#### INDEPENDENT AUDITOR'S REPORT

The Honorable Board of Education Zaneis School District No. CO72 Wilson, Oklahoma

#### **Report on the Financial Statements**

## Management's Responsibility of the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Oklahoma State Department of Education as described in Note 1. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risks assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting

policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# 1. Summary of Significant Accounting Policies

The basic financial statements of the Zaneis School District, CO72, Carter County, Oklahoma (the "District") have been prepared in conformity with another comprehensive basis of accounting as prescribed by the Oklahoma State Department of Education. The more significant of the District's accounting policies are described below.

# A. The Reporting Entity

The District is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes. The District is part of the public school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on state of Oklahoma for support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the District is the Board of Education composed of elected members. The appointed administrative principal is the executive officer of the District.

In evaluating how to define the district, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the District and/or its citizens, or whether the activity is conducted within the geographic boundaries of the district and is generally available to its patrons. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no potential component units included in the District's reporting entity.

#### 1. Summary of Significant Accounting Policies (continued)

#### **B.** Fund Accounting

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain district functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into two categories: governmental and fiduciary. Each category, in turn, is divided into separate "fund types."

# Governmental Fund Types

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds).

<u>General Fund</u> - The general fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenue sources include state and local property taxes and state funding under the Foundation and Incentive Aid Program. Expenditures include all costs associated with the daily operations of the schools except for programs funded for building repairs and maintenance, school construction and debt service on bonds and other long-term debt. The general fund includes federal and state restricted monies that must be expended for specific programs.

<u>Special Revenue Fund</u> - The special revenue fund consists of the District's Building Fund, Child Nutrition Fund, and Municipal Tax Fund. The Building fund consists of monies derived from property taxes levied for the purpose of erecting, remodeling, or repairing buildings and for purchasing furniture and equipment. The Child Nutrition Fund derives monies from local sources for meals. Reimbursements are received from state and federal sources for reimbursement of free and reduced lunches. The Municipal Sales Tax Fund consists of monies derived from a county sales tax collected on behalf of the school district for purposes of technology equipment and instruction and classroom materials.

## 1. Summary of Significant Accounting Policies (continued)

# **B.** Fund Accounting (continued)

Fiduciary Fund Types

<u>Agency Fund</u> - The Agency fund is the School Activities fund which is used to account for monies collected principally through fundraising efforts of the students and District-sponsored groups. The administration is responsible, under the authority of the Board, of collecting, disbursing and accounting for these activity funds.

# Account Groups

Account groups are not funds and consist of a self-balancing set of accounts used only to establish accounting control over long-term debt and general fixed assets not accounted for in proprietary funds. The District does not include a general fixed-assets account group.

<u>General Long-Term Debt Account Group</u> - This account group was established to account for all long-term debt of the District, which is offset by the amount available in the debt service fund and the amount to be provided in future years to complete retirement of the debt principal.

<u>General Fixed Asset Account Group</u> - This account group is used to account for property, plant and equipment of the school district. The District does not maintain the fixed asset records necessary to account for this account group.

#### Memorandum Only - Total Column

The total column on the basic regulatory financial statements is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

#### C. Basis of Accounting and Presentation

The District prepares its financial statements in a presentation format that is prescribed by the Oklahoma State Department of Education. This format is essentially the generally accepted form of presentation used by state and local governments prior to the effective date of GASB Statement No. 34, Basic Financial Statements-Management's Discussion and Analysis-for

State and Local Governments. This format significantly differs from that required by GASB 34.

The basic financial statements are essentially prepared on a basis of cash receipts and disbursements modified as required by the regulations of the Oklahoma State Department of Education (OSDE) as follows:

- Encumbrances represented by purchase orders, contracts, and other commitments for the expenditure of monies and are recorded as expenditures when approved.
- Investments are recorded as assets when purchased.
- Warrants payable are recorded as liabilities when issued.
- Long-term debt is recorded when incurred.
- Accrued compensated absences are recorded as an expenditure and liability when the obligation is incurred.

This regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, which require revenues to be recognized when they become available and measurable, or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred for governmental fund types.

*Estimates* - The preparation of financial statements in conformity with the regulatory basis of accounting requires the District to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

*Noncash Transactions* - The District received federal food commodities in the amount of \$11,951 passed through the State Department of Human Services and used in the Child Nutrition program. In addition, the State of Oklahoma paid approximately \$12,246 directly to the teacher retirement fund on behalf of the District's employees.

# D. Budgets and Budgetary Accounting

The District is required by state law to prepare an annual budget. No later than October 1, each board of education shall prepare a financial statement and estimate of needs to be filed with the applicable count clerk and the State Department of Education. Once the county excise board has approved the estimate of needs, the board shall adopt a final budget within 45 days or the second regularly scheduled board meeting. No later than 15 days prior to adoption of a final budget, the board must conduct a public hearing for purposes of taking public comments. The final budget may be revised upon approval of the Board of Education in open meeting.

# 1. Summary of Significant Accounting Policies (continued)

### D. Budget and Budgetary Accounting (continued)

Under current Oklahoma Statues a formal budget is required for all funds except for trust and agency funds. Budgets are presented for all funds that include the originally approved budgeted appropriations for expenditures and final budgeted appropriations as adjusted for supplemental appropriations and approved transfers between budget categories.

## E. Assets Liabilities and Fund Equity

Investments – The District's investment policies are governed by Oklahoma Statutes. Permissible investments include direct obligations of the United States government and agencies, certificates of deposits of savings and loan associations, and bank and trust companies; and savings accounts or savings certificates of savings and loan associations, banks and trust companies. Collateral is required for all amounts not covered by FDIC insurance.

Property Tax Revenues - The District is authorized by state law to levy property taxes which consist of ad valorem taxes on real and personal property within the District. The County Assessor, upon receipt of the certification of tax levies from the county excise board, extends the tax levies on the tax roll for submission to the county treasurer prior to October 1. The county treasurer must commence tax collection within fifteen days of receipt of the tax rolls. The first halves of taxes are due prior to January 1. The second half is due prior to April 1.

If the first payment is not made timely, the entire tax becomes due and payable on January 2. Second half taxes become delinquent on April 1 of the year following the year of assessment. If not paid for a period of three years or more as of the date such taxes first become due, the property is offered for sale for the amount of taxes due.

*Inventories* - The value of consumable inventories at June 30, 2021 is not material to the financial statements.

Compensated Absences - Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure of the governmental funds that will pay it. There are no amounts of vested or accumulated vacation leave.

## 1. Summary of Significant Accounting Policies (continued)

### E. Assets Liabilities and Fund Equity (continued)

Long-Term Debt - Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the general long-term debt account group.

Fund Balance - Fund balance represents the funds not encumbered by purchase order, legal contracts, and outstanding warrants.

## F. Revenue, Expenses and Expenditures

State Revenues - Revenues from state sources for current operations are primarily governed by the state aid formula under the provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of state aid funds to school districts based on information accumulated from the districts. Approximately 64% of the District's General Fund revenue comes from state sources.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenue from the state to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Education requires that categorical education program revenues be accounted for in the general fund.

*Interfund Transactions* - Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund or expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the fund that is reimbursed.

# 1. Summary of Significant Accounting Policies (continued)

### F. Revenue, Expenses and Expenditures (continued)

All other interfund transactions, except quasi-external transactions which are reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers.

#### 2. Cash

Custodial Credit Risk - Custodial credit risk for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned or the District will not be able to recover collateral securities in the possession of an outside party. The District's policy requires collateral for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance.

As of June 30, 2021, cash deposits were fully insured or collateralized by a pledging bank's agent in the District's name. All funds were held as demand deposits at a local bank.

## 3. General Long Term Debt

General long-term debt of the District consists of a capital lease. The following is a summary of the long-term debt transactions of the District for the year ended June 30, 2021:

	Beginning Balance Additions			Re	ductions	Ending Balance		
Capital Lease Obligations	\$ 67,547	\$	_	\$	21,264	\$	46,283	
	\$ 67,547	\$	-	\$	21,264	\$	46,283	

#### Capital Leases

The District entered into a lease agreement as lessee for financing the acquisition of land. For accounting purposes since the title transfers at the end of the lease term, it has been recorded at the present value of the future minimum lease payments. The leases contain a clause which provides the ability to terminate the agreement at the end of each fiscal year. The District has recorded the liability for future lease payments in the general long-term debt group.

# 3. General Long Term Debt (continued)

The lease purchase agreement was in the amount of \$110,000 at an interest rate of 3.031% payable in five annual payments of \$23,929 starting May 31, 2019, with final payment on May 31, 2023 for a total amount to be paid of \$119,643.

Future Minimum lease payment on this lease is as follows:

Year Ended June 30,	Amount Due
2022	22,560
2023	23,723
	46,283
Less: Interest	(2,212)
Total	\$ 44,071

Accordingly, we do not express an opinion on the effectiveness of Zaneis School District No. CO72, Carter County, Oklahoma's internal control over compliance.

## Section II – Financial Statement Findings

#### 2021-001 Financial Reporting

Criteria:

Condition: The District does not have a financial reporting system in place to ensure that all financial information is disclosed in the appropriate accounting period and in accordance with the regulatory basis of

accounting and State Department of Education guidelines. In addition, the District does not report a general fixed asset account group as required by the State Department of Education guidelines.

group as required by the State Department of Education guidelines.

The responsibility for the financial statements remains with management even when the preparation of the financial statements is transferred to a service provider. An individual with sufficient awareness of disclosure requirements should be designated to

oversee the preparation of the financial statements.

Cause: The internal control structure of the District focuses primarily on

daily operations. The District does have a system of financial reporting that determines the trial balances used in financial statement preparation are final. The District does not currently have a system in place to determine appropriate financial statement disclosures. The District also does not have a system for

accounting for general fixed assets.

Effect: Potential that financial statement disclosures will be incomplete.

Scope limitation on the audit for the general fixed asset account

group.

Recommendation: We recommend that the District evaluate the costs of providing for

the additional assistance needed for the year-end financial reporting process to determine it is in accordance with accounting

and regulatory requirements.

Views of Responsible Officials and Planned Corrective

Action: The District's current budget constraints do not allow for the

addition of an outside consultant to assist in the year-end financial reporting process. Management reviews disclosures as presented to

determine that they are accurate.

### Carter County, Oklahoma

Schedule of Findings and Questioned Costs

For the Year Ended June 30, 2021

#### 2021-002 Classification of exempt and non-exempt employees

Condition: The District is not properly classifying employees as exempt vs

non-exempt.

Criteria: The Fair Labor Standards Act (FLSA) requires that most

employees be paid at least the federal minimum wage for all hours worked and overtime for all hours worked over 40 hours in a work week. Section 13(a)(1) of the FLSA provides an exemption from both Minimum wage and overtime pay for employees who meet

the FLSA definition of an exempt employee.

Cause: The District does not have a well-defined set of policies and

procedures within payroll to correctly identify exempt and non-

employees.

Employees are not correctly identified as exempt vs. non-exempt,

and overtime is not monitored or properly compensated.

Recommendation: We recommend the District properly classify employees according

to FLSA regulations. We also recommend the District develop and implement new policies and procedures that are consistent with

FLSA.

Views of Responsible Officials

and Planned Corrective

Action: The District will implement procedures to evaluate the non-exempt

employees working more than one job for District and adjust their schedule or compensate them accordingly to the weighted overtime

rate.

#### **2021-003** Coding of Revenues and Expenditures

Condition: Federal revenues and expenditures were not properly coded as

federal in the Oklahoma Cost Accounting System (OCAS).

Criteria: Oklahoma Administrative Code (OAC) 210:25-5-4a The financial

structure of an Oklahoma public school district consists of various classifications as referenced in Oklahoma Administrative Code (OAC) 210:25-7-1, (Oklahoma Cost Accounting System [OCAS]). School District accounting systems shall be organized and operated on a basis that assures legal compliance by the recording and summarizing of financial transactions within funds, each of which is completely independent of any other. Each fund shall account for and continually maintain the identity of its revenues and

expenditures.

## Schedule of Findings and Questioned Costs

For the Year Ended June 30, 2021

Cause: The funds were from a new pass-thru entity and were not identified

in the OCAS manual of revenue source code or expenditure project code. Thus, the funds were not coded as federal. This resulted in not being included on the Schedule of Expenditures of Federal Awards (SEFA) preparation. Nor were the funds identified as federal expenditures in data

submitted to State Department of Education.

Effect:
