CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT

The Honorable Board of Education
Wynnewood Independent School District #38
Garvin County, Oklahoma

Board Members:

We have audited the accompanying fund type and account group financial statements, including budget and actual, of the **Wynnewood Independent School District #38**, Garvin County, Oklahoma, as of and for the year ended June 30, 2011, which collectively comprise the District's regulatory financial statements, as listed in the table of contents as combined financial statements. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As described more fully in Note 1, **Wynnewood Independent School District #38**, Garvin County, has prepared these financial statements using accounting practices prescribed or permitted by the Oklahoma State Department of Education which practices differ from accounting principles generally accepted in the United States of America. The effect on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America although not reasonably determinable are presumed to be material.

In addition, the District has not maintained the cost of fixed assets purchased in previous years and thus does not know the amount that should be recorded in the General Fixed Asset Account Group. Therefore, the General Fixed Asset Account Group has not been presented. This information is required under the regulatory presentation prescribed by the Oklahoma State Department of Education.

In our opinion, because of the effects of the matters discussed in the third paragraph, the financial statements referred to above do not present fairly in conformity with accounting principles generally accepted in the United States of America, the financial position of **Wynnewood Independent School District #38**, Garvin County, Oklahoma, as of June 30, 2011, or the changes in its financial position for the year then ended.

In our opinion, except for the omission of the General Fixed Asset Account Group results in an incomplete presentation as explained in the fourth paragraph, the financial statements referred to in the first paragraph present fairly, in all material respects, the assets, liabilities, and equity arising from regulatory basis transactions of each fund type and account group of **Wynnewood School District, No 38**, Garvin County, Oklahoma as of June 30, 2011, and the revenues collected, expenditures paid/expenses, and budgetary results for the year then ended on the regulatory basis of accounting described in Note 1.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 10, 2012, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was conducted for the purpose of forming 38, Garvin County, Oklahoma, as a whole. The combining fund statements and other schedules as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the combined financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the *Oklahoma Department of Education and/or the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments and Non-Profit Organizations* and is also not a required part of the combined financial statements of **Wynnewood Independent School District #38**, Garvin County, Oklahoma. The combining fund statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the combined financial statements as a whole on the regulatory basis of accounting described in Note 1.

Angel, Johnston & Blessingame, P.C.

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies

The basic financial statements of the Wynnewood Public Schools Independent District No. 38, Garvin County, Oklahoma (the "District") have been prepared in conformity with an other comprehensive basis of accounting as prescribed by the Oklahoma State Department of Education. The more significant of the District's accounting policies are described below.

1.A. Reporting Entity

The District is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes.

The District is part of the public school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on the State of Oklahoma support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the District is the Board of Education composed of elected members. The appointed superintendent is the executive officer of the District.

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and /or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its patrons. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no potential component units included in the District's reporting entity. The District has various supporting groups. However, the District does not appoint any of the board members or exercise any oversight authority over these groups and the dollar amounts are not material to the District.

1.B. Fund Accounting

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain district functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies, (continued)

1.B. Fund Accounting, Governmental Fund Types, (continued)

Governmental Fund Types

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds).

1. General Fund - The General Fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenues sources include state and local property taxes and state funding under the Foundation and Incentive Aid Program.

Expenditures include all costs associated with the daily operations of the schools except for programs funded for building repairs and maintenance, school construction and debt service on bonds and other long-term debt. The general fund includes federal and state restricted monies that must be expended for specific programs.

2. Special Revenue Funds - The Special Revenue Funds of the District consist of the Building Fund, Cooperative Fund and the Child Nutrition Fund.

Building Fund - The Building Fund consists of monies derived from property taxes levied for the purpose of erecting, remodeling, or repairing buildings and for purchasing furniture and equipment.

Cooperative Fund - The Cooperative Fund is established when the boards of education of two or more school districts enter into cooperative agreement and maintain joint programs. The revenues necessary to operate this cooperative program come from federal Carl Perkins funds. The expenditures for this fund consist of those necessary to operate and maintain the joint programs. Wynnewood is the LEA for the cooperative.

Child Nutrition Fund - The Child Nutrition Fund consists of monies collected from meals served to students and employees of the district and is expended on food, supplies and salaries to operate the lunchroom. The district also deposits reimbursements received from the National School Lunch and Breakfast programs into this fund.

3. Debt Service Fund - The debt service fund is the District's Sinking Fund and is used to account for the accumulation of financial resources for the payment of general long-term debt principal, interest and related costs. The primary revenue sources are local property taxes levied specifically for debt service and interest earnings from temporary investments.

4. Capital Projects Fund - The Capital Projects Fund consists of the District's 2010 Building bond issues. These funds are used exclusively for acquiring school sites, constructing and equipping new school facilities, renovating existing facilities, and purchasing transportation equipment.

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies, (continued)

1.B. Fund Accounting, (continued)

Fiduciary Fund Types

Fiduciary Funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District. When these assets are held under the terms of a formal trust agreement, trust funds are used for their accounting and reporting. Agency funds generally are used to account for assets that the District holds on behalf of others as their agent and do not involve measurement of results of operations.

1. Agency Funds - The Agency Fund is the School Activities fund, which is used to account for monies, collected principally through fundraising efforts of the students and District-sponsored groups. The administration is responsible, under the authority of the Board, of collecting, disbursing and accounting for these activity funds.

Account Groups

Account groups are not funds and consist of a self-balancing set of accounts used only to establish accounting control over long-term debt and general fixed assets not accounted for in proprietary funds.

1. General long-term Debt Account Group - This account group is used to account for all long-term debt of the District, which is offset by the amount available in the debt service fund and the amount to be provided in future years to complete retirement of the debt principal. It is also used to account for liabilities for compensated absences and early retirement incentives, which are to be paid from funds provided in future years.

2. General Fixed Asset Account Group - This account group is used to account for property, plant and equipment of the District. The District does not have the information necessary to include this group in its combined financial statements.

Memorandum Only - Total Column

The total column on the general purpose financial statements is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

1.C. Basis of Accounting and Presentation

The District prepares its financial statements in a presentation format that is prescribed by the Oklahoma State Department of Education. This format is essentially the generally accepted form of presentation used by state and local governments prior to the effective date of GASB 34, *Basic Financial Statements-Management's Discussion and Analysis-for State and Local Governments*. This format significantly differs from that required by GASB 34.

The basic financial statements are essentially prepared on a basis of cash receipts and disbursements modified as required by the regulations of the Oklahoma State Department of Education (OSDE) as follows:

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies, (continued)

1.C. Basis of Accounting and Presentation, (continued)

- Encumbrances represented by purchase orders, contracts, and other commitments for the expenditure of monies and are recorded as expenditures when approved.
- Investments and inventories are recorded as assets when purchased.
- Capital assets in proprietary funds are recorded when acquired and depreciated over their useful lives.
- Warrants payable are recorded as liabilities when issued.
- Long-term debt is recorded when incurred.
- Accrued compensated absences are recorded as an expenditure and liability when the obligation is incurred.

This regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, which require revenues to be recognized when they become available and measurable, or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred for governmental fund types; and, when revenues are earned and liabilities are incurred for proprietary fund types and trust funds.

1.D. Budgets and Budgetary Accounting

The District is required by state law to prepare an annual budget. The board of education requests an initial temporary appropriations budget from the county excise board before June 30. Then no later than October 1, the board of education prepares financial statement and estimate of needs and files it with the applicable county clerk and the State Department of Education. The final budget may be revised upon approval of the board of education and the county excise board.

Under current Oklahoma Statutes, a formal budget is required for all funds except for trust and agency funds. Budgets are presented for all funds that include the originally approved budgeted appropriations for expenditures and final budgeted appropriations as adjusted for supplemental appropriations and approved transfers between budget categories.

1.E. Assets, Liabilities and Fund Equity

Cash and Cash Equivalents – For purposes of the statement of cash flows, the District considers all cash on hand, demand deposits, and highly liquid investments, with an original maturity of three months or less when purchased, to be cash and cash equivalents.

Investments - Investments consist of direct obligations of the United States government and agencies with maturities greater than three months when purchased. All investments are records at cost, which approximated market value.

Property Tax Revenues – The District is authorized by state law to levy property taxes, which consist of ad valorem taxes on real and personal property within the District. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first half of taxes are due prior to January 1. The second half is due prior to April 1.

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies, (continued)

1.E. Assets, Liabilities and Fund Equity, (continued)

If the first payment is not made timely, the entire tax becomes due and payable on January 2. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid by the following October 1, the property is offered for sale for the amount of taxes due. The owner has two years to redeem the property by paying the taxes and penalty owed. If at the end of two years the owner has not done so, the purchaser is issued a deed to the property.

Inventories – The value of consumable inventories at June 30, 2011, is not material to the basic financial statements.

Fixed Assets and Property, Plant and Equipment - The General Fixed Asset Account Group has not been presented.

Compensated Absences - Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. There are no amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources. Vested or accumulated vacation leave of proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees.

No liability is recorded for nonvesting accumulating rights to receive sick pay benefits. Vested accumulated rights to receive sick pay benefits have not been reported in the general long-term debt account group since the amount is not material to the financial statements.

Long-Term Debt – Long-term debt is recognized as a liability of a governmental fund when due or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the general long-term debt account group. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

Fund Balance – Fund balance represents the cash and investments not encumbered by purchase order, legal contracts, and outstanding warrants.

1.F. Revenue, Expenses, and Expenditures

State Sources - Revenues from state sources for current operations are primarily governed by the state aid formula under provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of the state aid funds to school districts based on information accumulated from the districts.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenue from the state to administer certain categorical education programs. The State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided. These rules also require that the money not

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 1 - Summary of Significant Accounting Policies, (continued)

1.F. Revenue, Expenses, and Expenditures, (continued)

expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Education requires that categorical educational program revenues be accounted for in the general fund.

Interfund Transactions - Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund or expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers.

Note 2 – Deposit and Investment Risk

The District held the following deposits and investments at June 30, 2011:

| | | | Carrying Value |
|--|---------------|----------|-------------------|
| Deposits | | | |
| Demand Deposits | \$ | | 1,475,521 |
| Time Deposits | | | 0 |
| Total Deposits | \$ | | 1,475,521 |
| Investments | | | |
| | Credit Rating | Maturity | Fair Value |
| | | | \$ 0 |
| Total Investments | | | \$ 0 |
| Reconciliation to the Combined Statement of Assets, Liabilities and Equity | | | |
| Cash and Cash Equivalents | | | \$ 1,473,415 |
| Activity Fund Outstanding Checks | | | 2,106 |
| Total Deposits and Investments | | | \$ 1,475,521 |

Custodial Credit Risk – Exposure to custodial credit related to deposits exists when the District holds deposits that are uninsured and uncollateralized; collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the District’s name; or collateralized without a written or approved collateral agreement. Exposure to custodial credit risk related to investments exists when the District holds investments that are uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the District’s name. The District’s policy as it relates to custodial credit risk is to secure its uninsured deposits with collateral, valued at no more than market value, at least at a level of 100 percent of the uninsured deposits and accrued interest thereon. The investment policy and state law also limits acceptable collateral to U.S. Treasury and agency securities and direct debt obligations of the state, municipalities, counties, and school districts in the state of Oklahoma, surety bonds, and letters of credit. As required by Federal 12 U.S.C.A., Section 1823(e), all financial institutions pledging collateral to the District must have a written collateral agreement approved by the board of directors or loan committee.

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 2 – Deposit and Investment Risk, (continued)

At June 30, 2011, the District was not exposed to custodial credit risk as defined above.

Investment Credit Risk – The District has no investment policy that limits its investment choices other than the limitations of state law that generally authorize investment in:

1. Direct obligations of the U.S. Government, its agencies and instrumentalities to which the full faith and credit of the U.S. Government is pledged, or obligations to the payment of which the full faith and credit of the State is pledged.
2. Certificates of deposit of banks when such certificates of deposits are secured by acceptable collateral for the deposit of public monies..
3. Savings accounts or saving certificates to the extent that such accounts or certificates are fully insured by the United States Government.
4. Repurchase agreements that have underlying collateral including obligations of the United States government, its agencies and instrumentalities, or the State of Oklahoma.
5. County, municipal or school district debt obligations for which an ad valorem tax may be levied.
6. Money market funds regulated by the SEC and in which investments consist of the investments consist of obligations of the United States, its agencies and instrumentalities.
7. Warrants, bonds or judgments of the school district.
8. Qualified pooled investment programs through an interlocal cooperative agreement formed pursuant to applicable law and to which the board of education has voted to be a member, the investments of which consist of those items specified in paragraphs 1 through 7 above, as well as obligations of the United States agencies and instrumentalities.
9. Any other investment that is authorized by law.

Investment credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The District has no formal policy limiting investments based on credit rating, but discloses any such credit risk associated with their investment by reporting the credit quality ratings of investment in debt securities as determined by nationally recognized statistical rating organizations-rating agencies-as of the year end. Unless there is information to the contrary, obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality.

The district had no investment credit risk as of June 30, 2011, as defined above.

Investment Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District discloses its exposure to interest rate risk by disclosing the maturity dates of its various investments. The District had no investment interest rate risk as defined above.

Concentration of Investment Credit Risk – Exposure to concentration of credit risk is considered to exist when investments in any one issuer represent a significant percent of total investments of the District (any over 5 percent are disclosed). Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this consideration. The District places no limit on the amount it may invest in any one issuer.

At June 30, 2011, the District had no concentration of credit risk as defined above.

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 3 - General Long-term Debt

State statutes prohibit the District from becoming indebted in an amount exceeding the revenue to be received for any fiscal year without approval by the District's voters. Bond issues have been approved by the voters and issued by the District for various capital improvements and transportation purposes. These bonds are required to be fully paid serially within 25 years from the date of issue.

General long-term debt of the District consists of bonds payable and capital leases. Debt service requirements for bonds are payable solely from the fund balance and future revenues of the debt service fund.

The following is a summary of the long-term debt transactions of the District for the year ended June 30, 2011:

| | Bonds Payable | Capital Lease Obligations | Compensated Absences | Total |
|------------------------|---------------|---------------------------|----------------------|---------|
| Balance July 1, 2010 | 710,000 | 194,429 | 0 | 904,429 |
| Additions | 0 | 14,869 | 0 | 14,869 |
| Retirements | 215,000 | 31,983 | 0 | 246,983 |
| Balance, June 30, 2011 | 495,000 | 177,315 | 0 | 672,315 |

A brief description of the outstanding general obligation bond issues at June 30, 2011, is set forth below:

| | Interest Rate | Maturity Date | Amount Issued | Amount Outstanding |
|---------------------------|-------------------|---------------|---------------------|--------------------|
| 1997 Building Bonds | 3.90-5.00% | Sept. 1, 2011 | \$ 850,000 | \$ 70,000 |
| 2007 Transportation Bonds | 3.45-4.45% | May 1, 2012 | 600,000 | 150,000 |
| 2010 Building Bonds | 1.25% | June 1, 2012 | <u>275,000</u> | <u>275,000</u> |
| | | | \$ <u>1,725,000</u> | \$ <u>495,000</u> |

Presented below is a summary of debt service requirements to maturity by years and by each bond issue:

| | Principal | Interest | Total |
|---------------------------|-------------------|------------------|-------------------|
| 1997 Building Bonds | | | |
| 2011-12 | \$ <u>70,000</u> | \$ <u>1,750</u> | \$ <u>71,750</u> |
| Sub Total | \$ <u>70,000</u> | \$ <u>1,750</u> | \$ <u>71,750</u> |
| 2007 Transportation Bonds | | | |
| 2011-12 | \$ <u>150,000</u> | \$ <u>5,250</u> | \$ <u>155,250</u> |
| Sub Total | \$ <u>150,000</u> | \$ <u>5,250</u> | \$ <u>155,250</u> |
| 2010 Building Bonds | | | |
| 2011-12 | \$ <u>275,000</u> | \$ <u>3,438</u> | \$ <u>278,438</u> |
| Sub Total | \$ <u>275,000</u> | \$ <u>3,438</u> | \$ <u>278,438</u> |
| Total Bonds | \$ <u>495,000</u> | \$ <u>10,438</u> | \$ <u>505,438</u> |

Interest expense on bonds payable incurred during the current year totaled \$19,030.

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 3 - General Long-term Debt, (continued)

The District has entered into lease agreements as lessee for financing the acquisition of an Energy Management System, copiers, and a consolidated lease agreement. These lease agreements qualify as capital leases for accounting purposes since title transfers at the end of the lease terms and they have been recorded at the present value of the future minimum lease payments. These leases contain a clause which gives the District the ability to terminate the lease agreements at the end of each fiscal year.

As noted in Note 1 to the financial statements, the District does not record fixed assets in the financial statements. Consistent with this, the District has not recorded the above assets as assets in the General Fixed Assets Account Group. The District has recorded the liability for future lease payments in the general long-term debt account group for the above leases. The schedule of future minimum lease payments under the capital leases and the present value of the net minimum lease payments at June 30, is as follows:

| Year Ending | | Energy | Consolidated | |
|--|------------------|-------------------|------------------|-------------------|
| June 30 | Copiers | Maint. System | Bus Barn | Total |
| 2012 | \$ 3,372 | \$ 26,810 | \$ 22,360 | \$ 52,542 |
| 2013 | 3,372 | 26,810 | 22,360 | 52,542 |
| 2014 | 3,372 | 26,810 | 11,179 | 41,361 |
| 2015 | 3,372 | 26,810 | 0 | 30,182 |
| 2016 | <u>561</u> | <u>26,809</u> | <u>0</u> | <u>27,370</u> |
| Total | \$ 14,049 | \$ 134,049 | \$ 55,899 | \$ 203,997 |
| Less: Amount Representing Interest | <u>(1,408)</u> | <u>(21,426)</u> | <u>(3,848)</u> | <u>(26,682)</u> |
| Present Value of Future Minimum Lease Pmts | <u>\$ 12,641</u> | <u>\$ 112,623</u> | <u>\$ 52,051</u> | <u>\$ 177,315</u> |

Note 4 - Employee Retirement System

Plan Description - The District participates in the state-administered Oklahoma Teachers' Retirement System (the "System") which is a cost-sharing multiple-employer defined benefit Public Employee Retirement System. Under the System the District, the State of Oklahoma, and the participating employees make contributions. Participation is required for all teachers and other certified employees and is optional for all other regular employees of public educational institutions who work at least 20 hours per week. A participant's date of membership is the date the first contribution is made to the System. The System is administered by a board of trustees which acts as a fiduciary for investing the funds and governing the administration of the System. The district has no responsibility or authority for the operation and administration of the System nor has it any liability, except for the current contribution requirements.

The System issues an independent financial report, financial statements and required supplementary information that can be obtained in writing at the Teachers' Retirement System of Oklahoma, P.O. Box 53524, Oklahoma City, Ok 73152 or by calling (405) 521-2387.

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 4 - Employee Retirement System, (continued)

A participant with five years of creditable service may retire with a normal retirement allowance at the age of sixty-two or with reduced benefits as early as age fifty-five. The normal retirement allowance paid monthly for life and then to beneficiaries, if certain options are exercised, equals two percent or the average of the highest three earning years of contributory service multiplied by the number of years of credited service. A participant leaving employment before attaining retirement age, but completing ten years of service, may elect to vest his accumulated contributions and defer receipt of a retirement annuity until a later date. When a participant dies in active service and has completed ten years of credited service, the beneficiary is entitled to a death benefit of \$18,000, and the surviving spouse may, in lieu of the death benefit, elect to receive, subject to the surviving spousal options, the participant's retirement benefits accrued at the time of death. The contribution rates for the Districts, which are not actuarially determined, and its employees are established by statute and applied to the employee's earnings, plus employer-paid fringe benefits. The District is required by statute to contribute 9.50% of applicable compensation for the year ended June 30, 2011. The District is allowed by the Oklahoma Teacher's Retirement System to make the required contributions on behalf of the participating members. The required contribution for participating members is 7%.

The District's contributions to the System for the years ending June 30, 2011, 2010, and 2009 were \$213,812, \$228,960, and \$215,439 respectively.

The compensation for employees covered by the System for the year ended June 30, 2011 was \$2,250,645; the District's total compensation was \$2,964,465. In addition to the District's 9.50% contributions, the District was required to pay into the System 6.5% of compensation arising from federal grants (\$9,094) and 9.50% of compensation arising from post retirement employees (\$1,905). There were \$119,818 contributions made by employees during the year ended June 30, 2011.

The pension benefit obligation is a standardized disclosure measure of the present value of pension benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee services performed to date and is adjusted for the effect of projected salary increases. There are no actuarial valuations performed on individual school districts. The nonfunded pension benefit obligation of the System as determined as part of the latest actuarial valuation dated June 30, 2010, is as follows:

| | |
|--|--------------------------|
| Total pension obligation | \$ 19,980,640,592 |
| Net assets available for benefits, at cost | <u>9,566,683,405</u> |
| Nonfunded pension benefit obligation | <u>\$ 10,413,957,187</u> |

The System's accounting records are maintained on the cash basis of accounting, except for accruals of interest income.

Ten-year historical trend information is presented in the Teacher's Retirement System of Oklahoma Annual Report for the year ended June 30, 2010. This information is useful in assessing the pension plan's accumulation of sufficient assets to pay pension benefits as they come due.

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 5 - Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agency. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial. The District is currently involved in pending or threatened litigation, the results of which are undeterminable. Therefore, any fair value of these contingencies cannot be reasonably estimated.

The FFA booster club is making payments for an Integrity 24 Ft. Gooseneck Stock Trailer that will be owned by the district upon payoff of lease. The lease purchase calls for 5 annual payment of \$3,812.04 beginning January 7, 2008. Should the booster club, not be able to make this payment, the school would have to make the payment or the stock trailer would have to be returned to the vendor.

Note 6 – Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, employees' health and life and natural disasters. The District manages these various risks of loss through the purchase of commercial insurance. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this insurance coverage in any of the past three fiscal years.

Note 7 - Use of Estimates

The preparation of financial statements in conformity with the cash basis and budget laws of the Oklahoma State Department of Education requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 8 – Budget Amendments

The General Fund Budget was amended during the year by filing a supplemental appropriation form with the county clerk's office. The supplemental appropriation was filed for \$403,719.76. This increased the original General Fund Budget from \$3,623,121 to \$4,026,841.

The Cooperative Fund Budget was amended during the year by filing a supplemental appropriation form with the county clerk's office. The supplemental appropriation was filed for \$1,440.00. This increased the original Cooperative Fund Budget from \$24,337 to \$25,777.

Wynnewood ISD No. 38, Garvin County
Notes To The Financial Statements
For The Year Ended June 30, 2011

Note 9 – Surety Bonds

The minute clerk, encumbrance clerk and lunch fund are bonded by Western Surety Company bond number 70385130 for the penal sum of \$1,000 for the term January 2, 2011 to January 2, 2012.

The Superintendent is bonded by RLI Insurance company bond #LSM0221414 for the penal sum of \$100,000 for the term June 30, 2010 to June 30, 2011.

The treasurer is bonded by Western Surety Company bond number 69259345 for the penal sum of \$100,000 for the term December 5, 2010 to December 5, 2011.

The secretary/activity fund custodian is bonded by RLI insurance company bond #LSM0198637 for the penal sum of \$2,000 for the term June 10, 2010 to June 10, 2011.

Note 10 – Negative Fund Balances

The Cooperative fund had a negative \$3,691.03 fund balance as of June 30, 2011. This was due to a federal claim being filed late in June and the school not receiving the reimbursement until July 2011. If those funds had been received prior to June 30, 2011, the district would have ended with positive fund balances.

Note 1 - The Schedule of Federal Awards expended was prepared using the same accounting policies used in preparing the District's Financial Statements. The District's policy is to recognize expenditures when encumbered (contracted for) rather than at the time the related fund liability is incurred.

Note 2 - The District does not track expenditures paid from these federal programs separately. Thus, expenditure amounts are the amount of federal revenues received from these programs during the fiscal year.

Note 3 - Commodities received in the amount of \$ 11,327 were of a nonmonetary nature and therefore the total revenue does not agree with the financial statements by this amount.

The following transactions related to the American Recovery and Reinvestment Act:

| | CFDA # | Program # | Federal Grant Receipts | Federal Grant Expenditures | ARRA Deferred Revenue (Accounts Rec) |
|-----------------------------------|--------|-----------|------------------------|----------------------------|--------------------------------------|

CERTIFIED PUBLIC ACCOUNTANTS

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Honorable Board of Education
Wynnewood Independent School District #38
Garvin County, Oklahoma

Board Members:

We have audited the fund type and account group financial statements, including budget and actual, of **Wynnewood Independent School District #38**, as of and for the year ended June 30, 2011, which collectively comprise the District's regulatory financial statements, as listed in the table of contents as combined financial statements, and have issued our report thereon dated January 10, 2012. The report on these financial statements was adverse because the District has elected to prepare its financial statements in conformity with the accounting and financial reporting regulations prescribed or permitted by the Oklahoma State Department of Education, which is a material departure from accounting principles generally accepted in the United States of America. Our opinion regarding the presentation of the financial statements referred to above in conformity with the prescribed basis of accounting was qualified due to a departure related to the general fixed assets. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting. (Finding 2011-1, 2011-2, 2011-3) A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. We did not audit the District's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the board of education of **Wynnewood Independent School District #38**, Oklahoma State Department of Education, and certain federal regulatory agencies and is not intended to be, and should not be used by anyone other than these specified parties.

CERTIFIED PUBLIC ACCOUNTANTS

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH
REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT
ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

The Honorable Board of Education
Wynnewood Independent School District #I-38
Garvin County, Oklahoma

Board Members:

Compliance

We have audited **Wynnewood Independent School District #I-38**, Garvin County, Oklahoma's, compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2011. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, **Wynnewood Independent School District #I-38, Garvin County**, Oklahoma complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

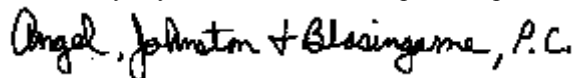

Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Entity's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the governing board, management, others within the agency, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Section 2

Financial Statement Findings

Finding 2011-1

Statement of Condition - The Band and FFA Sponsors did not turn in receipt books or reconciliations for their fundraisers.

Criteria - To establish good internal controls, sponsors should prepare reconciliations of their fundraisers and issue pre-numbered receipts. Also, Oklahoma statutes state "Pre-numbered school activity fund receipts shall be issued for every sub-account for each fiscal year".

Cause/Effect of Condition - Sponsors did not follow procedures. Thus, amounts collected for these sub-accounts could not be adequately verified.

Recommendation - Sponsors should issue receipts for all collections and turn the receipt books into the activity fund custodian at year end to keep with the district's permanent records. We also recommend that sponsors perform a reconciliation for each fundraiser and turn it into the activity fund custodian at the end of a fundraiser.

Views of Responsible Officials and Planned Corrective Action - These particular sponsors are no longer employed with the school and new sponsors have been informed of required procedures. Also, the school was able to locate a partial FFA receipt book.

Finding 2011-2

Statement of Condition - Review of an Art fundraiser showed profit was well below what the projected profit should have been based on the mark up used on the product sale. The profit was only 25% compared to an estimated profit of approximately 63%. No product was left over.

Criteria - To establish good internal controls, sponsors should prepare reconciliations of their fundraisers explaining any differences between expected and actual profit.

Cause/Effect of Condition - Sponsor did not account for all purchases and deposits on a reconciliation sheet, and multiple fundraisers were deposited together, making it difficult to trace deposits to a specific fundraiser.

Recommendation - We recommend fundraiser reconciliation sheets be filled out accurately. Also, each fundraiser should have separate deposits in order to better track profit margins.

Views of Responsible Officials and Planned Corrective Actions - Reconciliations will be required to be completed and deposits for different fundraisers will be made separately.

Finding 2011-3

Statement of Condition - Cash to make change from the snack bar remained in the vault instead of being deposited at the end of the school year.

Criteria - The snack bar proceeds should be accounted for in the same manner as other child nutrition local collections. Therefore, all remaining funds should be transferred to the child nutrition fund as of June 30 each year.

Cause/Effect of Condition - School employees thought since it was only \$50 that it would not make any difference. Therefore, this money was not accounted for through OCAS accounting records as required by state law.

Recommendation - We recommend this cash be deposited back into the account at yearend and transferred to the child nutrition fund.

Views of Responsible Officials and Planned Corrective Action - Snack Bar Cash will be deposited and transferred to the child nutrition fund each yearend.

Section 3

Federal Award Findings and Questioned Costs

(None)

Wynnewood ISD No. 38, Garvin County

Summary Schedule of Prior Year Audit Findings

Year Ended June 30, 2011

Financial Statement Findings

2010-1 -Finding - Lack of Segregation of Duties

Statement of Condition - The District has a lack of segregation of duties in the activity fund. The activity fund custodian receives and deposits all money for the fund, enters all transactions into the accounting system, prints the checks and is one of the two required signatures on the checks.

Criteria - A good system of internal controls provides for a proper segregation of the collecting, check writing and reconciling functions.

Cause/Effect of Condition - Due to the limited number of personnel available in the accounting area, there is a Possibility that errors or irregularities may occur and not be detected within a timely period by another employee while Performing their normal procedures.

Recommendation - The board should assess the advantages of segregating the accounting function in order to determine whether hiring additional personnel would be cost effective.

Current Status – The District does not feel that it would be cost effective to hire additional employees in order to segregate duties.

Management Letter Findings:

2010-2 Finding – It appears activity fund items are still being ordered prior to a purchase order being approved. 11 of 21 purchase orders tested were dated after the invoice date. 2 of these instances occurred while the prior activity fund custodian was there and 9 occurred after she left.

Recommendation – Goods/services should not be ordered prior to a purchase order being approved.

Current Status – **This was corrected during the 2010-11 year.**

2010-3 – Finding – State law requires the treasurer receive 12 hours CPE every 3 years. The treasurer could only provide documentation of 11 ½ of CPE.

Recommendation – The treasurer should complete the amount of continuing professional education required by law.

Current Status – This was corrected during the 2010-11 year.

2010-4 – Finding – The district opened a bank account to pay for cable service (the cable company required direct withdrawal to provide the service) the for a special education student to do internet based education. When the student left the district, the account was closed. The district did not receive board approval for opening or closing the bank account.

Recommendation – Opening and closing of all bank accounts should be approved by the board of education.

Current Status – We did not note any bank accounts being opened or closed during the 2010-11 year.

2010-5 – Finding - We found 2 checks in the activity fund (CK#2) with the same check number. The checks were listed in the accounting system as check #2 and check #3. One of the checks was typed rather than printed from the accounting system. Although the person who prepared the checks is no longer with the district, the district believes they issued the manual check because the beginning balances had not yet been entered into the accounting system.

Recommendation – We recommend all activity fund checks be issued through the district's accounting software to prevent duplicate check numbers from being issued.

Current Status – There were no noted instances of duplicate check numbers during the 2010-11 year.

2010-6 – Finding – We noted the following exceptions while testing the FFA subaccount of the activity fund:

- Total revenue for FFA was \$42,489.01 but total receipts issued were only \$28,777.50. Thus, it appears the sponsor is not issuing receipts to all students.
- Some deposits were held by the sponsor for up to 45 days before turning the money into the activity fund custodian
- School does not separate revenue for different fundraiser activities when making/recording deposits so there is no way to accurately determine what the fundraiser collections actually were.

Recommendation – We recommend receipts be issued whenever possible and that sponsors turn money in daily to the activity fund custodian for deposit. We also recommend that more detail be made for deposits so that specific fundraisers can be tracked for profit or loss.

Current Status – We continued to note receipts were not being issued.

2010-7 – Finding - The school could not locate receipt books for the band or MS pep club sub-accounts in the activity fund. State law requires receipts be issued to students whenever possible.

Recommendation – We recommend sponsors issue receipts to students and that these receipt books be turned in to the activity fund custodian at year end and kept with the schools permanent records.

Current Status – We noted the band and FFA sponsors did not turn in receipt books for the 2010-11 year.

2010-8 – Finding – We noted errors on almost all of the football and basketball gate and concession reconciliations that we tested. Some did not reconcile cash collected to tickets sold, 1 count sheet did not have signature of concession workers counting money, and 1 gate deposit was made 4 days after the game. Also, one gate revenue was deposited into the concession account and the concession was deposited to the gate account.

Recommendation – Care should be taken to ensure that all gate and concession reconciliation sheets are complete and signed by 2 individuals counting the money. Also deposits should be made timely.

Current Status – This area was much improved for the 2010-11 year.

2010-9 – Finding – During preparation of the estimate of needs, we noted the school received \$60,000 in loan proceeds from State Bank of Wynnewood. The bank and the school entered into a lease purchase agreement for these funds, however, the transactions were not handled like a lease purchase. We cannot find anything in the law that would allow a lender to deposit money into the school's bank account and to then issue warrants on these borrowed funds.

The district deposited \$39,249.62 into the general fund and \$20,750.38 into the building fund and coded it to revenue source code 1690. They used the general fund proceeds to payoff a \$17,331.01 lease-purchase on the ag pickup. They used the building fund proceeds to pay off a \$20,750.38 lease purchase on the bus barn and \$21,918.61 to build a retaining wall and make other improvements at the bus barn. The district reclassified the revenues and expenditures to the 5600 code. Also, they reclassified \$21,918.61 from the general fund to the building fund to reflect where the expenditures were actually paid.

Recommendation – We recommend the district contact their attorney before entering into any financing arrangements.

Current Status – This was added to the financial statements as a lease purchase last year.
