

INDEPENDENT ACCOUNTANT'S COMPILATION REPORT AND
REPORT ON APPLYING AGREED-UPON PROCEDURES

The Town Council
Town of Central High

We have compiled the accompanying schedule of changes in fund balances, schedule of revenue and expenditures compared to budget - general fund, schedule of revenue and expenditures compared to budget - street and alley fund of the Town of Central High for the year ended June 30, 2014. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statement is in accordance with accounting principles generally accepted in the United States of America.

The management of Town of Central High is responsible for the preparation and fair presentation of the financial statement in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the compilation in accordance with Statements of Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are not material modifications that should be made to the financial statements.

The accompanying statement was prepared for the purpose of presenting the changes in net assets of Town of Central High and is not intended to be a complete presentation of Town of Central High's assets and liabilities.

Management has elected to omit substantially all of the disclosures required by generally accepted accounting principles. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the Town's net assets, revenues, and expenses. Accordingly, these financial statements are not designed for those who are not informed about such matters.

Additionally, we have performed the procedures enumerated below, which were agreed to by the specified users of the report, as identified above, and as defined within the applicable state laws of the State of Oklahoma solely to assist Town of Central High in meeting its financial accountability requirements as prescribed by applicable Oklahoma

law and evaluating compliance with specified legal or contractual requirements. The agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and additional requirements prescribed in Oklahoma Statutes 60-180.1-3. The sufficiency of these procedures is solely the responsibility of those parties the Oklahoma Legislature and the Town Council. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings are as follows for the fiscal year ended June 30, 2014.

1. **Procedure Performed:** From the Town's records maintained on QuickBooks, we prepared a schedule of revenue, expenses, and changes in net assets and determined compliance with the applicable trust or other prohibitions for creating fund balance deficits.

Findings: There were no fund balance deficits.

2. **Procedure Performed:** We obtained the bank reconciliation and agreed amounts from the reconciliation to the General Ledger, the bank statement and a confirmation of the amounts on the bank statement. We reviewed reconciling items for reasonableness.

Findings: All reconciliations agreed to the supporting documents. There were no unusual reconciling items.

3. **Procedure Performed:** We determined if the bank balance was covered by FDIC insurance, and if any excess balance was covered by pledged collateral.

Findings: The cash balances were below the amount covered by FDIC insurance; therefore, no additional collateral was needed.

4. **Procedure Performed:** We determined that the use of material-restricted revenues and resources were in compliance with the restrictions.

Findings: The Town only had one restricted fund, which was the Street and Alley Fund and the revenues were used for the restricted purpose. The Town received a REAP grant in the General Fund and the amounts were used for the restricted purpose.

5. **Procedure Performed:** We determined compliance with requirements for separate funds.

Findings: The Town had a General Fund and a Street and Alley Fund. There are no other requirements.

6. **Procedure Performed:** We determined compliance with reserve account and debt service coverage requirements of bond indentures.

Findings: There are no reserve account requirements or debt service coverage requirements.

We were not engaged to, and did not, conduct an audit, the objective of which would be the expression of an opinion on the accounting records. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified users, as identified above, and is not intended to be and should not be used by anyone other than those specified parties.
