INDEPENDENT AUDITOR'S REPORT

The Honorable Board of Education
Tri County Technology Center No. 1
Bartlesville, Oklahoma 74006-6029

I have audited the accompanying financial statements of governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Tri County Technology Center No. 1, Bartlesville, Oklahoma (the "Center") as of and for the year ended June 30, 2011, which collectively comprise the Center's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Center's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall combined financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the government activities, the business type activities, each major fund, and the aggregate remaining fund information of the Center as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued a report dated March 7, 2012, on my consideration of the Center's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 7 through 16 and 43 through 44 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

My audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Tri County Technology Center No. 1 basic financial statements. The accompanying schedule of expenditures of federal awards is presented for additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*, and supporting schedules listed in the accompanying table of contents are presented for purpose of additional analysis, and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Jack H. Jenkins
Certified Public Accountant, P.C.

March 7, 2012

MANAGEMENT'S DISCUSSION AND ANALYSIS

TRI COUNTY TECHNOLOGY CENTER NO. 1

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2011

The discussion and analysis of *Tri County Technology Center No. 1*'s financial performance provides an overall review of the Technology Center's financial activities for the fiscal year ended June 30, 2011. The intent of this discussion and analysis is to look at the Technology Center's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the Technology Center's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2011 are as follows:

- In total, net assets increased \$408 thousand, which represents a 3 percent increase from fiscal year 2010. Net assets of governmental activities increased \$482 thousand, which represents a 4 percent increase from fiscal year 2010. Net assets of the business-type activity, which includes food service and childcare services, decreased \$74 thousand, which represents a 5 percent decrease from fiscal year 2010.
- **General** revenues accounted for \$9,193 thousand in revenue or 81 percent of all revenues. Program specific revenues, in the form of charges for services and sales, grants, and contributions, accounted for \$2,198 thousand or 19 percent of total revenues of \$11,390 thousand. Fiscal year 2011 total revenue increased from fiscal year 2010 by \$262 thousand.
- **Total assets** of governmental activities increased \$1,293 thousand, primarily due to construction in progress of the Events Center and purchase of machinery and equipment.
- The Technology Center had \$10,285 thousand in expenses related to governmental activities; only \$1,825 thousand of these expenses were offset by program specific charges for services and sales, grants, and contributions. General and building revenues (primarily property taxes, and state funding) of \$9,193 thousand were adequate to provide for these programs.

(continued)

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand *Tri County Technology Center No. 1* as a financial whole, or as an entire operating entity.

The statement of net assets and statement of activities provide information about the activities of the whole Technology Center, presenting both an aggregate view of the Technology Center's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the Technology Center's most significant funds with all other non-major funds presented in total in a single column. For *Tri County Technology Center*, the General Fund is the most significant.

Reporting the Technology Center as a Whole

Statement of Net Assets and Statement of Activities

While this report contains the large number of funds used by the Technology Center to provide programs and activities, the view of the Technology Center as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2011?" The statement of net assets and the statement of activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting system used by most private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash was received or paid.

These two statements report the Technology Center's net assets and changes in those assets. This change in net assets is important because it identifies whether the financial position of the Technology Center has improved or diminished, as a whole. The cause of this change may be the result of many factors, some financial, some not. Non-financial factors include the Technology Center's property tax base, current property tax laws in Oklahoma restricting revenue growth, facility conditions, required educational programs, and other factors.

TRI COUNTY TECHNOLOGY CENTER NO. 1

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2011

(continued)

Reporting the Technology Center as a Whole (continued)

Statement of Net Assets and Statement of Activities (continued)

In the statement of net assets and the statement of activities, the Technology Center is divided into two distinct kinds of activities:

Governmental Activities – Most of the Technology Center's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, and extracurricular activities.

Business-Type Activities – This service is provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. The Food Service and Child Care Service enterprise funds are reported as business activities.

Reporting the Technology Center's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the Technology Center's major funds. The Technology Center uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the Technology Center's most significant funds. The Technology Center's major governmental funds are the General Fund and Building Fund.

Governmental Funds

Most of the Technology Center's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year end for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide

TRI COUNTY TECHNOLOGY CENTER NO. 1

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2011

(continued)

Reporting the Technology Center's Most Significant Funds (continued)

Governmental Funds (continued)

a detailed short-term view of the Technology Center's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs. The relationship, or differences, between governmental activities reported in the statement of net assets and the statement of activities and the governmental funds is reconciled in the financial statements.

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

(continued)

Governmental Activities

The statement of activities reflects the cost of program services and the charges for services and sales, grants, and contributions offsetting those services. Table 3, for government activities, indicates the total cost of services and the net cost of services. It identifies the cost of these services supported by tax revenues and unrestricted state entitlements.

Table 3
Governmental Activities

	<u>Total Cost</u> <u>of Services</u> <u>2011</u>	<u>Total Cost</u> <u>of Services</u> <u>2010</u>	<u>Net Cost</u> <u>of Services</u> <u>2011</u>	<u>Net Cost</u> <u>of Services</u> <u>2010</u>
Instruction	\$ 3,898,826	3,539,186	2,335,914	1,982,896
Support services	4,826,008	3,134,832	4,564,341	2,887,046
Non-instructional	536,089	1,424,699	536,089	1,424,699
Other outlays	1,023,658	1,675,219	1,023,658	1,675,219
Total expenses	<u>\$ 10,284,581</u>	<u>9,773,936</u>	<u>8,460,002</u>	<u>7,969,860</u>

The dependence upon tax revenues for governmental activities is apparent. Over 60 percent of instruction activities are supported through taxes and other general revenues. For all governmental activities general revenues support is 82 percent. The community, as a whole, is the primary support for *Tri County Technology Center No. 1*'s students.

Business-Type Activity

The business-type activities of the Technology Center are the food service operation and childcare service. These programs had revenues and transfers of \$623 thousand and expenses of \$698 thousand for fiscal year 2011. Total revenues increased \$40 thousand and expenses increased \$46 thousand from the prior fiscal year.

The business activities receive no direct support from tax revenues.

TRI COUNTY TECHNOLOGY CENTER NO. 1

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2011

(continued)

The Technology Center's Funds

The Technology Center's governmental funds are accounted for using the modified accrual basis of accounting. Total governmental funds had revenues and other financing sources of \$10,767 thousand and expenditures and other financing uses of \$10,285 thousand.

General Fund Budgeting Highlights

The Technology Center's budget is prepared according to Oklahoma law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted funds were the General Fund and Building Fund.

During the course of fiscal 2011, the Technology Center amended its General Fund budget as needed. The Technology Center uses a site-based budget. The budgeting systems are designed to tightly control total site budgets, but provide flexibility for site management.

Final budgeted revenues and other financing sources for General and Building Funds, in the amount of \$14,779 thousand, were above original budgeted revenues and other financing sources, in the amount of \$14,034 thousand. Of this \$745 thousand difference, most was due to conservative tax estimates and additional fund balance carryover.

General fund expenditures and other financing uses were budgeted at \$8,847 thousand while actual expenditures were \$8,976 thousand. The difference comes from frugal spending from all staff to secure an increased fund balance at year-end. Building Fund expenditures and other financing uses were budgeted at \$3,003 thousand while actual expenditures were \$2,703 thousand. The major difference was due to a couple of projects being put off until July of the next year.

(continued)

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2011, the Technology Center had \$13,881 thousand invested in capital assets, \$12,282 thousand of which was in governmental activities.

Table 4 reflects fiscal year 2011 balances:

Table 4
Capital Assets at June 30

	Governmental Activities		Business-Type Activities		Total	
	2011	2010	2011	2010	2011	2010
Land	\$ 28,000	28,000	-	-	28,000	28,000
Construction in progress	996,622	-	-	-	996,622	-
Buildings	22,750,684	22,703,002	1,970,054	1,955,859	24,658,860	24,658,860
Improvements	1,789,121	1,577,471	176,713	176,713	1,965,834	1,754,184
Machinery and equipment	1,538,815	1,736,350	114,936	138,026	1,653,751	1,874,376
Less accumulated depreciation	(14,821,605)	(14,449,412)	(661,905)	(596,344)	(15,483,510)	(15,045,756)
Total net assets	\$ 12,281,637	11,595,411	1,599,798	1,674,254	13,881,435	13,269,664

The primary increase in capital assets for governmental activities is a result of the construction in progress of the Events Center and the land improvements of the Plaza.

TRI COUNTY TECHNOLOGY CENTER NO. 1

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2011
(continued)

Current Issues

Tri County Technology Center No. 1 continues to hold its own even with the uncertainty in State funding from year to year. The past year shows a slight increase due to the Technology Center's frugal spending and dedicated collection efforts. The Center has 15 strategic aims it measures each fiscal year. In FY 11, 14 of the strategic aim goals were met and/or exceeded. Some of the aims were a 96% employee retention rate; an average wage of full-time graduates of \$13.10; completion/retention rate of full-time students of 95%, and 11 national board certified teachers. The Technology Center focused on two major projects during FY 11, removal of the F building to construct the Plaza and a complete renovation of the auditorium to become the Events Center. The Technology Center also spent over \$125 thousand upgrading program equipment to ensure state of the art equipment for student learning.

Contacting the Technology Center's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the Technology Center's finances and to reflect the Technology Center's accountability for the monies it receives. Questions about this report or additional financial information needs should be directed to Kim Smith, CPA Chief Financial Officer and Director of Operations, *Tri County Technology Center No. 1*, 6101 SE Nowata Rd., Bartlesville, Oklahoma 74006.

NOTES TO THE FINANCIAL STATEMENTS

TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011

1. Summary of Significant Accounting Policies

A. Reporting Entity

Tri County Technology Center No. 1 (the "Center") is a corporate body for public purposes created under Title 70 of the Oklahoma statutes and, accordingly, is a separate entity for operating and financial reporting purposes. The Center is part of the public Center system of Oklahoma under the general direction and control of the State Board of Career and Technology Education and is financially dependent on State of Oklahoma support. The general operating authority for the public Center system is the Oklahoma Center Code contained in Title 70, Oklahoma Statutes. The governing body of the technology center is the Board of Education composed of elected members. The appointed superintendent is the executive officer of the Center.

The financial statements of Tri County Technology Center No. 1 comply with accounting principles generally accepted in the United States of America (GAAP). The Center's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements and the fund financial statement for the proprietary funds, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. For enterprise funds, GASB Statement No.'s 20 and 34 provide the Center the option of electing to apply FASB pronouncements issued after November 30, 1989. The Center has elected not to apply those pronouncements.

In evaluating how to define the Center, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion involves considering whether the activity is conducted within the geographic boundaries of the technology center and is generally available to its patrons. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the technology center is able to exercise

**TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011**

1. Summary of Significant Accounting Policies – cont'd

oversight responsibilities. Based upon the application of these criteria, a prior year component unit has now been omitted. Tri County Tech Endowment Fund, Inc. was formally presented as a blended component unit and is a non-profit corporation organized to make unsecured educational loans to deserving and needy students who could not otherwise obtain loans, to award scholarships and to assist and advance the establishment and maintenance of better facilities at Tri County Technology Center No.1. During fiscal year 2009, the Endowment Fund was moved under the auspices of the Bartlesville Community Foundation. See Note 10 for the amounts residing in the fund.

B. Fund Accounting

Government Wide Financial Statements

The statement of net assets and statement of activities display information about the overall financial position and activities of the Center as a whole with the exception of the fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business type activities are financed in whole or in part by fees charged to external parties for goods or services.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Center or meets the following criteria:

1. Total assets, liabilities, revenues, or expenditures of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds or that category or type; and
2. Total assets, liabilities, revenues, or expenditures of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

**TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011**

1. **Summary of Significant Accounting Policies – cont'd**

Governmental Fund Types

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds).

General Fund - The general fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenue sources include state and local property taxes and state funding under the Foundation and Incentive Aid Program. Expenditures include all costs associated with the daily operations of the Centers except for programs funded for building repairs and maintenance, Center construction and debt service on bonds and other long-term debt. The general fund includes federal and state restricted monies that must be expended for specific programs.

Special Revenue Fund - The special revenue fund is the Center's building fund.

Building Fund - The building fund consists of monies derived property taxes levied for the purpose of erecting, remodeling, repairing, or maintaining Center buildings and for purchasing furniture, equipment and computer software to be used on or for the Technology Center property, for paying energy and utility costs, for purchasing telecommunications services, for paying fire and casualty insurance premiums for Center facilities, for purchasing security systems, and for paying salaries of security personnel.

Debt Service Fund - The debt service fund is the Center's sinking fund and is used to account for the accumulation of financial resources for the payment of general long-term (including judgments) debt principal, interest and related costs. The primary revenue sources are local property taxes levied specifically for debt service and interest earnings from temporary investments. The Center did not maintain a debt service fund in 2010-11.

Capital Projects Funds - The capital projects fund is the Center's bond fund and is used to account for the proceeds of bond sales to be used exclusively for acquiring Center sites, constructing and equipping new Center facilities, renovating existing facilities, and acquiring transportation equipment.

**TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011**

1. **Summary of Significant Accounting Policies – cont'd**

Proprietary Fund Types

The Center's Proprietary Funds, or Enterprise Funds, are used to account for business -like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. The reporting entity includes two activities reported in the Enterprise Fund. They are Food Services and Child Care Services.

Fiduciary Fund Types

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Center. When these assets are held under a trust agreement, either a nonexpendable trust fund or an expendable trust fund is used depending on whether there is an obligation to maintain trust principal. Agency funds are used to account for assets that the Center holds on behalf of others as their agent and do not involve measurement of results of operations.

Agency Fund - The agency fund is the Center activities fund which is used to account for monies collected principally through fundraising efforts of the student and Center-sponsored groups. The administration is responsible, under the authority of the Board, in collecting, disbursing and accounting for these activity funds.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government -wide Statement of Net Assets and the Statement of Activities, both governmental and 'business-like activities are presented using the economic resources measurement focus as defined in item b. below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

**TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011**

1. Summary of Significant Accounting Policies – cont'd

a. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

b. The proprietary fund utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or non-current) associated with their activities are reported. Proprietary fund equity is classified as net assets.

c. Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

In the government -wide Statement of Net Assets and Statement of Activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds and fiduciary agency funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011

2. **Basis of Accounting**

Assets, Liabilities and Fund Equity

Cash and Investments - For the purpose of the Statement of Net Assets, "cash, including time deposits" include all demand, savings accounts, and certificates of deposits of the Center. For the purpose of the proprietary fund Statement of Cash Flows, "cash and cash equivalents" include all demand and savings accounts, and certificates of deposit or short-term investments with an original maturity of three months or less. Investments are carried at fair value. Fair value is based on quoted market price.

Receivables - In the government -wide statements, receivables consist of all revenues earned at year-end and not yet received. All accounts receivable are considered collectable at year end. Major receivable balances for the governmental activities include property taxes, grants, and contracts. Business -type activities had no receivables.

Inventories - The Food Service inventory consists of food held for resale. All inventories are at the lower of cost or market. The cost of other consumable materials and supplies on hand are immaterial to the financial statements, and the Center has therefore chosen to report these items as expenditures at the time of purchase.

Fixed Assets - The accounting treatment over property, plant, and equipment (fixed assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government -wide or fund financial statements.

Government-wide Statements

In the government -wide financial statements, fixed assets are accounted for as capital assets. All fixed assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets which are recorded at their estimated fair value at the date of donation. If the original purchase price or construction cost is unknown, a professional appraisal may be necessary. Estimated historical cost was used to report the majority of the buildings and infrastructures. Historical cost was used to report land, furniture and equipment.

**TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011**

2. Basis of Accounting – cont'd

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statement of Activities with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of assets is as follows:

• Buildings and infrastructure	40 years
• Machinery and Equipment	3 – 20 years
• Furniture	10 years
• Vehicles	5 – 7 years

In the government-wide financial statements all machinery, equipment, furniture and automobiles costing \$5,000 or more has been capitalized and depreciated over the estimated useful life, Improvements will be depreciated over the remaining life of the asset. Land will be recorded as a capital asset regardless of the cost or value.

Fund Financial Statements

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition, Fixed assets used in proprietary fund operations are accounted for the same as in the government -wide statements,

Restricted Assets - The Center has no restricted assets.

Long-Term Debt - The Center has no long-term debt.

Compensated Absences - A twelve-month full time employee (working 20 or more hours per week) earns vacation ranging from 10 to 20 working days per year depending on the individual's years of service. Vacation may be accumulated to a total of not to exceed two times the maximum number of days earned annually. Sick leave is earned at a rate of one day per month for all Center employees up to a maximum of 70 days. Upon retirement or termination, employees are paid for 100 per cent of unused vacation leave at the employee's current salary rate. Unused sick leave is paid at a rate of \$25 per day if the employee has been employed at least four years with Tri County Technology Center No.1. Compensated absences liability at June 30, 2011 totaled \$185,698.

TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011

2. **Basis of Accounting – cont'd**

Equity Classification

Government -wide Financial Statements

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvements of those assets.
- b. Restricted net assets - Consists of net assets with constraints placed on the use whether by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets - All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Financial Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated. Proprietary fund equity is classified the same as in the government –wide statements.

Revenues Expenditures and Expenses

Property Tax Revenues - the Center is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within the Center's service area of Washington, Osage and Nowata counties. The county assessor, upon receipt of the certification of tax levies from the counties' excise boards, extends the tax levies on the tax roll for submission to the county treasurers prior to October 1. The county treasurers must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes is due prior to January 1. The second half is due prior to April.

TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011

2. **Basis of Accounting – cont'd**

If the first payment is not made timely, the entire tax becomes due and payable on January 2. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owed. If at the end of two years the owner has not done so, the purchaser is issued a deed to the property.

State Revenues - Revenues from state sources for current operations are primarily governed by the state aid formula under the provisions of Article XVUI, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of state aid funds to school districts based on information accumulated from the districts.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The Center receives revenue from the State to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Technology Education requires that categorical education program revenues be accounted for in the General Fund.

Federal - Revenue from Federal sources is money originating from the Federal government and made available to the Center either as direct grants or under various programs passed through the State Department of Education.

The Federal government also makes payments to technology centers whose revenues are adversely affected by the presence of Federal activities. Although these payments are made in consideration of lost property tax revenue, the Oklahoma State Department of Education advocates classifying such amounts as revenue from Federal sources.

Operating Revenues and Expenses - Operating revenues and expenses for proprietary funds are those that result from providing service and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, non-capital financing, or investing activities.

TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011

3. Cash and Investments

The carrying amount of the Center's deposits was \$4,934,382 and the bank balance was \$4,934,382 at June 30, 2011. Of the bank balance, \$250,000 was insured by federal depository insurance and the balance was collateralized by the pledging financial institution as required by Oklahoma State Law.

The Center's investment policies are governed by state statute. Permissible investments include direct obligations of the United States Government and Agencies; certificates of deposit of savings and loan associations, and bank and trust companies; and savings accounts or savings certificates of savings and loan associations, and trust companies. Collateral is required for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance.

The Center had no investments at June 30, 2011.

TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011

4. Capital Assets

Capital asset activity for the year ended June 30, 2011, was as follows:

Category	Balance 7/1/2010	Additions	Deletions	Balance 6/30/2011
Land	\$ 28,000			28,000

TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011

5. Interfund Transactions

Operating Transactions

Inter-fund transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund, or expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the fund that is reimbursed. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other inter-fund transfers are reported as operating transfers.

	Operating Transfers In	Operating Transfers Out
Food Service Fund	\$ 82,094	
Child Care Fund	167,887	
General Fund		249,981
Totals	\$ 249,981	249,981

6. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

7. Employee Retirement System

Plan Description

The Center participates in the state-administered Oklahoma Teachers' Retirement Plan, a cost-sharing, multiple-employer defined benefit public employee retirement system (PERS), which is administered by the board of trustees of the Oklahoma Teachers' Retirement System (the "System"). The System provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Title 70 Section 17 of the Oklahoma Statutes establishes benefit provisions and may be

**TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011**

7. Employee Retirement System – cont'd

amended only through legislative action. The Oklahoma Teachers' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to Teachers' Retirement System of Oklahoma, P.O. Box 53524, Oklahoma City, OK 73152 or by calling (405) 521-2387.

Basis of Accounting

The System's financial statements are prepared using the cash basis of accounting, except for accruals of interest income. Plan member contributions are recognized in the period in which the contributions are made. Benefits and refunds are recognized when paid. The pension benefit obligation is a standardized disclosure measure of the present value of pension benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee services performed to date and is adjusted for the effect of projected salary increases. There are no actuarial valuations performed on individual Technology Centers. The System has an under-funded pension benefit obligation as determined as part of the latest actuarial valuation.

Funding Policy

The Center, the State of Oklahoma, and the participating employee make contributions. The contribution rates for the Center and its employees are established by and may be amended by Oklahoma Statutes. The rates are not actuarially determined. The rates are applied to the employee's earnings plus employer-paid fringe benefits. The required contribution for the participating members is 7.0% of compensation. Beginning, July 1, 2010, the Center and State were required to contribute 14.5% of applicable compensation. Contributions received by the System are from a percentage of its revenues from sales taxes, use taxes, corporate income taxes and individual income taxes. The Center contributed 9.5% beginning January 1, 2010 and the State of Oklahoma contributed the remaining 5.0% during the year. The Center is allowed by the Oklahoma Teacher's Retirement System to make the required contributions on behalf of the participating members. In addition, the Center is required to match the retirement paid on salaries that are funded with federal funds.

Annual Pension Cost

The Center's portion of the total contributions for 2011, 2010 and 2009 were \$458,642, \$438,323, and \$201,620 respectively.

**TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011**

7. Employee Retirement System – cont'd

Schedule of Funding Progress (dollars in millions) (unaudited)

Actuarial Valuation Date	Actuarial Value of Assets (AVA) (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded Actuarial Accrued Liability (UAAL) (b-a)	Funded Ratio (a/b)	Annual Covered Payroll (c)	UAAL as % of Covered Payroll (b-a)/(c)
June 30, 2005	\$ 6,952.7	14,052.4	7,099.7	49.5%	3,175.2	223.6%
June 30, 2006	7,470.4	15,143.4	7,672.9	49.3%	3,354.9	228.7%
June 30, 2007	8,421.9	16,024.4	7,602.5	52.6%	3,598.9	211.2%
June 30, 2008	9,256.8	18,346.9	9,090.1	50.5%	3,751.4	242.3%
June 30, 2009	9,439.0	18,950.9	9,512.0	49.8%	3,807.9	249.8%
June 30, 2010	\$ 9,566.7	19,980.6	10,414.0	47.9%	3,854.8	270.2%

The employer contribution rates are established by the Oklahoma Legislature and are less than the annual required contribution, which is performed to determine the adequacy of such contribution rates.

8. Budgets and Budgetary Accounting

Tri County Technology Center No. 1 operates under the Alternative School District Budget Act provided by Oklahoma State Statutes. In accordance with this act, the proposed budget plan is prepared and presented at a public hearing which must be held within forty-five (45) days preceding the beginning of the budget year.

The school board approves the budget within the thirty (30) day period preceding the beginning of the fiscal year. The adopted budget must be in effect no later than the first day of the technology center's fiscal year.

The Board of Education legally adopts a budget for the General Fund and Building Fund.

An amended budget is required when ad valorem taxes have been certified by the County Excise Board. Additional amendments can be made throughout the fiscal year.

TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011

9. Unemployment Compensation

The Center participates in the Oklahoma Public Schools Unemployment Compensation Account under the sponsorship of the Oklahoma State School Boards Association and the cooperative council for Oklahoma School Administration. The account was established to let technology centers self-insure unemployment benefits for school employees. The funds are held in the name of each center as reserves to pay unemployment claims. Each technology center is individually liable for the portion of the benefits paid from the fund attributable to wages paid by the center in the same manner as if no group account had been established. The reserve funds may be withdrawn from the account upon request of the center. At June 30, 2011, the Tri County Technology Center had reserves on deposit with the Oklahoma Public Schools Unemployment Compensation Account totaling \$11,913.

10. Endowment Fund

During fiscal year 2009, all funds from the Tri County Tech Endowment Fund, Inc. were transferred to the Bartlesville Community Foundation (BCF). Control of the operating funds for the Tri County Tech Endowment Fund, Inc. were transferred back to Tri County Technology Center, but the endowment fund remains with the Bartlesville Community Foundation. For fiscal year end December 31, 2011, the Tri County Tech Endowment Fund, Inc. will be audited separately from the Bartlesville Community Foundation and a separate audit report will be issued. As of June 30, 2011, the balance for the Endowment Funds held with BCF was \$196,816.

11. Risk Management

Governments face the risk of possible loss due to theft of, damage to, or destruction of assets, job-related illnesses or injuries to employees, torts, and acts of God. Tri County Technology Center No. 1 has elected to manage these risks by purchasing insurance coverage. In the past three years, settlements have not exceeded this coverage.

12. Subsequent Event

Management has evaluated and disclosed subsequent events up to and including March 5, 2011, the date on which the financial statements were available for issuance.

**TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS – REGULATORY BASIS
FOR THE YEAR ENDED JUNE 30, 2011**

The other supplemental schedules of the Tri County Technology Center No. 1 (the "Center") have been prepared on a regulatory basis of accounting. Accordingly, the accompanying financial statements are not intended to present financial position and results of operations in conformity with accounting principles generally accepted in the United States of America. The accounting policies are prescribed by the Oklahoma Department of Education and conform to the system of accounting authorized by the State of Oklahoma. The following is a summary of the more significant accounting policies.

Fund Accounting

The schedules use funds and account groups to present the Center's financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain district functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

Governmental Fund Types

Governmental Funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds).

Account Groups

Account groups are not funds and consist of self-balancing set of accounts used only to establish accounting control over long-term debt and general fixed assets not accounted for in proprietary funds.

**TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS – REGULATORY BASIS
FOR THE YEAR ENDED JUNE 30, 2011**

General Long-Term Debt Account Group - This account group was established to account for all long-term debt of the Center, which is offset by the amount available in the debt service fund and the amount to be provided in future years to complete retirement of the debt principal. It is also used to account for liabilities for compensated absences and early retirement incentives which are to be paid from funds provided in future years.

General Fixed Asset Account Group - This account group is used to account for property, plant and equipment of the Center. Land, buildings, nonstructural improvements, and all other physical assets in all funds are considered expenditures in the year of acquisition and are not recorded as assets for financial statement purposes. The Center does not present the General Fixed Asset Account Group.

Memorandum Only - Total Column

The total only column on the financial statements is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position or results of operations in conformity with accounting principles generally accepted in the United States of America. Neither is such data comparable to a consolidation. Inter-fund eliminations have not been made in the aggregation of this data.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental and expendable trust funds are presented using the Regulatory basis of accounting. Revenues are recognized when they are received rather than earned. Under the Statutory basis of accounting, expenditures are generally recognized when encumbered/reserved rather than at the time the related fund liability is incurred. Fiduciary type funds are accounted for using the cash basis of accounting. These practices differ from generally accepted accounting principles.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting - under which purchase orders and other commitments of resources are recorded as expenditures of the applicable fund - is utilized in all governmental funds of the Center. Appropriations not used or encumbered, lapse at the end of the year.

**TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
NOTES TO THE FINANCIAL STATEMENTS – REGULATORY BASIS
FOR THE YEAR ENDED JUNE 30, 2011**

Assets Liabilities and Fund Equity

Cash and Cash Equivalents - the Center considers all cash on hand, demand deposits and highly liquid investments, with an original maturity of three months or less when purchased, to be cash and cash equivalents.

Investments - Investments consist of certificates of deposits issued by banks with maturities greater than three months when purchased. All investments are recorded at cost, which approximates market value.

Inventories - The value of consumable inventories at June 30, 2011, are not presented in accordance with the Regulatory basis of accounting.

Fixed Assets and Property Plant and Equipment - The General Fixed Asset Account Group is not presented.

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER
FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Honorable Board of Education
Tri County Technology Center No. 1
Bartlesville, Oklahoma 74006-6029

I have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Tri County Technology Center No. 1, Bartlesville, Oklahoma, as of and for the year ended June 30, 2011, and have issued my report thereon, dated March 7, 2012. I conducted my audit in accordance with generally accepted auditing standards accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the Center's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Center's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. There can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Center's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information of the Board of Education, management, Oklahoma State Auditor and Inspector's Office and the Oklahoma State Department of Career and Technology Education, and is not intended to be and should not be used by anyone other than these specified parties.

Jack H. Jenkins
Certified Public Accountant, P.C.

March 7, 2012

Jack H. Jenkins, CPA *A Professional Corporation*

**REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT
AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

The Honorable Board of Education
Tri County Technology Center No. 1
Bartlesville, Oklahoma 74006-6029

Compliance

I have audited the compliance of Tri County Technology Center No. 1, Bartlesville, Oklahoma, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2011. The Center's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Center's management. My responsibility is to express an opinion on the Center's compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Center's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination on the Center's compliance with those requirements.

In my opinion, Tri County Technology Center No. 1, Bartlesville, Oklahoma complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2011. The results of my auditing procedures disclosed no instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133.

Internal Control Over Compliance

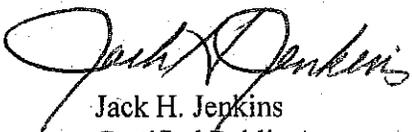

The management of Tri County Technology Center No. 1, Bartlesville, Oklahoma is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing my audit, I considered the Center's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Center's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above.

This report is intended solely for the information of the board of education and management, all applicable federal and state agencies, and those other Governments from which federal financial assistance was received and is not intended to be, and should not be, used by anyone other than these specified parties.

Jack H. Jenkins
Certified Public Accountant, P.C.

TRI COUNTY TECHNOLOGY CENTER NO. 1, WASHINGTON COUNTY
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
JULY 1, 2010 TO JUNE 30, 2011

Summary of Auditor's Results

1. An unqualified opinion was issued on the financial statements in conformity with accounting principals generally accepted in the United States of America.
2. The audit disclosed no deficiencies in the internal controls of the financial statements that were considered material weaknesses.
3. The audit disclosed no deficiencies in the internal controls over major federal programs that were considered material weaknesses.
4. An unqualified opinion report was issued on the compliance of major programs.
5. The audit disclosed no audit findings and questioned costs, which are required to be reported under OMB Circular A-133 § 510(a).
5. The programs tested as major federal programs were: the Pell Grant program, the TANF program and the Carl Perkins program.
7. The dollar threshold used to determine between Type A and Type B programs was \$300,000.
8. The auditee was not determined to be a low-risk auditee.
