Independent Auditor's Report

Board of Directors
Wagoner County Rural Water District No. 4
Broken Arrow, Oklahoma

We have audited the accompanying financial statements of the business-type activities of the Wagoner County Rural Water District No. 4 (the District), Broken Arrow, Oklahoma, as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the District as of June 30, 2011, and the respective changes in financial position thereof for the year then ended in conformity with the basis of accounting generally accepted in the United States.

The Management Discussion and Analysis on pages 5-6 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued a report dated September 12, 2011 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole on the basis of accounting generally accepted in the United States.

RURAL WATER DISTRICT NO. 4, WAGONER COUNTY

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2011

Our discussion and analysis of the Rural Water District No. 4, Wagoner County's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2011. Please read it in conjunction with the District's financial statements that begin on page 13.

FINANCIAL HIGHLIGHTS

- The District's total operating revenues exceeded total operating expenses by \$1,696,728.
- The District had total investments of \$672,475 and earned a total of \$33,403 in interest in 2010-11. Interest rates continue to be minimal due to economic conditions.
- Membership numbers continued to increase in 2010, with total users exceeding 9,800 at fiscal year-end. Substantial growth of the District is projected to continue.
- A rate increase was approved in 2011, effective 9-1-11, to keep up with the rising costs of water, chemicals, materials and supplies.
- The District received a portion of the \$6,200,000 OWRB loan proceeds for the district wide improvement project, and received \$200,000 principal forgiveness from the federal government stimulus program.
- The District was able to pay off another of their long-term notes in 2010-11.

Using This Report

This report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34, as applicable to the District's basis of accounting.

Basis of Accounting

The District has elected to present its financial statements in the accrual basis of accounting. According to the accrual basis, revenues are recorded when earned and expenses are recognized when incurred. This policy is in accordance with generally accepted accounting principles.

The Financial Statements

One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of the year's activities?" The statement of Assets, Liabilities and Net Assets, the Statement of Revenues, Expenses and Changes in Net Assets,

and the Statement of Cash Flows report information about the District and about its activities in a way that helps answer this question.

These three statements report the District's net assets and the changes in them. You can think of the District's net assets – the difference between assets and liabilities – as one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in water rates paid or charged and the condition of the District's water system, to assess the overall health of the District.

The District has only one type of fund or activity, which is defined as *Business-type activities*. This is considered a proprietary fund. This means the District charges a fee to customers to help it cover all or most of the cost of certain services it provides.

Fixed Assets

At June 30, 2011 the District had \$22,766,464 invested in fixed assets, net of depreciation, including land, buildings, the water system, vehicles and equipment. The District purchased several fixed assets in 2010-11, and increased construction in progress, increasing total fixed assets by \$3,501,976.

Long-Term Debt

The District is indebted to Oklahoma Water Resources Board on five notes obtained for extensive water and sewer systems and extensions, one note from Rural Development, and one other smaller note. The outstanding principal balance owed on the notes increased from \$12,794,580 to \$15,101,312 during the 2010-11 fiscal year, due to receipt of OWRB loan proceeds in the amount of \$3,244,477 during the 2010-11 fiscal year.

Economic Factors and Next Year's Budget and Rates

The District will continue to accelerate payments on their long-term debt when possible.

The District's operating budget for fiscal year 2011-12 will remain much like previous years budgets.

Contacting the District's Management

This report is designed to provide our customers and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact the District Office at 9816 S. 239th East Ave., Broken Arrow, OK 74014 or call (918) 258-2331.

**Report On Compliance And On Internal Control Over
Financial Reporting Based On An Audit Of Financial Statements
Performed In Accordance With Government Auditing Standards**

Board of Directors
Wagoner County Rural Water District No. 4
Broken Arrow, Oklahoma

We have audited the financial statements of the Wagoner County Rural Water District No. 4 (the District), Broken Arrow, Oklahoma, as of and for the year ended June 30, 2011 and have issued our report thereon dated September 12, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under auditing standards generally accepted in the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. A material

weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operations that we considered to be material weaknesses.

This report is intended solely for the information of management and the Board of Directors, and is not intended to be, and should not be, used by anyone other than these specified parties.

**Report On Compliance With Requirements Applicable To Each
Major Program And Internal Control Over Compliance In
Accordance With OMB Circular A-133**

Board of Directors
Wagoner County Rural Water District No. 4
Broken Arrow, Oklahoma

Compliance

We have audited the compliance of Wagoner County Rural Water District No. 4, (the District) Broken Arrow, Oklahoma, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2011. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material noncompliance with a type of compliance requirement of a federal program will not be detected or prevented by the entity's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information of the Board of Directors, management and the Federal Clearinghouse, and is not intended to be, and should not be, used by anyone other than these specified parties.

Prior Year Information

Prior year financial statement information is included in the other supplementary information section for comparative purposes only. No opinions are issued on these amounts, and are included as memorandum.

Retirement and Deferred Compensation Plans

The District has no formal retirement plan, but does offer employees a qualified Section 457 Deferred Compensation Plan. The District matches employee's contributions up to \$200 per month. There are no post-employment benefits provided.

Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance, including workers compensation, for risk of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.
