Calendar Year 2014 Fee Analysis

August 19th, 2015

Don Stracke, CFA, CAIA, Senior Consultant
Tony Ferrara, CAIA, Senior Analyst

255 State Street, Boston, MA 02109 | TEL: 617.374.1300 | FAX: 617.374.1313 | www.nepc.com

BOSTON | ATLANTA | CHARLOTTE | CHICAGO | DETROIT | LAS VEGAS | SAN FRANCISCO

Within Public Markets (Both Equity & Fixed) there are 3 general types of Fee structures:

1. Flat Fee

- A flat basis point fee that is charged no matter the size of the mandate
- Typically used for passive or indexed mandates

2. Tier or Asset-Based Fee (Declining Marginal Rate Fee Structure)

- A fee schedule that includes breakpoints or “Tiers” based on the size of the mandate
- The breakpoints will provide lower fees as the amount of assets grows
- These fee structures are offered by passive and active managers and are the most prominently used (100 bps on the first \$50 mm, 75 bps on the next \$50 mm, with 50 bps on assets over \$100mm)

3. Performance-Based Fee

- A fee schedule that includes the ability for the manager to profit from the performance of a portfolio
- The fee is comprised of a base fee, which is substantially lower than the customary or normal fee, and a performance component that is earned or exceeded only when the manager earns a required excess returns (See Appendix for Formula)

Notes:

- Performance fees do not lead to better performance
- Clients may be able to negotiate better fees using the performance fee approach, since manager most-favored-nation restrictions are less binding
- When managers seriously underperform, the optics are better, but in rising markets fees can be noticeably higher

Within the private equity and hedge fund fees, there are different types of fee structures which depend on the type of vehicle:

1. Private Equity Fee Structures

- Fees are typically much higher than for public market assets
- Fees structures often include the following components:
 - Management Fee – Typically 1-2%
 - Performance Fee or “carry” – Typically 20% of performance above a preferred return payable after all capital is returned
 - Preferred return or “hurdle rate” which needs to be attained in order to earn the performance fee– Typically 6-10%
- Fees often paid on committed, not invested capital, although this is changing

2. Hedge Fund Fee Structures

- Fees are very high compared to traditional managers
- Fees are made up of two components:
 - Management Fee
 - A fixed fee usually determined as a percentage of assets
 - Typically between 1-3%
 - Performance Fee:
 - Based on net new performance
 - Generally subject to a “highwater mark” or max fee
 - Typically between 15-30% of performance, which can be either above a hurdle or simply a positive return

- **Competitive pressures are leading to lower fees**
- **In Public Markets, chronic manager underperformance has led to increased use of passive management**
- **In Alternatives, 1) Fees are coming down 2) Increasingly fees are being quoted on invested or drawn amounts, and 3) Non-zero hurdle rates are becoming more common**
- **Public Entities are facing greater political pressures on fees**

Fee Comparison from 2013 to 2014 – Using Monthly Average of Market Values

Appendix

Where:

- **BF** = **Base Fee, a substantial discount from the normal fee**
- **PF** = **Performance Fee**
- **NF** = **Normal Fee, manager's standard fee schedule for public fund**
- **RER** = **Required Excess Return, the premium to be earned above the benchmark or market rate of return to earn the normal fee**
- **PR** = **Portfolio Return**
- **MR** = **Benchmark, the market or other index return which represents the minimum performance standard**

$$(NF - BF) / (RER) \times (PR - MR - BF)$$

- (The Maximum Fee should be symmetrically balanced, i.e., the sum of the BF and the PF should equal the BF plus two times the sum of the NF minus the BF. In no event can the MF (PF plus the BF) exceed the BF plus two times the sum of the NF minus the BF)
- For the initial three quarters, the manager will receive a fee equal to the Base Fee. After the end of the fourth quarter under management an annualized fee calculation will be computed to award a performance fee due to the initial twelve-month period. If the Agreement is extended for the fifth through twelfth quarters, the annualized performance fee calculation will be made each quarter on a cumulative, annualized, basis. Thereafter, the performance fee calculation will be based on the cumulative, annualized returns for the immediately preceding twelve quarters.
