive water system extensions, and one note from Rural Development. The outstanding principal balance owed on the notes decreased from \$6,141,332 to \$5,857,417 during the 2013-14 fiscal year.

Economic Factors and Next Year's Budget and Rates

DEQ/EPA has new regulations for all Rural Water Districts. There will be continuing substantial costs associated with these test requirements, along with an increase in chemical costs.

The District's operating budget for fiscal year 2014-15 will remain much like previous years budgets.

The District will continue to consider rate increases to allow for needed improvements to existing infrastructure and the replacement of fixed assets in the future.

Contacting the District's Management

This report is designed to provide our customers and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact the District Office at P.O. Box 1980, Claremore, OK 74018 or call (918) 266-4634.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Rogers County Rural Water District No. 5 Claremore, Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the accompanying financial statements of the Rogers County Rural Water District No. 5 (the District), Claremore, Oklahoma, as of and for the year ended May 31, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated September 12, 2014.

Internal Control Over Financial Reporting

Management of the District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting in order to determine our auditing procedures that are appropriate for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting reporting.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial

statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

ROGERS COUNTY RURAL WATER DISTRICT NO. 5 Claremore, Oklahoma

Notes to the Financial Statements May 31, 2014

Note A – Significant Accounting Policies

Rogers County Rural Water District No. 5 (the "District") was created under the provisions of Title 82, Oklahoma Statutes, Sections 1324.1-1324.26 inclusive, for the purpose of providing water to the members of the District it serves. Membership in the water district consists of water users who have paid the required membership and connection fees. The District is exempt from federal and state income taxes.

Basis of Accounting

The accrual basis of accounting is followed for all accounts. Revenues are recorded when earned and accrued liabilities are recognized when incurred. This basis of accounting is in accordance with generally accepted accounting principles.

Subsequent Events

Management has evaluated subsequent events through September 12, 2014 which is the date the financial statements were available to be issued, and have determined that no additional information needs to be added to the financial statements.

Cash and equivalents

The District's cash accounts at May 31, 2014, are detailed as follows:

Accounts Receivable

Billings for accounts receivable at May 31, 2014 were \$168,160. No allowance for doubtful accounts was computed because the effect of bad debts on the financial statements is not considered material.

Prior Year Information

Prior year financial statement information is included in the other supplementary information section for comparative purposes only. No opinions are issued on these amounts, and are included as memorandum.

Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance, including workers compensation, for risk of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Fixed Assets

Fixed assets are valued at cost, depreciation is computed by use of the straight-line method. The estimated useful lives of these assets are as follows:

Land	n/a
Office furniture & fixtures	5 years
Equipment & tools	5 years
Transportation equipment	5 years
Water & sewer system	40 years
Buildings	25 years
Computer equipment	3 years

The fixed asset information for the District is shown below:

Note B – Long-Term Debt

Long-Term Debt consists of two notes to the Oklahoma Water Resources Board (OWRB) and one note to Rural Development.

The District has a promissory note in the amount of \$2,100,000 with the Oklahoma Water Resources Board (OWRB), dated 1996, for a period of 28 years. The District makes monthly deposits into the trust account at the Bank of New York. The trust account then makes the quarterly payments of principal and interest to the OWRB. The current interest rate on this note is 1.45%. The water system and future water revenues are used as security for this note.

The District has a promissory note in the amount of \$4,700,000 with the Oklahoma Water Resources Board (OWRB), dated 2007, for a period of 20 years. The District makes monthly deposits into the trust account at the Bank of New York. The trust account then makes the quarterly payments of principal and interest to the OWRB. The current interest rate on this note is 3.69%. The water system and future water revenues are used as security for this note.
