## **INDEPENDENT AUDITOR'S REPORT**

Board of Directors  
Rogers County Rural Water District No. 5  
Claremore, Oklahoma

### **Report on Financial Statements**

We have audited the accompanying financial statements of the business-type activities of the Rogers County Rural Water District No. 5 (the District), Claremore, Oklahoma, as of and for the year ended May 31, 2022 and the related notes to the financial statements which collectively comprise the District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the District as of May 31, 2022, and the respective changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

## **Other Matters**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 - 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The prior year "memorandum only" comparative information and the supplementary information on page 23 are presented for the purposes of additional analysis and are not a required part of the basic financial statements of the District. Such information has not been subject to the auditing procedures applied in our audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

## **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated June 23, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting or on compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## **RURAL WATER DISTRICT NO. 5, ROGERS COUNTY**

### **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**MAY 31, 2022**

Our discussion and analysis of the Rural Water District No. 5, Rogers County's financial performance provides an overview of the District's financial activities for the fiscal year ended May 31, 2022. Please read it in conjunction with the District's financial statements that begin on page 13.

#### **FINANCIAL HIGHLIGHTS**

- The District's total operating revenues exceeded total operating expenses by \$1,259,057. Overall, the District's cash and cash equivalents increased by \$167,194 in the current fiscal year.
- The District earned a total of \$2,653 in interest in 2021-22 on bank accounts and certificates of deposit.
- Membership numbers increased in 2021-22, with total users reaching around 5,240 at year-end.
- The District continued paying on their three outstanding notes.
- A rate increase, effective 7-1-19, was approved to keep up with the rising costs of water, chemicals, materials and supplies.

#### **Using This Report**

This report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34, as applicable to the District's basis of accounting.

#### **Basis of Accounting**

The District has elected to present its financial statements in the accrual basis of accounting. According to the accrual basis, revenues are recorded when earned and expenses are recognized when incurred. This policy is in accordance with generally accepted accounting principles.

#### **The Financial Statements**

One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows report information about the District and about its activities in a way that helps answer this question.

These three statements report the District’s net assets and the changes in them. You can think of the District’s net position – the difference between assets and liabilities – as one way to measure the District’s financial health or financial position. Over time, increases or decreases in the District’s net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in water rates paid or charged and the condition of the District’s water system, to assess the overall health of the District.

The District has only one type of fund or activity, which is defined as *Business-type activities*. This is considered a proprietary fund. This means the District charges a fee to customers to help it cover all or most of the cost of certain services it provides.

### **Net Position, and Changes in Net Position**

The District’s Net Position was higher in 2021-22, increasing from \$13,249,404 to \$14,823,466. Our analysis below focuses on the Net Position (Table 1) and Changes in Net Position (Table 2) of the District’s business-type activities.

**Table 1 – Net Position:**

The District's total revenues increased by 10.78 percent (\$346,280). The total cost of all services increased by 1.66 percent (\$32,461).

### **Capital Assets**

At May 31, 2022, the District had \$11,089,720 invested in capital assets, net of depreciation, including land, buildings, the water system, vehicles and equipment. The District made some water system improvements and replacements in 2021-22, which includes a three phase Highway 20 relocation project. The District also purchase three new trucks. The District's total capital assets increased by \$1,450,099 in 2021-22.

### **Long-Term Debt**

The District is indebted to Oklahoma Water Resources Board on one note obtained for extensive water system extensions, a note from CoBank, and a note from RCB Bank, both obtained to refinance and pay off existing debt. The outstanding principal balance owed on the notes decreased from \$2,355,572 to \$1,891,755 during the 2021-22 fiscal year.

### **Economic Factors and Next Year's Budget and Rates**

DEQ/EPA has new regulations for all Rural Water Districts. There will be continuing substantial costs associated with these test requirements, along with increasing chemical costs.

The District's operating budget for fiscal year 2022-23 will remain much like previous years budgets.

### **Contacting the District's Management**

This report is designed to provide our customers and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors  
Rogers County Rural Water District No. 5  
Claremore, Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the accompanying financial statements of the Rogers County Rural Water District No. 5 (the District), Claremore, Oklahoma, as of and for the year ended May 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated June 23, 2022.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting in order to determine our auditing procedures that are appropriate for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant

deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in the internal controls that we consider to be material weaknesses.

### Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Deposits and Investments

Oklahoma Statutes authorize the District to invest in certificates of deposit, repurchase agreements, passbooks, bankers’ acceptances, and other available bank investments provided that all deposits are fully covered by approved securities pledged to secure those funds. In addition, the District can invest in direct debt securities of the United States unless such an investment is expressly prohibited by law.

Bank deposits are held at several financial institutions and are carried at cost. For purposes of statements of cash flows, the District considers cash and all highly liquid investments with an initial maturity of three months or less to be cash equivalents.

**Custodial Credit Risk** - At May 31, 2022, the District held deposits of approximately \$5,517,931 at financial institutions. The District’s cash deposits, including interest-bearing certificates of deposit, are entirely covered by Federal Depository Insurance (FDIC) or direct obligation of the U.S. Government insured or collateralized with securities held by the District or by its agent in the District’s name.

**Investment Interest Rate Risk** - The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Note A – Significant Accounting Policies – cont’d**

Investment Credit Risk – The District has no policy that limits its investment choices other than the limitations of state law, as follows:

- a. Direct obligations of the U.S. Government, its agencies and instrumentalities to which the full faith and credit of the U.S. Government is pledged, or obligations to the payment of which the full faith and credit of the State is pledged.
- b. Certificates of deposits or savings accounts that are either insured or secured with acceptable collateral with in-state financial institutions, and fully insured certificates of deposit or savings accounts in out-of-state financial institutions.
- c. With certain limitation, negotiable certificates of deposit, prime bankers acceptances, prime commercial paper and repurchase agreements with certain limitations.
- d. County, municipal or school district tax supported debt obligations, bond or revenue anticipation notes, money judgments, or bond or revenue anticipation notes of public trusts whose beneficiary is a county, municipality or school district.
- e. Notes or bonds secured by mortgage or trust deed insured by the Federal Housing Administrator and debentures issued by the Federal Housing Administrator, and in obligations of the National Mortgage Association.
- f. Money market funds regulated by the SEC and in which investments consist of the investments mentioned in the previous paragraphs (a-d).

The amounts held at May 31, 2022 are as follows:

	Wtd. Avg Maturity	Credit Rating	Market	Cost
Money market/checking	N/A	AAAm	\$ 4,141,047	4,141,047

**Note A – Significant Accounting Policies – cont'd**

Fair Value of Financial Instruments – The District's financial instruments include cash and cash equivalents, accounts receivable, accounts payable and notes payable. The District's estimate of the fair value of all financial instruments does not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying statement of net position. The carrying amount of these financial instruments approximates fair values because of the short maturity of these instruments.

Memorandum Totals

Prior year "memorandum only" financial statement information is shown for comparative purposes only.

Accounts Receivable

Billings for accounts receivable at May 31, 2022 were \$214,214. No allowance for doubtful accounts was computed because the effect of bad debts on the financial statements is not considered material.

Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance, including workers compensation, for risk of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid debt instruments with a maturity of three months or less when purchased to be cash equivalents excluding restricted assets.
