INDEPENDENT AUDITOR'S REPORT

To the Governor of the State of Oklahoma
and the Secretary of the Environment of the State of Oklahoma

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Office of the Secretary of the Environment of the State of Oklahoma (the "OSE"), a division of the Oklahoma Water Resources Board, an agency of the State of Oklahoma, as of and for the year ended June 30, 2011, as listed in the accompanying table of contents. These financial statements are the responsibility of the OSE's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1, the financial statements of the Office of the Secretary of the Environment of the State of Oklahoma are intended to present the financial position and the changes in financial position, and cash flows, where applicable, of only that portion of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Oklahoma Water Resources Board that is attributable to the transactions of the division (i.e. OSE). They do not purport to, and do not, present fairly the financial position of the Oklahoma Water Resources Board nor the State of Oklahoma as of June 30, 2011, and the changes in their financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Office of the Secretary of the Environment as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 14, 2012, on our consideration of the OSE's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit

performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Edmond, Oklahoma

**OFFICE OF THE SECRETARY OF THE ENVIRONMENT
STATE OF OKLAHOMA**

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the Office of the Secretary of the Environment of the State of Oklahoma ("OSE") financial performance provides an overview of the Office of the Secretary and the Federal programs administered by OSE for the fiscal year ended June 30, 2011. Please read it in conjunction with the OSE's financial statements, which begin on page 4. The Office of the Secretary of the Environment (OSE) administers these funds in accordance with Federal and State statutes.

FINANCIAL HIGHLIGHTS

- The Office of the Secretary of the Environment received revenue of \$12,599,310 during SFY 2011. Of the total revenue:
 - \$8,481,011 consisted of Federal Funds from the U.S. Environmental Protection Agency
 - \$118,639 consisted of State Appropriations
 - \$38,352 consisted of Sponsorship/Registration Fees/Refunds
 - \$3,961,308 consisted of Environmental Remediation Settlement Proceeds
- \$8,254,333 of federal funds were provided to subrecipients to conduct activities set forth under Cooperative Agreements with the U.S. Environmental Protection Agency
- \$358,412 was expended for personnel and other activities associated with meeting the goals of the Clean Water Act and the overall conservation of Oklahoma's Environment.

ECONOMIC FACTORS – NEXT YEAR'S OUTLOOK

It is anticipated that the funding level in SFY 12 will remain level for existing programs. Estimations of possible increases are not known at this time. State appropriations are expected to decline for SFY 12 due to across the board budget reductions at the state level. The extent of the state budget cuts is unknown at this time.

CONTACTING THE AGENCY'S FINANCIAL MANAGEMENT

This financial report is designed to provide an overview of the OSE and the Federal Clean Water Act Programs that it administers. If you have questions regarding this report or need additional information, please contact the Office of the Secretary of the Environment at 3800 North Classen Blvd., Oklahoma City, OK 73118.

	<u>\$ 4,024,748</u>

The notes to the financial statements are an integral part of this statement.

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. REPORTING ENTITY

The Office of the Secretary of the Environment of the State of Oklahoma ("OSE") is a division within the Oklahoma Water Resources Board, an agency of the State of Oklahoma. Created in 1992, the mission of the OSE is to provide for the coordination of environmental activities across the State, between other states, and with the federal government. OSE serves as the coordinating agency and the central point of contact for activities relating to the Clean Water Act. OSE also serves as the focal point for the Governor's Environmental Sub-cabinet group which is composed of the directors of agencies involved in environmental programs. Rather than set policy for the State, OSE serves to facilitate interaction between groups to see that environmental policies which have an effect on the environment and consequently the environmental health of citizens are implemented in the most efficient and expeditious manner possible.

B. BASIC FINANCIAL STATEMENTS

The OSE follows the provisions of Governmental Accounting Standards Board's Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments* ("GASB 34"). GASB 34, among other provisions, establishes a basic financial reporting model and requires management's discussion and analysis.

C. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide statement of net assets and statement of activities present governmental and business-type activities on a full accrual basis using the "economic resources" measurement focus and display information about the reporting government as a whole. Fiduciary activities of a government are not included in these statements. The government-wide statement of activities reflects the cost of programs and functions reduced by directly associated revenues (charges for services, and operating and capital grants) to arrive at the net revenue or expense for each program and function. Net program revenue or expense for governmental and business activities are then adjusted for general revenues to determine the change in net assets for the year. The types of transactions reported as program revenues for the OSE are reported in three categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions.

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

C. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONT'D)

Certain eliminations have been made as prescribed by GASB 34 in regard to interfund activities, payables, and receivables. All internal balances in the statement of net assets have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the statement of activities, internal service funds have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated.

The accounts of the OSE are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, net assets, revenues, expenditures, or expenses, as appropriate. All governmental funds are accounted for on a "current financial resources" measurement focus. Proprietary funds are accounted for on an "economic resources" measurement focus. The OSE has no proprietary funds.

Individual funds meeting minimum criteria (based on the size of the fund in relation to the OSE as a whole, or its governmental or business activities) as well as other funds that the OSE believes are particularly important to financial statement users are considered "major funds" and are presented separately in the fund financial statements. The general fund is always a major fund. Funds not meeting the criteria for major funds are aggregated and presented in a single column of the fund financial statements.

The various funds are grouped in the accompanying basic financial statements by type as follows:

Governmental Funds

General Fund – The General Fund is the general operating fund of the OSE. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds – Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. These funds are grant funds from federal agencies which represent the activities of various noncapital and capital programs which are disbursed by the OSE and over which the OSE exercises fiscal and administrative control. The following are the OSE's special revenue funds reported in the governmental fund statements as major funds:

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

C. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONT'D)

1. *Water Pollution Control State and Interstate Program Support* fund is used to account for the administration of programs for the prevention, reduction, and elimination of water pollution including programs for the development and implementation of groundwater protection strategies. Financing is provided by the U.S. Environmental Protection Agency.
2. *Nonpoint Source Implementation* fund is used to account for the operations of the Nonpoint Source program. Financing is provided by the U.S. Environmental Protection Agency.
3. *Environmental Remediation* fund is used to account for the proceeds from environmental litigation settlements.

Governmental fund financial statements include a balance sheet and a statement of revenues, expenditures and changes in fund balances for all major governmental funds and non-major funds aggregated. A schedule is presented on the face of each statement presented to reconcile and explain the differences in fund balance as presented in these statements to the net assets presented for governmental activities in the government-wide financial statements.

D. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

In the government-wide Statement of Net Assets and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred.

Those revenues susceptible to accrual are grant revenues. Most other governmental revenues are not susceptible to accrual because generally they are not measurable until received in cash.

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

D. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING (CONT'D)

Agency and proprietary fund types utilize the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. The OSE currently does not have any agency or proprietary type funds.

The OSE follows the provisions of Governmental Accounting Standards Board's Statement No. 33, "*Accounting and Financial Reporting for Nonexchange Transactions*" (GASB 33).

GASB 33, among other provisions, clarifies the revenue recognition requirements for entities entering into nonexchange transactions. Nonexchange transactions involve the government giving or receiving value without directly receiving or giving equal value in return. Pursuant to GASB 33, the OSE records revenue on its voluntary nonexchange transactions when all applicable eligibility requirements, including expenditure-driven transactions, are met. Resources transmitted before the eligibility requirements have been met are reported as deferred revenues.

E. ASSETS, LIABILITIES AND EQUITY

Cash and Cash Equivalents - The OSE considers all highly liquid debt instruments purchased with an original maturity of three months or less and money market funds to be cash equivalents.

Receivables and Payables - Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "due to/from other funds" (i.e., the current portion of interfund loans).

Capital Assets - The accounting treatment over property, plant, and equipment is contingent upon whether they are reported in the government-wide or fund financial statements. The OSE's capitalization threshold is \$5,000.

Government-wide financial statements - In the government-wide financial statements, fixed assets are accounted for as capital assets. All fixed assets are valued at historical cost.

Depreciation of fixed assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is charged over the estimated useful lives using the straight-line method of depreciation.

<u>Class of asset</u>	<u>Estimated useful life</u>
Equipment	3 – 7 year

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

E. ASSETS, LIABILITIES AND EQUITY (CONT'D)

Capital Assets – (Cont'd)

Fund Financial Statements – In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

All equipment owned by the OSE as of June 30, 2011 was either fully depreciated or had a historical cost of less than \$5,000.

Equity Classifications, Government-wide Statements – Equity is classified as net assets and displayed in three components:

1. *Invested in capital assets, net of related debt* – Consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any notes or other borrowings attributable to those assets.
2. *Restricted net assets* – Consists of net assets with constraints placed on the use either by external groups, such as grantors or laws and regulations of other governments, or law through constitutional provisions or enabling legislation.
3. *Unrestricted net assets* – All other assets that do not meet the definition of "restricted", "invested in capital assets, net of related debt", or "invested in purchased goodwill".

Equity Classifications, Fund Financial Statements – Governmental fund equity is classified as fund balance. Beginning with fiscal year 2011, OSE implemented GASB Statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions". This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- A. *Non-spendable* – consists of balances that are either not in spendable form or legally or contractually required to be maintained intact. Balances most likely to be classified as nonspendable include inventory, prepaids, and interfund advances.

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

E. ASSETS, LIABILITIES AND EQUITY (CONT'D)

Equity Classifications, Fund Financial Statements - (Cont'd)

- B. *Restricted* – consists of balances that have constraints placed on the net asset use that are either 1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or 2) imposed by law through constitutional provisions or enabling legislation.
- C. *Committed* – consists of assets that can only be used for specific purposes as a result of constraints imposed by formal action of the individual government's highest level of decision-making authority. Committed amounts cannot be uncommitted except by removing the constraints through the same type of formal action.
- D. *Assigned* – consists of amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. Assignments of resources for a specific purpose that are not made by the government's highest level of decision-making authority are reported in this classification.
- E. *Unassigned* – consists of the residual resources that have not been restricted, committed or assigned to a specific purpose.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available (i.e. in the case of federal or private grant revenues), OSE considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, OSE considers the amount to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless OSE has provided otherwise in its commitment or assignment actions.

OSE establishes (and modifies or rescinds) fund balance commitments by adoption and amendment of the annual budget. Assigned fund balances are established by OSE management.

OSE's implementation of Statement 54 did not affect the classification or amounts of the June 30, 2010 fund balance.

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

F. REVENUES AND EXPENDITURES

Federal Grants – Federal grants are recognized as operating revenue upon payment of allowable grant expenditures eligible for reimbursement from the U.S. Environmental Protection Agency or other grantors and not covered by state matching or program income.

Transfers – Represent the transfer of cash balances between funds as part of re-allocating pooled cash balances attributable to each fund. For the purposes of the statement of activities, all interfund transactions have been eliminated.

G. COMPENSATED ABSENCES

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as a part of noncurrent liabilities in the government-wide statement of net assets. Vested or accumulated vacation leave for proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees. In accordance with the provisions of Governmental Accounting Standards Board Statement No. 16, *Accounting for Compensated Absences*, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits.

H. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. CASH AND INVESTMENTS

Cash of \$4,093,739 at June 30, 2011 was on deposit in the State Treasurer's office's internal investment pool – *OK Invest*.

Investment Interest Rate Risk – the OSE does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2011

2. CASH AND INVESTMENTS (CONT'D)

Investment Credit Risk – the OSE has no investment policy that limits its investment choices other than the limitation of state law imposed on the State Treasurer as follows:

- a. U.S. Treasury Bills, Notes and Bonds and U.S. Government Agency Securities with certain ratings and maturity limitations.
- b. Collateralized or insured certificates of deposit and other evidences of deposit issued by a bank, savings bank, savings and loan association or credit union located in the state.
- c. With certain ratings and maturity limitations, negotiable certificates of deposit, bankers acceptances and commercial paper.
- d. Obligations of state and local governments, including obligations of Oklahoma state public trusts, with certain ratings and maturity limitations.
- e. Collateralized repurchase agreements tri-party repurchase agreements.
- f. Money market mutual funds and short term bond funds regulated by the SEC and in which investments consist of obligations of the U.S. Government and its agencies and instrumentalities and repurchase agreements collateralized by obligations of the U.S. Government and its agencies and instrumentalities.

The State Treasurer has determined that current holdings in *OK Invest* should be limited to obligations of the United States government, its agencies and instrumentalities, tri-party repurchase agreements collateralized at 102% with the collateral held by a third party in the name of the Oklahoma State Treasurer and money market mutual funds which either directly or indirectly invest in U.S. Treasury and/or Agency securities and repurchase agreements related to such securities. *OK Invest* is not rated by a national rating agency. The overall weighted average maturity of *OK Invest* is less than 2 years. *OK Invest* is not insured or guaranteed by the State of Oklahoma, the Federal Deposit Insurance Corporation or any other government agency.

Concentration of Investment Credit Risk – the OSE places no limit on the amount it may invest in any one issuer. Limits are indirectly imposed through the Fund's participation in *OK Invest*. The OSE has the following concentration of credit risk: 100% or \$4,093,739 is invested in *OK Invest*.

3. PENSION PLAN

General Description

As provided by State law, the OSE participates in the Oklahoma Public Employees' Retirement System, a component unit of the State of Oklahoma. This System covers substantially all State and county employees and extends to local entities if they elect to participate. The system is a multi-employer, cost-sharing plan.

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2011

3. PENSION PLAN (CONT'D)

General Description (Cont'd)

The Retirement Plan, administered by the System, is a defined benefit, contributory plan that provides participants with retirement, death and disability benefits. Pension benefit provisions were established by statute, and benefit provisions are amended by the State Legislature. Cost-of-living adjustments are provided to plan members and beneficiaries at the discretion of the State Legislature.

A separately issued independent audit report for the plan may be obtained by writing:

Public Employees' Retirement
5801 N. Broadway Extension, Suite 400
Oklahoma City, OK 73118

Funding Policy

The contribution rates for the plan are established by the State Legislature and are not based on an actuarial calculation, which is performed to determine the adequacy of the rate.

The OSE makes contributions to the plan on behalf of its employees based on their gross salary earned (excluding overtime) for the fiscal year ended June 30. The contribution rates in effect for the year ended June 30, 2011, and the rates in subsequent periods are summarized as follows:

OSE	15.5%
OSE Employees	3.50%

In addition to the required employee participation described above, the Plan allows employees to make an irrevocable election to participate in the Plan's *Step-Up* election. The *Step-Up* election requires employees, who choose to do so, to make an additional annual contribution to the Plan equal to 2.91% of compensation. In exchange for the additional contribution, the employee's final benefit computation factor used in calculating the retirees benefit will be increased, or "stepped-up", from the standard 2% factor to 2.5%. The 2.91% factor is actuarially determined and could change in the future.

Contributions to the plan by the OSE for the years ended June 30, 2011, 2010, and 2009, were \$21,811, \$28,730, and \$29,412, respectively. These contributions represented 100% of the contributions required.

The employer contribution percentage began increasing by 1% annually on July 1, 2006, and will continue to increase each year thereafter, through the fiscal year ending June 30, 2012, when it reaches 16.5%.

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2011

4. COMPENSATED ABSENCES

Employees earn annual vacation leave at the rate of 10 hours per month for the first 5 years of service, 12 hours per month for service of 5 to 10 years, 13.33 hours per month for service of 10 to 20 years, and 16.67 hours per month for over 20 years of service. Unused annual leave may be accumulated to a maximum of 480 hours. All accrued annual leave is payable upon termination, resignation, retirement, or death. The governmental fund financial statements present the cost of accumulated vacation leave as a liability. The liability is valued based on current rate of pay. There is no liability for unpaid accumulated sick leave since the State does not have a policy to pay this amount when employees separate from service.

5. OPERATING LEASE

OSE is committed under an operating lease related to office equipment. Future minimum rental commitments attributable to continuing operations under this operating lease are as follows:

2012	3,498
2013	3,498
2014	3,206
TOTAL	<u>\$ 10,202</u>

Total rent expense incurred under operating leases attributable to continuing operations was approximately \$3,498 for the year ended June 30, 2011.

6. RISK MANAGEMENT

The OSE participates in the Risk Management Division of the Department of Central Services of the State of Oklahoma for its property insurance. Comprehensive general liability and personal injury liability are also covered by the fund.

7. CONTINGENCIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability to OSE. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although OSE expects such amounts, if any, to be immaterial.

8. RELATED PARTY

The OSE utilizes office space and certain other overhead costs provided to it by the Oklahoma Water Resources Board.

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO FINANCIAL STATEMENTS

Fiscal Year Ended June 30, 2011

9. MAJOR REVENUE SOURCES

A majority of the OSE's revenue is from grants from the U.S. Environmental Protection Agency. In the event these grants were discontinued or severely restricted, the activities of the OSE would be curtailed accordingly.

OFFICE OF THE SECRETARY OF THE ENVIRONMENT OF THE STATE OF OKLAHOMA

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Fiscal Year Ended June 30, 2011

The Budgetary Comparison Schedule – Budget to Actual (Non-GAAP Budgetary Basis) presents a comparison of the original and final legally adopted budget with actual data on a budgetary basis.

The Office of the Secretary of the Environment's budget is prepared on the cash basis utilizing encumbrance accounting. Encumbrances represent executed but unperformed purchase orders. In the accompanying financial statements, encumbrances are recorded as expenditures for budgetary purposes if expected to be presented for payment by November 15 following the end of the fiscal year and as reservations of fund balance for GAAP purposes. Since the budgetary basis differs from generally accepted accounting principles, budget and actual amounts presented in the Budgetary Comparison Schedule – Budget to Actual – General Fund are presented on the budgetary basis.

A reconciliation of revenues in excess of (less than) expenditures and other financing sources (uses) on a budgetary basis at June 30, 2011 to revenues in excess of (less than) expenditures and other financing sources (uses) presented in conformity with generally accounting principles is set forth as follows:

Budgetary basis fund balance, June 30, 2010,	\$	58,509
Excess of total sources over uses per		
Budgetary Basis		<u>42,933</u>
Budgetary basis fund balance, June 30, 2011		101,442
Basis differences:		
Less: Accrued expenditures		<u>(346)</u>
GAAP basis fund balance (deficit), June 30, 2011	\$	<u><u>101,096</u></u>

Special Revenue Funds prepare and use budgetary data but generally have contract periods which differ from the OSE's fiscal year. Accordingly, the budgetary comparison for these funds is not included as part of the budgetary comparison schedule.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT
AUDITING STANDARDS***

To the Governor of the State of Oklahoma
and the Secretary of the Environment of the State of Oklahoma

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Office of the Secretary of the Environment of the State of Oklahoma (the "OSE"), a division of the Oklahoma Water Resources Board, an agency of the State of Oklahoma, as of and for the year ended June 30, 2011, which collectively comprise the OSE's basic financial statements and have issued our report thereon dated May 14, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the OSE's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the OSE's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the OSE's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the OSE's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the OSE's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Oklahoma Secretary of the Environment, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Wedge Associates, P.C.
Edmond, Oklahoma

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT
COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND
ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB
CIRCULAR A-133**

To the Governor of the State of Oklahoma
and the Secretary of the Environment of the State of Oklahoma

Compliance

We have audited Office of the Secretary of the Environment (the "OSE"), a division of the Oklahoma Water Resources Board, an agency of the State of Oklahoma, compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of OSE's major federal programs for the year ended June 30, 2011. The OSE's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the OSE's management. Our responsibility is to express an opinion on the OSE's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the OSE's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the OSE's compliance with those requirements.

In our opinion, the OSE complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of the OSE is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the OSE's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the OSE's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the OSE as of and for the year ended June 30, 2011, which collectively comprise the OSE's basic financial statements and have issued our report thereon dated May 14, 2012, which contained unqualified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the OSE's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

This report is intended solely for the information and use of the Oklahoma Secretary of the Environment, management, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
